

TABLE OF CONTENTS

Chapter 1

Introduction1

Christopher Jones

Chapter 2

Creating competition on the generation market.....7

Christopher Jones, revised by Ruben Vermeeren

- 1. Electricity..... 7
 - 1.1 Opening the generation market for competition..... 7
 - 1.2 The authorisation procedure 10
 - 1.2.1 Substantive issues 10
 - 1.2.2 Procedural issues 13
- 2. Gas..... 14

Chapter 3

Network regulation and third party access 19

*Floris Gräper & Christof Schoser – revised and updated by Floris Gräper
and Markela Stamati*

- 1. Introduction..... 19
- 2. Duties and responsibilities of transmission and distribution
system operators 24
 - 2.1 General duties..... 24
 - 2.1.1 Network-related tasks 24
 - 2.1.2 Confidentiality obligation 31
 - 2.1.3 Balancing 32
 - 2.2 Specific duties and responsibilities of electricity transmission
and distribution system operators 32
 - 2.2.1 Procurement of energy losses, reserve capacity and
ancillary services..... 33
 - 2.2.2 Flexibility incentives..... 41
 - 2.2.3 Electromobility 44

2.2.4	Energy storage	45
2.2.5	Dispatching.....	46
2.2.6	Data management.....	51
3.	Regulated third party access	53
3.1	Connection to the transmission system.....	54
3.2	Access and use of transmission and distribution systems	57
3.2.1	Publication of standard tariffs	58
3.2.2	Regulation of tariffs.....	62
3.2.3	Cost reflectivity.....	65
3.2.4	Level of detail of a tariff methodology	73
3.3	Capacity allocation and congestion management	75
3.3.1	Gas	75
3.3.2	Electricity.....	76
4.	Negotiated third party access (storage ancillary and ancillary services)	81
5.	Transit.....	89
6.	Jurisprudence and Commission decisions	91
6.1	VEMW and others	91
6.2	Citiworks.....	98
6.3	Sabatauskas.....	101
6.4	Swedish Interconnectors	103
6.5	DE/DK Interconnector	104
7.	Direct lines	106
7.1	Direct lines electricity.....	106
7.2	Direct lines gas	111

Chapter 4

Unbundling of Transmission System Operators.....113

Emmanuel Cabau, revised and updated by Lena Sandberg

1.	Introduction.....	113
1.1	The need for unbundling.....	113
1.2	Unbundling.....	115
1.3	The first and second electricity and gas directives.....	116
1.4	The 2005 Sector Inquiry	118
1.5	The Third Energy Package: towards ownership unbundling.....	122
1.6	The Clean Energy Package	123
1.7	Ownership unbundling under EU competition rules.....	124

2.	The unbundling options under the Clean Energy Package.....	127
2.1	Background	127
2.2	Unbundling under the Clean Energy Package	128
2.2.1	Ownership Unbundling.....	128
2.2.2	Independent System Operator (ISO).....	129
2.2.3	Independent Transmission Operator (ITO)	130
2.2.4	General Principles on the Unbundling Options.....	132
2.2.5	ITO+: “Unbundling à la carte” – a fourth unbundling option.....	133
2.2.6	Implementation by the Member States	134
2.2.7	Exemptions granted by the Commission.....	136
2.2.8	Derogations set out in the Directives	141
2.2.9	Application of the unbundling principles across the gas and electricity sectors	141
3.	Level Playing Field – Intra EU Acquisitions.....	142
3.1	Acquisition of rights within an ownership unbundled TSO	143
3.2	General provision on level playing field	145
4.	Designation of TSO and the certification procedure.....	146
4.1	Approval and designation of the TSO	147
4.2	General rules on certification	147
4.2.1	Launch and timing of the procedure	150
4.2.2	Procedure and timing.....	151
4.3	Certification in case of control of an EU transmission system operator by a company from a non-EU country	152
4.3.1	Introduction.....	152
4.3.2	Substance and Procedure	156
4.4	Commission Control of Certification By National Authorities.....	160
5.	The unbundling options under under the Clean Energy Package in detail.....	160
5.1	Ownership unbundling.....	160
5.1.1	Application of unbundling rules to companies controlling the TSO or supplier	161
5.1.2	The concept of control.....	162
5.1.3	The concept of “rights”	163
5.1.4	The rule in practice	164

