Introduction	6
Scope	6
Organizers	7
Conference Board.....	7
Keynote speakers.....	8
Short papers.....	10
10 years of 3D Printing at Kielce University of Technology	11
Thermo-mechanical properties of ABS matrix composite filament reinforced with multi-layer graphite oxide composite fibers for FDM 3D printing.....	13
Generative Design and 3D Printing in everyday life.....	15
Fundamental research of PLA/Fe composite’s properties for 3D/4D printing machines	17
Experimental study of effect of emulsion rheological characteristics on the pipeline flow.....	19
Bottle Inspection System for Classification with Machine Vision.....	21
A Brief Review on Current Materials Being Used in 4D Printing.....	23
Study on Selective laser melting of STS316L-Cu mixtured powder and its properties.....	25
Activated carbons derived Acacia Crassicarpa bark by carbothermal functionalization for dye adsorption characteristics	27
Metrological analysis of the measurement uncertainty of the geometry of models manufactured by 3D printing	29
Preparation and properties of porous Cr doped Al ₂ O ₃ by powder metallurgy method	31
Flatness deviation of casting patterns produced by PolyJet Matrix technology.....	33
Multiscale assessment of casting patterns surfaces produced by PolyJet Matrix additive technology ..	35
Formation flight control of a team of quadrotors drones via robust fixed-time homogeneous sliding mode.....	37
Improving the Accuracy of the Smoking Behavior Warning System Using YOLOV7-Tiny Combined with LSTM on the Jetson Nano Kit.....	39
An Efficient Method to Control IoT-based Spider Robot by Speech Detection.....	41
Time to Modernize Rental Management Using IoT Application.....	43
Exploring the effectiveness of intelligent computational models for fake news detection	45
Comparing Machine and Deep Learning Models for Sentiment and Rating Prediction in E-commerce Reviews.....	47
Web Scraping for Big Data Collection in Tourism: A Case Study of Booking.com	49
A Bibliometrics Study on Internet of Things in Healthcare.....	51
Baumol Cost Disease on Healthcare Expenditure in Korea.....	53
A systematic literature review of the relationship between Enterprise Risk Management and Information Technology.....	55
Efficiently-Fastly-Smartly Automatic Hotel Managing System in Vietnam	57
Design and Implement IoT-based Robot for Online Appointment Booking at TDT University	59

Application of Artificial Intelligence in Higher Education: Benefits and Challenges for Teachers and Students.....	61
Cloud Computing Technology in Higher Education Field.....	63
Measuring Contributions of Technological Change in Global Value Chain on the Economic Growth of Selected Emerging Market Economies	65
Sustainable financial development: An analysis on commodity market efficiency in Vietnam	67
Evaluating the Challenges of Additive Manufacturing Adoption using the Analytic Hierarchy Process (AHP) Method: Empirical Research in Vietnam.....	69
Sustainable financial sector in Vietnam: An analysis on stock volatility during COVID-19	71
The Nexus Between Macroeconomic Determinants and Firm Financial Performance: Evidence from the US Market	73
The relationship among oil prices, stock prices and exchange rates for sustainable economic growth in ASEAN countries.....	75
Full papers.....	77
