

Table of Contents

1. Introduction	2
2. Literature review	4
2.1. Plant polyploidy	4
2.1.1. Autopolyploids and allopolyploids	6
2.1.2. Meiotic polyploidization.....	7
2.1.3. Mitotic polyploidization.....	8
2.1.3.1. Mitotic inhibitors.....	8
2.1.3.2. In vitro somatic polyploidization protocol	9
2.1.3.3. Indirect and direct ploidy detection	
methods	10
2.1.4. Effects of artificial polyploidy on plants.....	11
2.1.5. Exploring the stability of <i>in vitro</i> somatic	
autopolyploids.....	17
2.2. Aromatic plants of the Lamiaceae family	18
2.2.1. Secondary metabolites and essential oils	20
2.2.1.1. Ethnomedicinal use	20
2.2.1.2. Medicinal use	22
2.2.1.3. Plant protection use	23
2.2.1.4. Food industry use	26
2.2.2. Polyploidization effect on Lamiaceae	
biochemical profiles.....	27
2.3. <i>Thymus vulgaris</i> L.	30
2.3.1. Botanical classification and description.....	31

2.3.2.	Origin and geographical distribution	33
2.3.3.	Reproduction and cultivation	34
2.3.4.	Biochemical properties	35
2.3.5.	Ethnomedicinal use	35
2.3.6.	Medical properties.....	36
2.3.7.	Application in plant protection	37
2.3.8.	Application in the food industry	39
2.4.	<i>Satureja montana</i> L.	40
2.4.1.	Botanical classification and description.....	41
2.4.2.	Origin and geographical distribution	42
2.4.3.	Reproduction and cultivation	43
2.4.4.	Biochemical properties	43
2.4.5.	Ethnomedicinal use	45
2.4.6.	Medical properties.....	46
2.4.7.	Application in plant protection	47
2.4.8.	Application in the food industry	49
3.	Aims of the thesis	51
4.	Hypotheses	52
5.	Materials and methods	53
5.1.	Plant material	53
5.1.1.	<i>In vitro</i> somatic polyploidization	53
5.1.2.	<i>In vitro</i> culture establishment and propagation 53	
5.1.3.	Polyploidization procedure	54

5.1.4.	Detection of ploidy level.....	55
5.1.5.	<i>In vitro</i> morphological analysis of <i>S. montana</i> 55	
5.1.6.	Transfer to <i>ex vitro</i> conditions	55
5.1.7.	<i>Ex vitro</i> quantitative and morphological analyses of <i>T. vulgaris</i>	57
5.1.8.	Transfer of <i>T. vulgaris</i> plants from greenhouse to field conditions	57
5.1.9.	Field quantitative and morphological analyses of <i>T. vulgaris</i>	58
5.2.	Biochemical analyses	58
5.2.1.	Initial essential oil isolation and analysis in 2019	58
5.2.2.	Second essential oil isolation and analysis....	59
5.2.3.	Antioxidant activity analyses	60
5.2.3.1.	DPPH radical-inhibiting assay	60
5.2.3.2.	Oxygen radical absorbance capacity (ORAC)	61
5.2.3.3.	Trolox equivalent antioxidant capacity (TEAC)	62
5.2.3.4.	Total phenolic content.....	62
5.2.3.5.	Total flavonoid content	63
5.3.	Anatomical analyses	63
5.3.1.	Quantitative wood anatomy	63
5.3.2.	Stomata density	64
5.3.3.	Glandular trichome anatomy	64

5.4.	Physiological analysis	65
5.4.1.	Chlorophyll estimation.....	65
5.5.	Statistical analyses	65
6.	Results	67
6.1.	<i>Thymus vulgaris</i> L.	67
6.1.1.	Polyploidization efficiency	67
6.1.2.	Flow cytometry analysis	68
6.1.3.	Quantitative and morphological analyses	70
6.1.4.	Biochemical analyses.....	76
6.1.4.1.	Initial essential oil yield and analysis in 2019	76
6.1.4.2.	Second essential oil yield and analysis .	78
6.1.4.3.	Antioxidant activity and total phenol and flavonoid content	80
6.1.5.	Anatomical variation between diploid and tetraploid <i>T. vulgaris</i>	82
6.1.5.1.	Qualitative wood anatomy	82
6.1.5.2.	Stomata density	84
6.1.5.3.	Glandular trichome anatomy.....	85
6.1.6.	Physiological variation between diploid and tetraploid <i>T. vulgaris</i>	87
6.1.6.1.	Chlorophyll a and b content	87
6.2.	<i>Satureja montana</i> L.	88
6.2.1.	Polyploidization efficiency	88
6.2.2.	Flow cytometry analysis	89

6.2.3.	<i>In vitro</i> morphological variation between diploid and tetraploid <i>S. montana</i>	91
7.	Discussion	93
7.1.	<i>Thymus vulgaris</i> L.	93
7.1.1.	Oryzalin induced polyploidization.....	93
7.1.2.	Polyploidization effect on quantitative and morphological parameters.....	94
7.1.3.	Polyploidization effect on biochemical content	95
7.1.4.	Polyploidization effect on anatomical features	98
7.1.4.1.	Quantitative wood anatomy	98
7.1.4.2.	Stomata density	99
7.1.4.3.	Glandular trichome anatomy.....	100
7.1.5.	Polyploidization effect on physiological parameters	101
7.1.5.1.	Chlorophyll a and b content	101
7.2.	<i>Satureja montana</i> L.	102
7.2.1.	Oryzalin induced polyploidization.....	102
7.2.2.	Polyploidization effect on <i>in vitro</i> morphological parameters.....	105
8.	Conclusion	107
9.	References	111