Chapter 5	
Unbundling of Distribution System Operators	217
<i>Christopher Jones, revised and updated by William-James Kettlewell</i>	
1. Introduction	217
2. Definition of a vertically integrated company	221
3. Legal unbundling.....	224
3.1 Definition.....	224
3.2 Combined network operator	225
4. Management unbundling.....	226
4.1 Introduction	226
4.2 General definition of management unbundling	226
4.3 Independent Management	229
4.4 Separation of personal interests	231
4.5 Autonomy and control over assets by the network operator.....	232
4.6 Compliance officer and compliance programme.....	236
4.7 Prohibition to take advantage of vertical integration to distort competition.....	239
5. Accounting unbundling	240
5.1 The requirements of the Directives	240
6. New ‘unbundling’ rules for electricity DSOs	244
6.1 Citizen Energy Communities	245
6.2 Electro-mobility-related services	246
6.3 Storage services.....	248
6.4 Aggregation and flexibility services	251
7. Exemptions	254
7.1 Exemption for small distributors	254
7.2 Exemption for closed distribution systems	256
7.2.1 Definition of closed distribution systems	261
7.2.2 Scope of the derogation	262
7.2.3 Procedure	263
Chapter 6	
National Regulatory Authorities	265
<i>Emmanuel Cabau, revised and updated by Kristóf Kovács</i>	
1. The need for a strong sector-specific regulator	265
2. Designation of a single regulatory authority.....	269
2.1 Regional regulatory authorities	271

2.2	Small and separated systems	272
3.	Independence of regulatory authorities	273
3.1	Principle of independence.....	274
3.1.1	Organisational requirements and transparency	276
3.1.2	Personnel requirements	277
3.2	Rules protecting independence.....	279
4.	General objectives of the regulatory authorities.....	282
5.	Duties of regulatory authorities.....	285
5.1	General principles applicable to the duties.....	285
5.2	Content of the duties	286
5.2.1	Tariffs.....	293
5.2.2	Prevention of cross-subsidies	293
5.2.3	Compliance and enforcement.....	294
5.2.4	Cooperation and coordination	295
5.2.5	Monitoring.....	295
5.2.6	Reporting and Publication.....	297
5.2.7	Consumer protection.....	297
5.2.8	Specific duties related to ISOs and ITOs	298
5.2.9	Specific duties related to the ENTSO for Electricity and the EU DSO Entity	298
5.2.10	Specific duties related to the Regional Coordination Centres.....	299
5.3	Additional duties granted by other legal acts.....	299
6.	Powers of regulatory authorities	301
6.1	Adopting binding decisions.....	304
6.2	Promoting effective competition and ensuring the proper functioning of the market	305
6.3	Information provision.....	306
6.4	Penalties	306
6.5	Investigations and instructions	308
7.	Procedural issues	308
7.1	Dispute settlement.....	308
7.2	Complaints against tariffs or methodologies.....	310
7.3	Judicial review.....	311
8.	Regulatory regime for cross-border issues.....	313
9.	ACER review	315
10.	Conclusion	318

Chapter 7
The EU Agency for the Cooperation of Energy Regulators (ACER).....321
Ernst Tremmel

