

CONTENTS

Introduction	7
Regional geology and review of stratigraphic nomenclature	7
Lithostratigraphic units and rock descriptions	9
Kyykkä Group	9
Ilvesvaara Formation	12
Urkkavaara Formation	16
Hattusaari Formation	21
Hokkalampi Paleosol	22
Herajärvi Group	26
Vesivaara Formation	28
Koli Formation	28
Jero Formation	32
Puso formation	37
Chemical characteristics	39
Paleocurrents	45
Depositional setting	47
Provenance	50
Discussion	52
Speculation concerning supracrustal conditions during deposition	52
Sedimentary sequence and preservation of formations in relation with extensional movements	53
Regional correlations	56
Tectonic setting	59
Economic geological considerations	60
Summary	63
Acknowledgements	63
References	64
Appendix 1: Locations of type localities and reference sections for the established stratigraphic units	
Appendix 2: Location of samples for XRF-analyses
