<i>List of Contributing Authors and Scientific Organizing Committee</i>	xiii
---	------

<i>Foreword</i>	xv
-----------------------	----

<i>Preface</i>	xvii
----------------------	------

PART I: INTRODUCTION

Introduction to Exoplanets <i>S. Seager and J. J. Lissauer</i>	3
---	---

Keplerian Orbits and Dynamics of Exoplanets <i>C. D. Murray and A. C. M. Correia</i>	15
---	----

PART II: EXOPLANET OBSERVING TECHNIQUES

Radial Velocity Techniques for Exoplanets <i>C. Lovis and D. Fischer</i>	27
---	----

Exoplanet Transits and Occultations <i>J. N. Winn</i>	55
--	----

Microlensing by Exoplanets <i>B. S. Gaudi</i>	79
--	----

Direct Imaging of Exoplanets <i>W. A. Traub and B. R. Oppenheimer</i>	111
--	-----

Astrometric Detection and Characterization of Exoplanets <i>A. Quirrenbach</i>	157
---	-----

Planets Around Pulsars and Other Evolved Stars: The Fates of Planetary Systems <i>A. Wolszczan and M. Kuchner</i>	175
--	-----

Statistical Distribution of Exoplanets <i>A. Cumming</i>	191
---	-----

PART III: EXOPLANET DYNAMICS

Non-Keplerian Dynamics of Exoplanets <i>D. Fabrycky</i>	217
--	-----

Tidal Evolution of Exoplanets <i>A. C. M. Correia and J. Laskar</i>	239
--	-----

PART IV: EXOPLANET FORMATION AND PROTOPLANETARY DISK EVOLUTION

Protoplanetary and Debris Disks	
<i>A. Roberge and I. Kamp</i>	269
Terrestrial Planet Formation	
<i>J. Chambers</i>	297
Giant Planet Formation	
<i>G. D'Angelo, R. H. Durisen, and J. J. Lissauer</i>	319
Planet Migration	
<i>S. H. Lubow and S. Ida</i>	347

PART V: EXOPLANET INTERIORS AND ATMOSPHERES

Terrestrial Planet Interiors	
<i>C. Sotin, J. M. Jackson, and S. Seager</i>	375
Giant Planet Interior Structure and Thermal Evolution	
<i>J. J. Fortney, I. Baraffe, and B. Militzer</i>	397
Giant Planet Atmospheres	
<i>A. Burrows and G. Orton</i>	419
Terrestrial Planet Atmospheres and Biosignatures	
<i>V. Meadows and S. Seager</i>	441
Atmospheric Circulation of Exoplanets	
<i>A. P. Showman, J. Y-K. Cho, and K. Menou</i>	471
<i>Index</i>	517