1. Introduction.....321

2. The legal basis.....322

 2.1 Overview322

 2.2 The new legal framework of ACER.....324

3. Purpose and objectives.....326

4. Types of acts327

5. Tasks of ACER.....329

 5.1 General competences331

 5.1.1 Advice to the EU institutions.....331

 5.1.2 Request for information.....332

 5.2 Cooperation of transmission system operators and
distribution system operators334

 5.2.1 Establishment of the ENTSOs and the EU DSO
entity.....335

 5.2.2 Performance of the ENTSOs and the EU DSO337

 5.2.3 Regulatory oversight of European and regional
entities340

 5.2.4 Methodology on the use of congestion income343

 5.2.5 Certification of transmission system operators345

 5.3 Regulatory authorities347

 5.3.1 Frame for the cooperation and coordination
of regulatory authorities347

 5.3.2 Review of decisions of national regulatory
authorities.....348

 5.3.3 Advice on the application of Guidelines.....351

 5.3.4 Operational assistance in REMI investigations.....352

 5.3.5 Reduction of cross-zonal capacities or deviation
from coordinated actions353

 5.3.6 Decisions on technical issues.....355

 5.3.7 Decisions on regulatory issues of cross-border
trade or cross-border system security355

 5.4 Regional coordination centres362

 5.4.1 Decision on the geographical scope of regional
coordination centres.....363

 5.4.2 Approval of tasks.....364

 5.4.3 Monitoring.....365

5.4.4	Request for information	366
5.4.5	Opinions and recommendations.....	366
5.5	Nominated electricity market operators.....	367
5.5.1	Monitoring.....	368
5.5.2	Request for information.....	368
5.5.3	Recommendations.....	369
5.6	Development and implementation of network codes and guidelines.....	369
5.6.1	Framework guidelines.....	370
5.6.2	Proposals for binding network codes	372
5.6.3	Proposals for non-binding network rules	376
5.6.4	Amendments of network codes.....	378
5.6.5	Monitoring the implementation of network codes and guidelines.....	381
5.6.6	Approval of Union-wider or regional terms and conditions or methodologies for the implementation of network codes and guidelines	384
5.6.6.1	Union-wide terms and conditions or methodologies	385
5.6.6.2	Regional terms and conditions or methodologies	386
5.6.6.3	Approval procedure	388
5.6.6.4	Delegated acts.....	389
5.6.7	Bidding zone review.....	391
5.7	Generation adequacy and risk preparedness.....	392
5.7.1	European resource adequacy assessment and cross-border participation in capacity mechanisms...	393
5.7.2	National resource adequacy assessments.....	395
5.7.3	Risk preparedness – security of electricity supply.....	396
5.7.4	Security of gas supply.....	398
5.7.5	Technical guidance on the calculation of CO ₂ emission values in the context of capacity mechanisms.....	400
5.8	Exemptions for major new infrastructure.....	401
5.9	Infrastructure.....	404
5.9.1	Monitoring the implementation of interconnector capacity projects and the EU TYNDPs.....	405
5.9.2	Participating in the identification of PCIs	406
5.9.3	Monitoring the implementation of PCIs	409
5.9.4	Energy system wide cost-benefit analysis.....	411

5.9.5	Sharing good practices regarding risk-related incentives for PCIs	413
5.9.6	Investments requests and cross-border cost allocation	415
5.10	Wholesale market integrity and transparency	416
5.10.1	Monitoring of wholesale energy markets.....	418
5.10.2	Collection of data	420
5.10.3	Registration of market participants	422
5.10.4	Sharing of information between the ACER and other authorities	424
5.10.5	Coordination and cooperation	426
5.11	Monitoring and reporting on the electricity and natural gas sectors	430
6.	Procedure.....	433
6.1	Consultation and transparency.....	433
6.2	Procedural safeguards for decisions	435
6.3	Internal workflow: Director – Working Group – Board of Regulators.....	437
7.	Organisation of ACER.....	440
7.1	The Administrative Board.....	442
7.1.1	Composition and voting	442
7.1.2	Functions	445
7.2	The Board of Regulators.....	449
7.2.1	Composition and voting	449
7.2.2	Functions	452
7.3	The Director.....	454
7.3.1	Profile and appointment.....	454
7.3.2	Tasks	457
7.4	Board of Appeal	459
7.4.1	Composition.....	459
7.4.2	Appeals.....	462
7.5	Working groups.....	464
7.6	Staff.....	466

