

Table of Contents

Motohiro Kaneta:

Mechanical Engineering Education in Japan 1

Ronald van Gils:

**“Best Practice Is During the Race” How Simulation of the „Real”
Professional Practice Supports Students” Learning..... 9**

Fadi Ali:

**Friction of Non-conformal Contacts under Starved
EHD Lubrication..... 19**

Jiří Baraňák:

Pneumatic Suspension of Passenger Rail Vehicles..... 27

Lukáš Bartoň:

Flexibly Mounted Guide Units 35

Ronald Baš'ovanský, Silvester Poljak, Marián Leitman:

Tensile Strength Testing of Biologic Material 39

Dalibor Bosák, Jan Laštůvka, Martin Vrbka, Tomáš Návrat, Martin Hartl, Ivan Křupka:

**Mapping of Lubricating Film Thickness in Human
Hip Joint Replacements 45**

Norbert Radek, Jozef Bronček, Jurij Shalapko:

**Experimental Analysis of Tribological Properties of Electro-spark
Deposited Coatings..... 53**

Karel Petr, Vojtěch Dynybyl, Zdeněk Češpíro:

**Development of the Driving Axle Transmission for Trams
and Suburban Trains 57**

Oldřich Dajbych:

**Physical and Mechanical Properties of Electric
Guitar String Material 63**

Josef Dvořák, Stanislav Hosnedl:

Costs and Designing of Technical Products 69

Karel Petr, Vojtěch Dynybyl:

Experimental Testing of Gearboxes for Rail Vehicles by Means of Electrically Closed Loop and Introduction of Vibration..... 75

Ildikó Ficza, Michal Vaverka:

Numerical Solution of Contact Pressure from Measured Data Based on the Inverse Elasticity Theory 79

Zdeněk Folta, Pavel Skalný:

Determination of Probable Maximum of the Stochastic Signal..... 83

Eva Fridrichová, Róbert Machálek:

Applying Pre-design Research to New Product Development: Case Study of Hand Tool Design..... 91

Jiří Havlík, Petr Maršálek:

Failure Assessment of the Rolling Mill Equipment Shaft and Arrangements for a Prolongation of Its Service Life..... 99

David Herák, Abraham Kabutey, Monika Divišová, Tereza Svatoňová:

Mechanical Behaviour of Selected Oilseeds under Compression Loading..... 103

Milena Hrudíčková, Zdeněk Folta:

Contribution to Assessment of Railway Technical State.....107

Jan Kanaval, Vojtěch Dynybyl, Jaroslav Kříčka:

Electronic Aided Learning System113

Milan Klapka, Petr Gajdoš:

Experimental Comparison of Methods for Noise Source Localization117

Martin Kopecký, Stanislav Hosnedl:

Innovations of Heterogeneous Technical Products Based on the Theory of Technical Systems.....123

Filip Korsa, Josef Nevrlý:

Revitalized Rig for Hydraulic Circuit and Its Use131

David Košťál, Petr Svoboda, Ivan Křupka:

Lubrication Film Starvation on Two Element Device137

Radovan Kovář, Ladislav Ševčík:

**Ways to Pull Down Spinning Nanofibers from the Rotating
Brush in High Voltage Area**141

Jaroslav Krátký, Eva Krónerová, Václava Lašová:

Innovation of Courses with the Support of European Funds145

Aleš Lufinka:

Alex, Software for Technical Subject Examination149

Pavel Malý, Vojtěch Dynybyl:

Boat Lift for Orlik Dam153

Petr Maršálek:

**Preparation of the Bibliography of Proceedings from
Conferences of Machine Parts and Mechanisms Departments**161

Rudolf Martonka, Vítězslav Fliegel:

Air Permeability Automobile Seats165

Ivana Mazínová, Jiří Dvořák:

Eco-Aspects of Material Section171

Peter Ščerba, Tomáš Špánik, Miroslav Mikita, Jozef Paliesek, Igor Gajdáč:

