

Contents

Preface	9
---------------	---

MATHEMATICAL MODELLING, DATA PROCESSING AND NUMERICAL ANALYSIS

<i>Marendić, A., Paar, R., Duvnjak, I., Buterin, A. (Croatia)</i> Determination of Dynamic Displacements of the Roof of Sports Hall Arena Zagreb	13
<i>Milovanović, B., Božić, B., Gospavić, Z., Pejović, M. (Serbia)</i> Comparison of ARX- and AR- Models and of the Assumed Form of the Transfer Function when Examining Settlement of the Building	21
<i>Jašek, P., Štroner, M. (Czech Republic)</i> Denoising of Laser Scanning Data using Wavelet.....	27

NETWORKS AND GNSS APPLICATIONS

<i>Novaković, G., Marendić, A., Orešković, V. (Croatia)</i> Quality Control of the Reference Network of the Tunnel Mala Kapela using the Standards for Expressing Geospatial Positional Accuracy.....	35
<i>Trifković, M., Nestorović, Z., Milutinović, T., Pejičić, G. (Republic Of Srpska, B&H)</i> Geodetic Networks for Hydropower Plant System "Dabar" Republic of Srpska - BiH).....	41
<i>Wunderlich, Th. A. (Germany)</i> Optical Plumbing versus RTK-GNSS –Staking-out on High Levels.....	47
<i>Mentes, G., Bányai, L. (Hungary)</i> Observation of Landslides Movements by Geodetic and Borehole Tilt Measurements.....	53
<i>Paar, R., Novaković, G., Kolovrat, D. (Croatia)</i> Vertical Component Quality Comparison of GPS RTK Method in Combination with Laser System vs. Conventional Methods for Height Determination	59

TERRESTRIAL LASER SCANNING

Křemen, T., Štroner, M., Třasák, P. (Czech Republic)

Determination of the Pavement Elevations by the 3D Scanning System and its Verification	69
--	-----------

Erdélyi, J., Kopáček, A., Ilkovičová, L., Lipták, I., Kajánek, P. (Slovakia)

Deformation Monitoring of a Parabolic Roof Structure using TLS	75
---	-----------

Kouřim, B., Lechner, J. (Czech Republic)

Assessment of the Accuracy of Methods of Mobile Laser Scanning	81
---	-----------

*Incoult, A., Nuttens, T., De Maeyer, P., Seube, N., Stal, C., Touzé, T.,
De Wulf, A. (Belgium and France)*

Mobile Laser Scanning of Intertidal Zones of Beaches using an Amphibious Vehicle	87
---	-----------

POSTER PRESENTATIONS

Kašpar, M., Pospíšil, J. (Czech Republic)

Activity of the Working Group 6E FIG in the Years 1988-1998	95
--	-----------

Pandžić, J., Erić, V., Božić, B., Pejić, M. (Serbia)

The Accuracy Analysis of Leica ScanStation P20 Data by Means of Point Cloud Fitting Algorithm	101
--	------------

Nestorović, Z. (Serbia)

Geodetic Precise Measurements of Directions with Extremely Short Lines of Sight	107
--	------------

Pospíšilová, L., Pospíšil, J. (Czech Republic)

Impact of the Target Configuration to the Precision of Total Station Measurement	111
---	------------

Ilkovičová, L., Erdélyi, J., Kopáček, A. (Slovakia)

Positioning in Indoor Environment using QR Codes	117
---	------------

Tucikešić, S., Gučević, J. (Republic Of Srpska, B&H, Serbia)

A-priori Accuracy of 1D Coordinates in the Network of Combined Levelling	123
---	------------

Příkryl, M., Kutil, L. (Czech Republic)

Consequences of a Complex using of 3D Approach in the Implementation of the Road Reconstruction - Usage of TLS stop&go and Usage of Paving Control System for Milling Machines	129
---	------------

Kajánek, P., Kopáček, A. (Slovakia)

Testing the Possibilities of Using IMUs with Different Types of Movements.....	137
---	------------

