Preface: Caring for People	ix
Acknowledgments	xv
Author	xvii
Introduction: We Don't Make Widgets	xix

PART I GRASPING THE SITUATION

1 The Legacy of Industrial Management	3
Chaos	4
Industrial Management	5
Compliance Machines	7
Three Main Takeaways	9
Notes	9
2 Two Types of Efficiency	11
The Persistence of Resource Efficiency	14
The School of Mass Production	16
The Negative Consequences of Resource Efficiency	17
Doubling Down	19
Busy Does Not Mean Productive	22
Flow-ver Dose	23
Escaping the Trade-Off	24
Three Main Takeaways	25
Notes	26
3 Changing the System	29
Respect for People	31
Information Does Not Create Behavior	32
Thinking of Organizations as Systems	33

Changing Thinking and Behavior	34
Systems Drive Behavior	35
Behavior Drives Thinking	36
Focus on Flow	38
What about Waste?	38
The Waste We Cannot See	39
Three Main Takeaways	42
Notes	43

PART II DESIGNING FOR FLOW

4 Understanding Flow	47
Understanding Flow	48
Handoffs	52
So How Do I Create Flow?	55
Focus on Wait Time	57
Compress the Value Stream	58
Flow Creates Capacity	59
Three Main Takeaways	61
Notes	62
5 Busy Does Not Mean Productive	63
Activity Is Often Confused for Work	67
People Are Not the Problem	71
Three Main Takeaways	74
Notes	74
6 Design Principle I: Continuity	75
Three Main Takeaways	90
Notes	91
7 An Accounting Story	93
Three Main Takeaways	101
Notes	102
8 Design Principle II: Balance	103
Bucket Brigades	103
Bob the Bottleneck	105
Invisible Bottlenecks	107
Balance	111
Three Main Takeaways	114
Notes	115

9	Creating Balance.....	117
	People.....	119
	Time.....	122
	Work.....	124
	Dealing with Variation.....	126
	Agility.....	130
	Three Main Takeaways.....	131
	Notes.....	131
10	The CapCell Experiment.....	133
	Three Main Takeaways.....	138
	Notes.....	139
11	The Seven Gates of Hell.....	141
	Countermeasures.....	144
	Managing Customer Experience.....	146
	Managing Variation.....	149
	Three Main Takeaways.....	152
	Notes.....	152
 PART III THINKING BEYOND FLOW		
12	Prerequisites to Problem Solving.....	157
	Step 1: Define Your Customers.....	160
	Step 2: Understand Customer Value.....	163
	Step 3: Visualize Your Workflow.....	165
	Step 4: Create Flow.....	167
	Step 5: Solve Problems.....	168
	Solving Problems the Slow Way.....	169
	Three Main Takeaways.....	171
	Notes.....	171
13	Start with Standards.....	173
	Reflection.....	175
	Start with Standards.....	176
	The Challenge of Standards.....	180
	Everyone Hates Standards.....	181
	Eight Big Misconceptions about Standards.....	183
	Misconception #1: Standards Are Coercive.....	183
	Misconception #2: Standards Are Always Very Precise and Detailed.....	184
	Misconception #3: Standards Only Apply to Highly Repetitive Work.....	185

Misconception #4: Standards Need to Be Created and Enforced Centrally	185
Misconception #5: Standards Kill Creativity.....	186
Misconception #6: Standards Are Not Customer Friendly.....	187
Misconception #7: Measurements Are Not Standards	188
Misconception #8: Standards Are Inflexible and Can Rarely Be Changed.....	189
Summary	189
Three Main Takeaways	190
Notes.....	190
14 Using Standards to Create Flow	193
Three Main Takeaways	197
Note	198
15 Lean Thinking and the Digital Age	199
So, What Do We Mean by Digital?	201
Lean First, Automate Second	205
Automation and Continuity	207
Three Main Takeaways	208
Notes.....	209
16 Automation and Imbalance.....	211
Three Main Takeaways	218
17 Lean Leadership and Strategy	221
Development of People	223
Connecting Functions and Systems.....	224
Go See	225
T-Shaped Leadership.....	226
Operations <i>Is</i> the Strategy	227
Three Main Takeaways	229
Notes.....	229
Conclusion: Work Is a Human System.....	231
Appendix: Value Stream, System, and Process: Understanding Three Fundamental Terms.....	235
Index	243
