1 Energy Transition in Latin America: Historic Perspective and Challenges in Achieving Sustainable Development Goals 1
Lira Luz Benites Lazaro and Esteban Serrani

Part I Energy, Climate Change and Sustainable Models: Energy Mix and National Decarbonization Plans

2 Energy Transition and Climate Justice After Paris Agreement: Achievements and New Goals in South America. 27
Ignacio Mariano Sabbatella

3 Geopolitical and Social Dimension: Geopolitics of Renewable Energy in Latin America 43
Ana Lía del Valle Guerrero

4 Energy Matrix Transformation in Latin America: The Global Political Economy of Chinese Investments 59
Oscar Ugarteche and Joselin García Hernández

Part II Oil and gas dilemmas: Income Dependency and Barriers to Energy Transition

5 The Dispute for Mexico’s Energy Transition Under Dependent Conditions. A Critical Energy Studies Approach 81
Daniel Sandoval Cervantes

6 Contradictions Between Energy and Climate Change Mitigation Policy in a Country with Oil Reserves: The Case of Mexico. 97
Karl J. Zimmermann and Isabel Rodríguez-Peña

7	Between Oil Dependence and Energy Sovereignty: The Limits of the Energy Transition in Ecuador	115
	Nora Fernández Mora and Andrés Mideros Mora	
8	Energy Transition and Consumption Subsidies in Oil-Exporting Countries: Venezuela and Ecuador Between a Rock and a Hard Place.	133
	José Luis Fuentes and Guillaume Fontaine	
9	The Brazilian Hydrocarbon Dilemma: Did Brazil Hit the Big Ticket Too Late?	145
	Rafael Almeida Ferreira Abrão, Giorgio Romano Schutte, and Igor Fuser	
10	Transition Policies as a Local Problem. The Cases of Neuquén and Río Negro (Argentine Patagonia)	157
	Diego Pérez Roig, Mariana Fernández Massi, and Diego di Risio	
Part III Energy Transitions and Renewables: Production Mix, Technology, and Costs as Limits and Opportunities		
11	Renewable Energies in Argentina: The Challenge of Articulating the Energy Transition with the Economic Development Model	177
	Esteban Serrani and Mariano A. Barrera	
12	The “Wind Revolution” in Uruguay and the Role of the Public Sector in Guiding Energy Transitions	195
	Reto Bertoni and Pablo Messina	
13	Energy Transition: An Analysis of Private and Public Agents Working Toward Energy Sustainability in Colombia	217
	Eduardo Reina-Bermudez and Oscar M. Hernández-Carvajal	
14	Solar Energy and Social-Productive Configurations: Regional Features of the Energy Diversification Process in Argentina	233
	Eliana Celeste Canafoglia	
15	Uncertainties About the Transport Planning in Brazil in the Context of Climate Change: Tradition (Biofuels) or Innovation (Electric Mobility)?	251
	Carolina Grangeia and Luan Santos	
16	Factors That Contribute to Diffusion of Solar PV Energy: Evidence from Holambra in São Paulo Macrometropolis, Brazil.	265
	Raiana Schirmer Soares, Lira Luz Benites Lazaro, and Celio Bermann	

**Part IV Energy Services: Access, Energy Poverty,
Decentralization, and Democratization**

**17 Shifting Powers Toward Decentralized Energy Generation:
A Comparative Perspective Between Argentina, Chile,
and Uruguay 287**
Martín Ariel Kazimierski

**18 Unfolding the Relationship Between Poverty and Energy
Consumption in Brazil: A First Step Toward the Energy
Poverty Debate 301**
Raiana Schirmer Soares, Andrea Lampis,
Lira Luz Benites Lazaro, and Celio Bermann

**19 Energy Inequality in Central America: Concept,
Challenge, and Opportunities 321**
Lenin Mondol López

**20 Considerations on Energy Planning Evolution, Energy
Transition, and Sustainable Development Goals:
Keynotes from Nicaragua..... 337**
Flávia Mendes de Almeida Collaço
and Carlos Germán Meza González

**21 Conclusions: Energy Transition Agenda
for Sustainable Development in Latin America 347**
Lira Luz Benites Lazaro and Esteban Serrani

Index..... 357

Esteban Serrani is a Sociologist. He has a master's degree in social research and a PhD in Social Sciences from the University of Buenos Aires, Argentina. He is a Researcher of the National Council for Scientific and Technical Research (CONICET) and Professor at the National University of San Martín, Argentina. He was Director of the Project "Approaches to the relationship between energy models and industrial policy in Argentina, 2002–2019" and "Analysis of the performance of large industrial companies in the energy transition in Argentina", supported by the National Agency for the Promotion of Research, Technological Development and Innovation. In Argentina, he is a Co-Director of the Center for Social Studies of the Economy, at the Interdisciplinary School of High Social Studies, National University of San Martín. In Latin America, he is the coordinator of the CLACSO Working Group on "Energy and Sustainable Development", he coordinates the energy transition and climate change working group of the International Development Economics Associates-Latin America (IDEAS-LAC), and he is member of the Academic Committee, Southern Cone Regional Center at Maria Sibylla Merian Center for Advanced Latin American Studies (CALAS).
