

Content

COGNITIVE VISUALIZATION SESSIONS	(COV)
Emotional Cartographies: Understanding Experiences with Maps (Amy L. Griffin)	9
Cartographic Atlas Products – Learning from the Past (Alexander Pucher)	10
Digital Atlas Cartography – Challenges, Opportunities and Solutions (René Sieber)	11
User-centred and Participatory Cartography (Muki Haklay)	12
The Role of National and other Atlases in Space-related Identity Building (Peter Jordan)	13
Use, User and Usability Research Challenges in Cartography and Geo-Information Processing (Corné van Elzakker)	14
The User Centered Framework for Visualisation of Spatial Data Quality (Jan Brus, Vilém Pechanec)	15
Digital Aeronautical Charts: Survey of 64 Czech Air Force Pilots (Jakub Vilšer, Jana Měřičková)	16
Methodology of Mixed Usability Research in Cartography: Combination of Qualitative and Quantitative Approaches (Zbyněk Štěrba, Čeněk Šašinka, Zdeněk Stachoň, Petr Kubíček, Sascha Tamm)	17
Map Literacy: The Third Element (Derek Clarke)	18
The Use of Maps in the Fire Rescue Service (Jana Leitgeblová)	19
Assessing Animated Air Traffic Control Displays (Sara Maggi, Sara Fabrikant)	20
Comparison of Usability Evaluation Methods Used for Analogue Maps Evaluation (Jitka Komárková, Miloslav Hub, Pavel Sedlák)	21
Practicalities of Developing Cartographic Standards to Meet Visual Impairments (William Cartwright)	22
By Dry Feet Walking along the Maps – the Confrontation of Cartographic Products Provided by the Public Administration and the Real Needs of End Users during Flood Situations (Irena Košková, Martin Modrý)	23
Improving the Usability of Web-mapping Applications: A Methodological Framework for Integrating User and Usability Research in Application Design and Web-mapping Design Guidelines (David Schobesberger)	24
Multivariate Data Visualization and Usability – Preliminary Rotes (Petr Kubíček, Radka Báčová, Zdeněk Stachoň)	25
Perception and Recall of Landmarks for Personal Navigation in Nature at Night Versus Day (Pyry Kettunen, L. Tiina Sarjakoski, Katja Putto, Christina M. Krause, Valerie Gyselinck)	26
The Visualization Issues of Worldwide Map Portals (Jana Stehlíková, Helena Řezníková, Hana Kočová, Zdeněk Stachoň)	27

COGNITIVE VISUALIZATION & USE AND USER ISSUES SESSION	(COV, UUI)
Investigating Eye-hand Coordination in Use of Spatial Visual Interfaces (Urska Demsar, Arzu Çöltekin)	28
Geovisualisation of Unequal Spatial Distribution of Online Social Network Connections: A Hungarian Example (Akos Jakobi, Balazs Lengyel).....	29
Exploring the Influence of Color Distance and Legend Position on Choropleth Maps Readability (Alžběta Brychtová)	30
Non-Photorealistic 3D Visualization in Maps of the Cities: An Eye-tracking Study (Stanislav Popelka, Jitka Doležalová)	31
10 Bucks Eye Tracking Experiments: The Hungarian MapReader (Zsolt Győző Török, Ádám Bérces)	32
Comparing Paper and Digital Topographic Maps using Eye Tracking (Annelies Incoul, Kristien Ooms, Philippe De Maeyer)	33
USE AND USER ISSUES SESSIONS	(UUI)
Current Issues about Perception and Cognition in Map Design Processes (Sidonie Christophe)	34
A Framework for Color Design for Digital Maps: An Example of Noise Mapping (Beate Weninger)	35
The Colour-blind and Cartography: The Difficulty of Accessing Information (Francis Dhee)	36
From a Phenomena to Its Perception: Models and Methods to Represent and Explore Phenomena on GIS (Anne Ruas).....	37
Viewpoint – the World in Perspective (Julia Mia Stirnemann).....	38
The Design of Time Line Cartograms – the Visualization of the Narrative of Events (Menno-Jan Kraak).....	39
A Competitive Analysis of Online Water Level Visualization Tools (Robert Roth, Chloe Quinn, David Hart)	40
Physiological and Cognitive Aspects of Sound Maps for Representing Quantitative Data and Changes in Data (Jochen Schiewe)	41
Exploring Class Discussions from a Massive Open Online Course on Cartography (Anthony Robinson).....	42
Innovative Concepts for Cartographic Visualization of Uncertainty (Jan Caha, Alena Vondráková, Peter Fisher)	43
Spatial Distortions in the Recall of Learned Map Information: An Improvement Caused by Grids? (Dennis Edler, Anne-Kathrin Bestgen, Lars Kuchinke, Frank Dickmann)	44
Analysis of Basic Relations within Insights of Spatio-temporal Analysis (Andreas Hall, Paula Ahonen-Rainio)	45
The Concept of Space: near, far, in front of, alongside... (Lucie Friedmannová, Karel Staněk, Petr Červenka, Michaela Hanousková).....	46
Mapping a Local Budget Plan: Why and How? (Anja Reinermann-Matatko).....	47

