About the Authors	7
Preface	9
Nomenclature	11
Experimental Setup	16
Chapter I.	21
Time course of fluid temperatures in wavy micro-channels	
Chapter II.	37
Surface tension in vertical wavy micro-channels	
Chapter III.	54
Surface tension in inclined wavy micro-channels	
Chapter IV.	75
Effect two-phase fluid flow in wavy micro-channels	
Chapter V.	94
Experimental investigation of effects heat transfer characteristic in wavy micro-channels	
Chapter VI.	127
Effect of heat flux, mass flux and quality vapour on the heat transfer coefficient in wavy micro-channels	
Chapter VII.	150
Effect of surface roughness in wavy micro-channels on critical heat flux and friction factor during condensation	
Chapter VIII.	176
Effect of position and connection heat exchanger on thermal and hydrodynamic behaviors in wavy micro-channels	
Chapter IX.	196
Investigation on the effect of gravitational orientation on fluid flow during condensation in wavy micro-channels	
Chapter X.	226
Prediction of the Nusselt number by heat transfer in wavy micro-channels	
Conclusion	258
Appendix	260
Subject index selected	296
