

CONTENTS

INTRODUCTION5

1 Current application of structural fire Eurocodes.....6

1.1 Building regulations.....9

1.1.1 Prescriptive / performance based rules.....9

1.1.2 Relevant Building Regulations.....11

1.1.3 Additional guidance14

1.1.4 Different regulations for certain types of buildings.....16

1.2 Design codes.....20

1.2.1 Relevant national or international/European standards - Means of escape.....20

1.2.2 Relevant national or international/European standards - Smoke management.....22

1.2.3 Relevant national or international/European standards - Fire resistance of the construction....24

1.2.4 Relevant national or international/European standards - Fire fighting.....25

1.2.5 Relevant national or international/European standards - Fire safety systems (alarm, suppression, ...)28

1.2.6 Use of Eurocodes or other international fire standards31

1.2.7 Translations of the fire parts of Eurocodes and it National annexes.....32

1.2.8 National annexes to Structural fire Eurocodes36

1.3 Approvals process37

1.3.1 Route to get a project approved37

1.3.2 Fire brigade in the process.....38

1.3.3 Review by third party.....39

1.3.4 Alternative route of approvals for performance based design40

1.3.5 Time frame for the approvals process42

1.3.6 Level of information needs44

1.3.7 Specific facilitators45

1.3.8 Product approvals46

1.4 Insurance companies.....47

1.4.1 Involvement of insurance companies.....47

1.4.2 Discussion with insurance companies.....49

1.5 Qualification requirements for designers50

1.5.1 Certificates/licenses requirements.....50

1.5.2 Specific design licenses51

1.5.3 Licenses holder.....53

1.5.4 Specific insurance.....54

1.6 Sequence of performance based fire engineering projects55

1.6.1 Project details55

1.6.2 Performance based fire design56

1.6.3 Used techniques.....58

1.6.4 Approvals route.....59

1.6.5 Asked documentation60

1.6.6 Location in nationally required documents61

2 Tasks and deliverables of structural fire safety design63

2.1 Background63

2.2 List of the requirements set.....63

3 Proposals for improvement of Eurocodes based on local/European projects68

3.1 EN 1991-1-2	70
3.2 EN 1992-1-2	85
3.3 EN 1993-1-2	90
3.4 EN 1994-1-2	110
3.5 EN1995-1-2	115
New Eurocode	117
References	119