Chapter 8

The regulation on cross-border electricity exchanges:

substantive rules469

Christof Schoser, revised and updated by Lena Sandberg

1.	Introduction.....	469
2.	Background – the properties of electricity	471
3.	Tarification	473
3.1	The physical and economic principles underlying tarification..	473
3.2	The need for an inter-TSO compensation mechanism.....	475
3.3	Cross-border tarification and the Cross-border Electricity Regulation	476
3.3.1	From voluntary ITC agreements to binding ITC guidelines	480
3.4	National transmission and distribution tariffs principles.....	482
4.	Congestion management and capacity allocation	484
4.1	Introduction.....	484
4.2	Constraints on available capacity	485
4.2.1	Long-term capacity reservation agreements.....	485
4.2.2	Public service obligations.....	487
4.3	Congestion management methods	487
4.3.1	The “first come, first served” method.....	487
4.3.2	Pro-rata method.....	488
4.3.3	Explicit auction method.....	488
4.3.4	Implicit auction.....	490
4.3.5	From non market-based capacity allocation systems to market-based capacity allocation systems	491
4.4	Requirements of the Regulation.....	492
4.4.1	Requirement for market based methods.....	496
4.4.2	Maximisation of capacity use	497
4.4.3	Requirement for co-ordination between TSOs.....	498
4.4.4	Distribution of congestion rents.....	498
4.5	The forthcoming CACM guidelines/network code	499
4.5.1	Congestion.....	501
4.5.2	Flow-based calculation method	501
4.5.3	Matching of bids and offers using an algorithm.....	502
4.5.4	Use of implicit allocations.....	502
4.5.5	Regional level cooperation.....	503
5.	Locational signals.....	503

5.1	Introduction.....	503
5.2	Requirements of the Regulation.....	505
6.	Harmonisation of tariffs	507
7.	Transparency	508
8.	Network security and calculation of available capacity	511

Chapter 9

The gas regulation: substantive access rules513

Floris Gräper

1.	Introduction.....	513
2.	Access rules in the the Gas Regulation.....	514
3.	Charges for access to networks	514
4.	Third party access services.....	517
4.1	Third party access services concerning storage and LNG facilities	521
5.	Capacity allocation and congestion management.....	522
6.	Capacity allocation and congestion management for LNG.....	526
7.	Transparency	528
7.1	Introduction.....	528
7.2	Definition of relevant points.....	530
7.3	Level of detail to be published	531
8.	Transparency for LNG.....	532
9.	Balancing.....	533

Chapter 10

Public service obligations and the EU energy market legislation539

Bartek Gurba

1.	Introduction.....	539
2.	Concepts of the Public Service Obligations and the Services of General Interest	541
3.	Public Service Obligations and the Third Energy Package Directives	543
4.	Jurisprudence of the Court	544
5.	The Security of Supply Regulation and the Clean Energy Package	547
6.	Public Service Obligations and state aid.....	551

Chapter 11
Derogations and exemptions553

Jan Papsch

1.	Introduction.....	553
2.	Derogations directly provided in secondary law	555
2.1	TSO unbundling.....	557
2.2	DSO unbundling.....	560
2.3	Isolated markets (gas)	561
2.4	Emergent markets (gas).....	564
2.5	Derogations under the electricity and gas Regulations	567
2.6	Limited application of the electricity Directive to Malta	569
2.7	Former derogations granted during the accession process	569
3.	Derogation and Exemption Decisions	570
3.1	Small systems (electricity).....	571
3.1.1	Assessment criteria.....	579
3.1.2	Derogation procedure.....	581
3.1.3	Derogation Decisions adopted by the Commission	583
3.1.3.1	The Azores.....	583
3.1.3.2	Madeira	584
3.1.3.3	Cyprus	584
3.1.3.4	Malta.....	585
3.1.3.5	Greek non-interconnected islands	586
3.2	Emergent regions (gas)	587
3.2.1	Assessment criteria and procedure	588
3.2.2	Derogations being dealt with by the Commission ...	591
3.3	Take-or-pay contracts.....	591
3.3.1	Derogation only from Article 32.....	594
3.3.2	Derogation procedure.....	595
3.3.3	Substantive issues	596
3.4	New Infrastructure	597
3.4.1	Scope and substantive issues relevant to an exemption....	599
3.4.1.1	Eligible infrastructure	602
3.4.1.2	The investment must enhance competition in supply	603
3.4.1.3	The risk makes an exemption necessary	605
3.4.1.4	Legal unbundling.....	607
3.4.1.5	Access charges.....	607