<i>Ališić, I., Mastelić Ivić, S., Tomić, H., Tomljenović, M. (Croatia)</i>	
From Decision Support System to Urban Land Readjustment	143
<i>Vranić, S., Jurakić, G., Matijević, H. (Croatia)</i>	
Modelling and Dissemination of Land Survey Data	149
<i>Urban, R., Štroner, M., Jurga, V. (Czech Republic)</i>	
Development of Bridge Deflections in the 24-hours Cycle	155

DEFORMATION MEASUREMENT

<i>Beran, T., Danisch, L., Chrzanowski, A., Bazanowski, M. (Canada)</i>	
Measurement of Deformations by MEMS Arrays, Verified at Sub-millimetre Level Using Robotic Total Stations	163
<i>Fraštia, M., Marčiš, M., Trhan, O. (Slovakia)</i>	
Deformation Measurements of Gabion Walls using Image Based Modeling	171
<i>Mill, T., Ellmann, A. (Estonia)</i>	
Terrestrial Laser Scanning Technology for Deformation Monitoring of a Large Suspension Roof Structure.....	179
<i>Stančić, B., Roić, M., Mađer, M., Vidović, A. (Croatia)</i>	
Building Information Management based on Total Station Measurements and Laser Scanning.....	187

NEW TECHNOLOGY IN ENGINEERING SURVEYING

<i>Niemeier, W., Lehmann, M. (Germany)</i>	
Slow Motion Deformations: Potential and Quality Assessment of Ground Based Radar Systems	195
<i>Talich, M., Glöckner, M., Böhm, O., Antoš, F., Soukup, L., Havrlant, J., Šolc, J. (Czech Republic)</i>	
The Application of the Ground-based InSAR Technique for the Deformation Monitoring of Concrete Hydropower Dam Orlik on Vltava River	203
<i>Lipták, I., Erdélyi, J., Kyrinovič, P., Kopáček, A. (Slovakia)</i>	
Monitoring of Bridge Dynamics by Radar Interferometry.....	211
<i>Vasić, D., Ninkov, T., Bulatović, V., Sušić, Z., Marković, M. (Serbia)</i>	
Terrain Mapping by Applying Unmanned Aerial Vehicle and Lidar System for the Purpose of Designing in Serbia.....	217

<i>Nuttens, T., Stal, C., De Backer, H., Schotte, K., Van Bogaert, V., De Wulf, A. (Belgium)</i>	
Assessment of the Tidal Influences on Tunnels based on Different Monitoring Techniques: Laser Scanning, Levelling and Strain Gauges	223

MONITORING OF STRUCTURES

<i>Braun, J., Štroner, M. (Czech Republic)</i>	
Geodetic Measurement of Longitudinal Displacements of the Railway Bridge	231
<i>Gučević, J., Delčev, S., Ogrizović, V., Pejić, M., Popović, J., Pejović, M. (Serbia)</i>	
Geodetic works during the Estimation of the Vertical Displacement of a Bridge under a Load Test	237
<i>Štroner, M., Urban, R., Kubín, T. (Czech Republic)</i>	
Stability Determination of the Surface Area of the Prague Castle by the Periodically measured Levelling Network and Robust Analysis	243
<i>Bureš, J., Švábenský, O., Kalina, M. (Czech Republic)</i>	
Long-term Deformation Measurements of Atypical Roof Timber Structures	249

METROLOGY, TESTING AND CALIBRATION

<i>Zámečnicková, M., Neuner, H., Pegritz, S. (Austria)</i>	
Influence of the Incidence Angle on the Reflectorless Distance Measurement in Close Range	257
<i>Braun, J., Štroner, M. (Czech Republic)</i>	
The Accuracy of Electronic Distance Meters over Short Distances	263
<i>Redovniković, L., Ivković, I., Cetl, V., Sambunjak, I. (Croatia)</i>	
Testing DistoX Device for Measuring in the Unfavourable Conditions	269
<i>Braun, J., Dvořáček, F., Štroner, M. (Czech Republic)</i>	
Absolute Baseline for Testing Electronic Distance Meters	275
<i>Sokol, Š., Bajtala, M., Ježko, J. (Slovakia)</i>	
Verification of Selected Precision Parameters of the Trimble S8 DR Plus Robotic Total Station	281
