

Foreword <i>E. R. Oxburgh</i>	6	Part Four: Surface Processes and Environments	
Introduction <i>David G. Smith</i>	7	17 Atmosphere, water and weather	276
Units and abbreviations	8	THE EARTH'S ATMOSPHERE <i>Peter Brimblecombe and Trevor D. Davies</i>	
Geological time scale	9	THE WORLD WATER CYCLE <i>Timothy C. Atkinson</i>	
Part One: The Earth Sciences in Perspective		18 Climate and climatic change <i>P. M. Kelly</i>	297
1 The history of the Earth sciences <i>Gordon Herries Davies</i>	12	19 The oceans <i>Christopher E. Vincent</i>	311
2 The Earth in space <i>Simon Mitton</i>	24	20 Sedimentation: environments and processes of deposition	325
Part Two: Physics and Chemistry of the Earth		<i>Graham Evans</i>	
3 Seismology and the deep structure of the Earth	36	21 The origins and early evolution of life <i>Stanley M. Awramik</i>	349
<i>John A. Jacobs</i>		22 Fossils and evolution	363
4 The chemistry of the Earth <i>W. S. Fyfe and R. Kerrich</i>	50	THE NATURE AND INTERPRETATION OF FOSSILS	
5 Earth materials: minerals and rocks <i>J. B. Wright</i>	68	<i>Simon Conway Morris</i>	
6 The gravitational mechanics of the Earth <i>Kurt Lambeck</i>	93	THE COLONIZATION OF THE PALAEOZOIC SEAS	
7 The Earth as a magnet <i>Peter J. Smith</i>	109	<i>Simon Conway Morris</i>	
8 Trace element and isotope geochemistry	124	THE DEVELOPMENT OF LIFE ON LAND <i>Andrew C. Scott</i>	
<i>Christopher J. Hawkesworth</i>		ASPECTS OF EVOLUTION <i>Simon Conway Morris</i>	
9 The energy budget of the Earth <i>Geoffrey C. Brown</i>	140	23 Historical geology: layers of Earth history <i>David G. Smith</i>	386
Part Three: Crustal Processes and Evolution		Part Five: Evaluation of Earth Resources and Hazards	
10 The crust of the Earth <i>Donald H. Tarling</i>	164	24 Remote-sensing and other techniques	412
11 The deformation of rocks <i>Nigel H. Woodcock</i>	189	REMOTE SENSING <i>Stephen A. Drury</i>	
12 Volcanic activity away from plate margins	201	SEISMIC REFLECTION PROFILING <i>Sandra G. Smith</i>	
<i>Hans-Ulrich Schmincke</i>		ELECTRICAL WIRELINE LOGGING <i>Roberto Peveraro</i>	
13 Constructive margin processes <i>David A. Wood</i>	210	25 The economics of Earth resources <i>Stephen A. Drury</i>	427
14 Destructive margin processes <i>Richard A. Thorpe</i>	218	26 Geological hazards <i>Antony C. Waltham</i>	436
15 Tectonics and sedimentation <i>Michael R. Leeder</i>	238	Part Six: Extraterrestrial Geology	
16 The history of the Earth's crust	250	27 The geology of the solar system <i>Peter W. Francis</i>	444
THE ARCHAEOAN EON AND BEFORE <i>Stephen A. Drury</i>		Glossary	468
THE PROTEROZOIC EON <i>Robert M. Shackleton</i>		Further reading	479
THE PHANEROZOIC EON <i>Robert M. Shackleton</i>		Index	481
		Acknowledgements	495