Table
of contents

	3.4.1.6	The exemption must not be detrimental to competition, market functioning, and the functioning of the regulated system	608
	3.4.1.7	The investment must enhance security supply (gas only)	608
	3.4.1.8	No regulated income (electricity only)	609
3.4.2		Procedure.....	609
	3.4.2.1	Early contacts.....	609
	3.4.2.2	Role of ACER	610
	3.4.2.3	Adoption and notification of the national decision	610
	3.4.2.4	Commission decision.....	611
	3.4.2.5	Implementation.....	613
3.4.3		Exemptions dealt with by the Commission	617
	3.4.3.1	Electricity	618
	3.4.3.1.1	Estlink.....	618
	3.4.3.1.2	BritNed.....	619
	3.4.3.1.3	East-West-Interconnectors.....	620
	3.4.3.1.4	Arnoldstein/Tarvisio.....	620
	3.4.3.1.5	ElecLink	621
	3.4.3.1.6	Slovenian-Italian Interconnectors	623
	3.4.3.1.7	Piemonte Savoia	624
	3.4.3.2	Gas pipelines.....	624
	3.4.3.2.1	BBL.....	625
	3.4.3.2.2	Poseidon.....	625
	3.4.3.2.3	Nabucco	626
	3.4.3.2.4	OPAL	628
	3.4.3.2.5	Gazelle.....	631
	3.4.3.2.6	TAP.....	632
	3.4.3.2.7	SK-HU Interconnector	635
	3.4.3.3	Interconnector Greece-Bulgaria (IGB).....	636
	3.4.3.4	LNG terminals	636
	3.4.3.5	Gas storage	640

Chapter 12

The establishment of common network rules643

William Webster

1.	Introduction.....	643
2.	The Florence and Madrid Fora and first cross border Regulations.....	644
3.	Revisions to the Regulations in 2009 and the introduction of the network code development process.....	646
4.	The recasting of the Electricity Regulation 2019/943	650
5.	Gas Regulation 715/2009 – Key principles.....	660
6.	The electricity and gas Regulations and network codes: legal and procedural issues.....	661
6.1	Implementation of the Regulations: direct effect	661
6.2	The comitology and implementing acts procedure	662
7.	TSO cooperation: establishment and tasks of ENTSOs	664
7.1	Background.....	664
7.2	Tasks of the ENTSOs	666
7.3	Regional cooperation and Co-ordination Centres.....	669
7.4	The European Network of DSOs.....	674
8.	Establishment and modification of network codes	675
9.	Summary of Network Codes and Guidelines adopted since 2009	680
9.1	Gas	680
9.2	Electricity.....	683
10.	Modification of network codes.....	688

Chapter 13

Security of supply691

William Webster

1.	Security of supply context.....	691
1.1	Introduction.....	691
2.	Balancing Supply and Demand.....	695
2.1	Introduction.....	695
2.2	Role of the Wholesale markets	696
2.3	The Role of the TSO: electricity	698
2.4	Role of TSOs: Gas.....	703
3.	System operation and operational security	704
3.1	Background.....	704
3.2	System Operation Code (SO).....	705

3.3	Electricity Emergency and Restoration Code (EER)	706
4.	Investment in the competitive market	707
4.1	Electricity: Tendering and Capacity markets	707
4.2	Infrastructure and Storage – Gas	710
5.	Emergency Coordination and Safeguards	716
5.1	Gas	716
5.1.1	Background and key principles	716
5.1.2	Common infrastructure standard	721
5.1.3	Common supply standard and protected customers	722
5.1.4	Coordination: preparation for a supply disruption	724
5.1.5	Crisis Resolution	726
5.2	Electricity	726
5.2.1	Background and key principles	726
5.2.2	Risk Assessment and Scenario Modelling	728
5.2.3	Risk preparedness plans	730
5.2.4	Management of Crisis Situations	732
6.	Overall summary of security of supply legislation	733