**Construction Design and Optimization of Fan Frame
for Simulation of Airflow on the Experimental Machine
to Test the Life Cycle of Axlebox Bearings of Railway Carriages**179

Jiří Mrázek, Vojtěch Dynybyl:

Adaptive Control of the Belt Conveyor Preloading185

Vladimír Moravec, Zdeněk Dejl, Miloš Němček:

Gearing Working Life Determination of an Axle Differential191

Josef Nevrlý:	
Hydraulic Energy Recovery Stands for Vehicles.....	199
Libor Nohál, Pavel Mazal, Filip Hort:	
Damage Detection on Automotive Gearbox Using Acoustic Emission	207
Libor Nohál, Jan Schreier, Pavel Mazal:	
Analysis of Influence of Couplant on the Parameters of Acoustic Emission Signal.....	207
Milan Omasta:	
Tribology of Wheel-Rail Contact: a Review of Laboratory Experimental Research	219
Lubomír Pešík, Martin Vančura:	
Identification of Dynamic System Parameters of Harvester.....	223
Karel Petr, Vojtěch Dynybyl, Jan Křepela:	
FEM Modelling of the Loading Capacity of Teeth with a Respect of the Case Hardening Depth and Pressure Angle	227
Michal Petrů, Ondřej Novák, Petr Lepšík:	
Optimization of the Electrostatic Field in the Construction of Production Line for Production of Inorganic Nanofibers	235
Silvester Poljak, Viera Konstantová, Ronald Baš'ovanský:	
Bionics in Education at the University of Žilina	241
Justín Murín, Tibor Sedlár, Viktor Královič, Vladimír Goga:	
Experimental Device for Measurement of Warping Torsion Features of Thin-walled Beams	245
Radim Slanina, Patrik Sniehotta:	
Design of a Hydraulic Equipment for Rails Lifting.....	251
David Smejkal doc. Ing. Jan Brandejs Csc:	
Design of Hydraulic Travel of Reaper's Drive Unit.....	255

Tomáš Smola:

**Loading Forces Analyse of Agricultural Machinery in Process
and Their Usage in Design of Supporting Frames261**

Patrik Sniehotta:

**Design Optimization of a Gear Air Engine with Use of
„High Contact Ratio“ Gearing.....265**

Pavel Srb, Vítězslav Fliegel:

**Measuring Static and Dynamic Characteristics of Composite
Polyurethane Foam.....271**

František Starý, Jiří Mrázek:

Design of the Wrapping Machine with Integrated Manipulator275

Zbyněk Strecker, Ivan Mazůrek:

Semiactive Damper in an Experimental Trolley Suspension.....281

Pavel Syrovátka, Pavel Mossóczy:

**Determining the Optimum Settings Pre-stressed Tapered
Roller Bearings Used in Agriculture.....287**

Ladislav Ševčík:

The Issue of Production of Nanofibers from Polymer Melts293

David Škaroupka, Čeněk Šandera, Veronika Sedláčková, Jiří Král:

**Developing of the Manipulative Sketch Generator
for the Product Design.....297**

Viera Konstantová, Viktor Škorík, Silvester Poljak:

Topography of Butterfly Wing Scanned by AFM.....303

Roman Uhlíř, Pavel Mossóczy, Pavel Malý:

Operational Testing of Agricultural Trailer.....311

Václav Vaněk:

Using the TASK PN1 Kit within Machine Design Teaching.....317

Miroslav Vávra:

The Bending Stress of Pin Gearings.....321

David Vejrych:

Construction of Nodal Elements for the Production of Nanofibers325

Aneta Zatočilová, Radek Poliščuk, Jan Brandejs, David Paloušek:

**An Approach to the Shape Deviation Measurement
of Cylindrical Forgings.....331**

Martin Zimmerman:

**Review of Experimental Studies of Lubrication
of Cam-Tappet Contact339**

Index of Authors345