ATLASES SESSIONS**(ATL)**

A Rule-based Process for the Generation, Distribution and Use of Map Products in Cartographic Modelling Quality from Geospatial Databases (Hartmut Asche)	48
The Next Generation of Atlas User Interfaces for Desktop Devices – A User Study with Digital Natives (Raimund Schnürer, René Sieber, Arzu Çöltekin)	49
Middleware Services for Atlases as Part of Spatial Data Infrastructures (Barend Köbben)	50
Non-technological Aspects in Atlas Cartography (Alena Vondráková)	51
Updating Geospatial Information on National Atlases through Remotely Sensed Imageries, Indonesian Case (Sukendra Martha)	52
Aspects of the Thematic Atlas Content Compilation (Vít Voženílek)	53
National Atlas of Spain New Projects for the Twenty-first Century (Pilar Sánchez-Ortiz, Juan José Alonso, Noelia Peréz, Cesar Iván, Alfredo Del Campo)	54
Mini-atlases for Google Maps: Why not Really? (Alexander Wolodtschenko)	55
Design and Implement of E-National Atlas of People's Republic of China (Liu Yaolin, Ai Tinghua)	56
Atlas of Development Hranicko Microregion as a Tool to Increase Awareness of the Local landscape (Helena Kilianová, Monika Morris, Jana Svobodová)	57
Design of National Economic Atlas of China, New Century Version (Qingwen Qi)	58
Tool for Automatic Classification of Data by the Triangular Graph (Zdena Dobešová, Sukhdorj Ganbaatar)	59
User-generated Geotagged Audio Tours for Mobile Uses with Egocentric Route Maps (Masatoshi Arikawa, Ken'ichi Tsuruoka, Min Lu)	60
Crowdsourcing Emotional Responses to Space for Adaptive Location-based Services (Georg Gartner)	61
Demography of Twitter Users in the City of London: An Exploratory Spatial Data Analysis Approach (Barbara Hofer, Thomas Josef Lampoltshammer, Mariana Belgiu)	62
The Evolution of Digital Cartographic Databases (State Topographic Maps) from the Beginnings to Cartography 2.0: The Hungarian Example (Laszlo Zentai)	63
Interpretation and Cartographic Representation of the Environmental Noise Data from Mobile Phones (Petr Duda)	64
Drugs, Guns and Sex – Mapping Crime in the Czech Republic and Incredible Story about How the Czech Crime Project was built (Zdenek Hynek)	65

MAPS AND THE INTERNET SESSIONS**(MAI)**

Student Storytelling Through Maps: Omaha Today (Rex Cammack)	66
Comparison of Standard- and Proprietary-Based Approaches to Detailed 3D City Mapping (Lukáš Herman, Andrea Kýnová, Jan Rusznák, Tomáš Řezník)	67