Chapter 14

Reporting and review of the Directives735

Jan Papsch

1.	Purpose of reporting obligations	735
2.	Reporting by the Commission	736
4.	Reporting by ENTSO-E and ENTSG	744
5.	Reporting obligations of national authorities	747
6.	Reporting obligations on national transmission system operators	749
7.	Review provisions	750

Chapter 15

Implementation of the Third Internal Energy Market Package755

Yona Marinova

1.	The Third Internal Energy Market Package	755
1.1	Implementation via formal enforcement action and other tools	756
2.	Infringement action under the Third Energy Package	757
2.1	Initiation and steps in infringement proceedings	757

2.1.1	Procedural steps in infringements	757
2.1.2	Confidentiality obligations.....	758
2.2	Infringement cases for non-transposition	759
2.2.1	Situation upon expiry of the transposition deadlines...	759
2.2.2	Initiation of infringement procedures: Letters of formal notice.....	759
2.2.3	Reasoned opinions	760
2.2.4	Decisions for referral to Court. Application of Article 260(3) TFEU.....	760
2.3	Infringement cases for incorrect transposition or bad application	763
2.3.1	Non-conformity problems.....	763
2.3.2	Systematic non-conformity assessment	763
2.3.3	Ad-hoc cases	764
3.	Infringement action under the Second Energy Package.....	765
3.1	Infringement cases for non-transposition	766
3.2	Infringement cases for incorrect transposition or bad application	766
3.2.1	Follow-up on the actions under the Second Energy Package.....	766
3.2.1.1	Infringements initiated in 2006-2008	766
3.2.1.2	Infringements referred to Court in 2008 ..	768
3.2.1.3	Case C-474/08 <i>Commission v. Belgium</i> ..	768
3.2.1.4	Case C-475/08 <i>Commission v. Belgium</i> ..	768
3.2.1.5	Case C-274/08 <i>Commission v. Sweden</i> ...	769
3.2.1.6	Case C-264/09 <i>Commission v. Slovak Republic</i>	770
3.2.1.7	Infringements initiated in 2009	771
3.2.2	Follow-up on the actions under the Third Energy Package.....	773
3.2.2.1	Introduction.....	773
3.2.2.2	Non-compliance with the Second Package Directives.....	773
3.2.2.2.1	Price regulation for non-household customers.....	773
3.2.2.2.2	Case C-265/08 <i>Federutility</i>	774
3.2.2.2.3	Reasoned opinions in 2011-2012	775
3.2.2.2.4	Case-36/14 <i>Commission v. Poland</i>	775
3.2.2.3	Non-compliance with the Second Package Regulations.....	776

	3.2.2.3.1	C-198/12 <i>Commission v. Bulgaria</i>	776
	3.2.2.3.2	Cases against the United Kingdom and Ireland	779
4.		Other implementation tools.....	779
4.1		Contacts between the Commission and the Member States....	779
4.2		Guidance by the Court in preliminary rulings.....	780
	4.2.1	Case C-242/10 <i>Enel Produzione</i>	780
	4.2.2	Cases C-105/12 to C-107/12 – <i>Essent e.a.</i>	781
	4.2.3	Case C-92/11 <i>RWE Vertrieb AG</i>	783

Chapter 16

The internal energy market and neighbouring countries

Erlendas Grigorovic, updated by William-James Kettlewell

1.		Introduction.....	797
2.		Internal energy market and EU accession.....	798
3.		Energy Community Treaty.....	800
4.		The European Economic Area, Norway and Switzerland	804
	4.1	The European Economic Area and Norway.....	804
	4.2	Switzerland.....	805
5.		Energy in Global International Instruments – The Energy Charter Treaty	806
6.		Regional Agreements	808
	6.1	The Mediterranean Area	808
	6.2	Eastern Partnership	811
	6.3	Bilateral Relationships and Agreements	811
	6.3.1	Russia.....	812
	6.3.2	Ukraine	814
7.		Bilateral agreements of EU Member States with third countries.....	816

