<i>Preface</i>	<i>vi</i>	30. Erosive pustular dermatosis	171
1. Using this book	1	31. Brocq's alopecia (pseudopelade of Brocq) and end-stage cicatricial alopecia	174
2. Specimen acquisition, handling and processing	3	32. Aplasia cutis congenita of the scalp	178
3. Normal hair anatomy and architecture	5	33. Tinea capitis	181
4. Evaluating and describing transverse (horizontal) sections	17	34. Trichodysplasia of immunosuppression	190
5. Classification of hair disease	26	35. Chemotherapy-induced alopecia	194
6. Distinctive or critical histological features and associated diseases	28	36. Overview of hair shaft disorders	198
7. Clinical correlation	35	<i>Glossary</i>	209
8. Senescent alopecia ("senile alopecia" or "senescent balding")	40	<i>Index</i>	213
9. Androgenetic alopecia	42		
10. Telogen effluvium	53		
11. Trichotillomania	60		
12. Traction alopecia	67		
13. Postoperative (pressure-induced) alopecia	72		
14. Temporal triangular alopecia	75		
15. Alopecia areata	79		
16. Psoriatic alopecia	96		
17. Tumor necrosis factor-alpha inhibitor associated psoriasiform alopecia (drug-induced psoriasiform alopecia)	102		
18. Syphilitic alopecia	108		
19. Noncicatricial alopecia from systemic lupus erythematosus	111		
20. Loose anagen hair syndrome	115		
21. Central, centrifugal, cicatricial alopecia	120		
22. Acne keloidis (folliculitis keloidalis)	126		
23. Folliculitis decalvans	131		
24. Tufted folliculitis	134		
25. Lichen planopilaris	137		
26. Frontal fibrosing alopecia	150		
27. Fibrosing alopecia in a pattern distribution	154		
28. Chronic cutaneous lupus erythematosus	158		
29. Dissecting cellulitis of the scalp (perifolliculitis capitis abscedens et suffodiens)	166