3D Cartography as a Platform for Reminding Important Historical Events: The example of the Terezín Memorial (Pavel Hájek, Karel Jedlička, Michal Kepka, Radek Fiala, Martina Vichrová, Karel Janečka, Václav Čada)	68
On-screen Editing of Map Content via Web Browser in Real Time (Rostislav Néték)	69
Design of “Thematic Atlas Web Map Atlas as a Synthesis between Classic Paper Atlas and Modern GIS Web-client (Dzmitry Kozhukh)	70
Evaluating Mapping API (Michael Peterson)	71
Crisis Mapping via Internet in Disaster Management of the Czech Republic (Jiří Pánek, Lukáš Marek, Vít Pászto)	72
Interlinking Opensource Geo-spatial Datasets for Optimal Utility in Ranking (Devanjan Bhattacharya, Paolo Pasquali, Jitka Komárková, Pavel Sedlák, Atreyi Saha).....	73
Is It Time for “Free and OpenSource for Geospatial”? (Radek Augustýn, Radek Makovec, Tomáš Vacek).....	74
Accessibility of Buildings in the University of West Bohemia: The Example of a Thematic Map on the Internet (Otakar Čerba)	75
Cartographic Means Expressions for Maps of the Third Military Survey in Scale 1:25 000, 1:75 000 and 1:200 000 (Martina Vichrová)	76
GENERAL CARTOGRAPHY SESSIONS	(GEC)
Cartography as Intentional Distortion (Ferjan Ormeling).....	77
Mapping Disorder: an Exploratory Study (David Fairbairn)	78
Community Mapping in the City Space in Example of USE-IT Maps (Jiří Šmída, Daniel Vrbík)	79
Maps for Publication “Anthropology and Melanesia”: not only Black & White Cartography (Jan D. Bláha)	80
Proposal of Urban Plan Symbolology Standardization: Olomouc Region Case Study (Jaroslav Burian, Alžběta Brychtová, Aleš Vávra).....	81
Terrain Analysis for Armed Forces (Václav Talhofer, Vladimír Kovařík, Marian Rybanský, Alois Hofmann, Martin Hubáček, Šárka Hošková-Mayerová)	82
Bayesian Mapping of Medical Data (Lukáš Marek, Vít Pászto, Pavel Tuček)	83
Identification and Assessment of Livestock Resource for Development of Poor in Developing Countries through Maps: A Study in Cartography (Nizamuddin Khan)	84
Berliner Gartenkarte – A Collective Mapping Initiative (Jon Richter).....	85
On Shape Metrics in Cartographic Generalization: A Case Study of the Building Footprint Geometry (Vít Pászto, Alžběta Brychtová, Lukáš Marek).....	86
Creation of the Accurate Raster Driven Polygonal Environment for the 3D Surface Models Based on the LIDAR Technology (Jan Hovad, Jitka Komárková)	87

Campos Basin Environmental Oil Spill Mapping (Paulo Menezes, Manoel Fernandes, Sirayama Lima).....	88
Historical Data Processing, Modeling, Reconstruction, Analysis and Visualization of Historical Landscape in the North-West Bohemia Region (Jan Pacina, Jiří Cajthaml).....	89
Spatial-temporal Evolution of the Unique Preserved Meandering System in Central Europe (Jakub Miřijovský, Monika Šulc Michalková)	90
Space Time Visualization of Local Hazards (Justyna Pastwa, Stanislav Popelka, Vít Voženílek)	91
Large Scale Cartographic Products and Their Integration to Uniform Information System (Milan Kocáb).....	92
The Cartographic Production of the Base Maps in the Czech Republic (Jan Langr, Jaroslav Lux).....	93
Residential Structure of the Olomouc Region (Petr Závodník, Jakub Barteska).....	94
Alteration of Graphical Part of Local Flood Management Plans Using Geoinformatics: Scottish and Czech Approaches (Petr Vahalík, Přemysl Janata).....	95
Visualization of Spatial Distribution of Wireless Sensor Nodes in Urban Environment (Vendula Hejlová).....	96
Spatial Aspects and Visualization of Phenological Observation in the ExperimentaI Site (Aleš Vávra).....	97
CARTOGRAPHIC DAY SESSION	(CDY)
Changes in Urban Area Discovered by Analysis of Chosen Places in Old Maps of Liberec (Vojtěch Blažek, Vojtěch Hájek, Ladislav Ličík, Branislav Nižnanský, Klára Popková).....	98
The Sate of Official Statistical Mapping in Switzerland and Other European Countries (Thomas Schulz)	99
Cartographic Challenges for Data Dissemination: Small Geographic Areas and Statistical Grids (Timothy Trainor).....	100
Disaggregate Methods for Georeferencing of Population with Unknown Place of Residence (at a Specific Address Level) according to the Results of the Census 2011 (Jaroslav Kraus)	101
Enormous Opportunities and Minor Use of Czech Statistical Data in Their Geovisualization (Alena Vondráková, Vít Voženílek).....	102
POSTERS	(POS)
Usage of Geoprocessing Services in Precision Forestry for Wood Volume Calculation and Wind Risk Assessment (Tomáš Mikita, Petr Balogh)	103
Cartographical processing of Geonames data on the internet? (Tomáš Marek)	104
The Aromas of the World (Irena Košková and Martin Besta)	105
Orthoimage Map: Geovizualization of Earth Remote Sensing Images (Luboš Bělka, Vít Voženílek)	106
The Geosciences Project: The Educational Activities of the National Geopark Železné hory (Daniel Smutek, Jan Doucek, Petra Sádovská).....	107
List of Authors	108