Chapter 17

Import Gas Pipelines under the Third Energy Package819

William-James Kettlewell

1.	Introduction.....	819
2.	The inception and possible demise of the amendments to the Gas Directive.....	820
2.1	The Gas Directive as an instrument for shaping the gas importation landscape	820
2.2	The inapplicability of the Gas Directive to import gas pipelines.....	821
2.3	The Commission's proposal	823
2.4	The institutional negotiations and political compromise	823
2.5	The reaction against Directive 2019/692.....	825
3.	Analysis of the amendments to the Gas Directive	826
3.1	Import Gas Pipeline under the Gas Directive, Regulation and Network Codes	827
3.2	Alternative regulatory regimes applicable to some import gas pipelines	830
3.2.1	Upstream Pipeline Networks to and from third countries.....	830
3.2.2	Extension of the ISO and ITO options for import gas pipelines	832
3.2.3	Transmission lines under a specific intergovernmental agreement	832
3.3	Exemption for Import Gas Pipelines.....	838
3.3.1	Exemption for investment purposes	838
3.3.2	Exemption for prior completion ('grandfather clause').....	841
4.	Consequences in practice.....	844
4.1	Pipelines will be affected according to their entry point in the EU.....	844
4.2	Compliance path – and practical consequences – for affected pipelines.....	846
4.2.1	Unbundling rules	847
4.2.2	Third Party Access requirements.....	848
4.2.3	Regulated Tariffs.....	849

APPENDICES

Appendix 1.....851

Directive (EU) 2019/944 of the European Parliament and of the Council of 5 June 2019 on common rules for the internal market for electricity and amending Directive 2012/27/EU (recast).

Appendix 2.....1001

Directive 2009/73/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in natural gas and repealing Directive 2003/55/EC.

Appendix 3.....1093

Regulation (EC) No 714/2009 of the European Parliament and of the Council of 13 July 2009 on conditions for access to the network for cross-border exchanges in electricity and repealing Regulation (EC) No 1228/2003.

Appendix 4.....1143

Regulation (EC) No 715/2009 of the European Parliament and of the Council of 13 July 2009 on conditions for access to the natural gas transmission networks and repealing Regulation (EC) No 1775/2005.

Appendix 5.....1193

Regulation (EU) 2019/942 of the European Parliament and of the Council of 5 June 2019 establishing a European Union Agency for the Cooperation of Energy Regulators (recast).

Appendix 6..... 1259

Regulation (EU) No 1227/2011 of the European Parliament and of the Council of 25 October 2011 on wholesale energy market integrity and transparency.

Appendix 7..... 1297

Commission staff working document. Ownership unbundling. The commission's practice in assessing the presence of a conflict of interest including in case of financial investors.

Appendix 8..... 1311

Council Directive 2004/67/EC of 26 April 2004 concerning measures to safeguard security of natural gas supply.

Appendix 9..... 1323

Regulation (EU) 2017/1938 of the European Parliament and of the Council of 25 October 2017 concerning measures to safeguard the security of gas supply and repealing Regulation (EU) No 994/2010.

Appendix 10..... 1435

Commission staff working paper. Interpretative note on Directive 2009/72/EC concerning common rules for the internal market in electricity and Directive 2009/73/EC concerning common rules for the internal market in natural gas. The unbundling regime.

Appendix 11..... 1475

Commission staff working paper. Interpretative note on directive 2009/73/EC concerning common rules for the internal market in natural gas. Third-party access to storage facilities.

Appendix 12.....1495

Commission staff working paper Interpretative note on directive 2009/72/EC 1495 concerning common rules for the internal market in electricity and Directive 2009/73/EC concerning common rules for the internal market in natural gas. Retail markets.

Appendix 13.....1511

Commission staff working paper Interpretative note on Directive 2009/72/EC concerning common rules for the internal market in electricity and Directive 2009/73/EC concerning common rules for the internal market in natural gas. The regulatory authorities.

Appendix 14.....1537

Energy Community Treaty.
