Preface

I. Geological position and characteristics of the Barrandian.....	5
Proterozoic	9
Cambrian	12
Ordovician	13
Silurian	16
Devonian	19
The Variscan orogeny . . .	22
Post-Variscan development of the Barrandian . .	24
II. First day: Proterozoic S of Prague and Cambrian in the Příbram-Jince area . .	26
1. Záběhlice near Praha-Zbraslav	26
2 Homole near Jarov	27
3. Left bank of the river Vltava between Strnady and Vrané	28
4. Vltava Valley near the Vrané dam	29
5. Jezírko quarry at Dobříš	30
6. Proterozoic and Lower Cambrian N of Trhové Dušníky.	32
7. Lower Cambrian N of Medalův mlýn	33
8. Jince-Vinice	34
9. Rejkovice	36
III. Second day: Proterozoic and Cambrian in the surroundings of Skryje . . .	37
10. Proterozoic volcanites near Čertova skála	37
11. Proterozoic-Middle Cambrian angular unconformity N of Týřovice	38
12. Kamenná hůrka near	

Týřovice	39
13. Luh near Skryje	39
14. Roadside outcrop N of Skryje	41
15. Skryje — monument of Joachim Barrande . . .	42
16. Buchava near Skryje . .	42
17. Jezírka in the Zbirožský potok valley	43
18. Hudlická skála (the Hudlice Rock)	43
19. Zámecký vrch at the old castle Točník	45
IV. Third day: The Ordovician in the vicinity of Rokycany and Beroun	48
20. Medový Újezd	48
21. Klabava	50
22. Ejovice	51
23. Zdice	53
24. Děd near Beroun.....	53
25. Zahořany	56
26. Beroun, foot of the hill Plešivec	56
V. Fourth day: Silurian and Devonian near Karlštejn, Srbsko, Beroun and Koněprusy	58
27. Karlštejn-Klučice	58
28. Budňany Rock at Karlštejn	59
29. Srbsko — roadside sequence	62
30. Quarry near Koledník (Jarov)	66
31. Zlatý kůň near Koněprusy	68
32. Kobyla Quarry	73
33. Červený lom Quarry near Suchomasty	74
34. Klonk near Suchomasty — the stratotype of the Silurian-Devonian boundary	77
VI. Fifth day: Ordovician, Silu-	

rian and Devonian in the Radotín Valley and near Praha-Řeporyje	81	Ordovician	116
35. Radotín	81	55. Zoological Garden in Praha-Troja	116
36. Černá rokle near Kosoř	81	56. Nový hrad in the Kun- ratice forest	116
37. "Orthoceras Quarry" near Lochkov	86	57. Bílá skála	118
38. Radotín Valley — anti- cline near Cikánka	89	58. Motol Valley, Praha- Košíře	119
39. Praha-Řeporyje, Mlád- kova Street	91	59. Railway cutting S of Motol	119
40. Mušlovka Quarry	91	60. Klárov and slopes of Letná	119
41. Požáry Quarries	94	61. Vyšehradská skála (Vy- šehrad Rock)	120
VII. Sixth day: Ordovician, Sil- urian and Devonian in southern Prague	97	62. Praha-Zbraslav, high- road cutting	121
42. Velká Chuchle	97	63. Bažantnice at Praha- Hloubětín	121
43. Žákův (Eurypterid) Quarry	98	64. Praha-Velká Chuchle, slopes above the races-course	121
44. Velká Chuchle — foot of the hill Homolka	100	Silurian	123
45. Barrande's Rock	103	65. —70. Prokop Valley be- tween Butovice and Hlubočepy	123
46. U kapličky (Chapel) Quarry and exposures below Praha-Barran- dov	104	71. Vltava Valley at Malá Chuchle	125
47. Hlubočepy-Daleje	107	72. Kalvarie and adjacent outcrops in the Motol Valley	125
48. Hlubočepy, Vysoká Quarry and vicinity	109	Devonian	126
49. Hlubočepy — railway cutting	112	73. Praha-Podolí (outcrops near the swimming pool)	126
VIII. Some additional localities within the city and at the periphery of Prague	114	74. Branická skála (Braník Rock)	126
Proterozoic	114	75. Zlíchov	126
50. Divoká Šárka Valley	114	76. Dívčí hrady near Zlí- chov	127
51. Vltava Valley N of Prague	115	77. —85. Daleje and Prokop Valleys	127
52. Ládví Hill near Praha- Kobylisy	115	86. Cikánka Quarry near Praha-Slivenec	131
53. Praha-Zbraslav, right bank of the river Vltava	116	Cretaceous (points 87. to 91.)	133
54. Modřanská rokle (Mo- dřany Gorge)	116	IX. Collections of fossils from the Barrandian	138

X. Barrandian rocks as paving, building and decoration stones of Prague . . .	139
---	-----

XI. Conclusion	145
References and Geol. Maps .	146
Plates 1-8	155
