Introduction 1

1. Human Misery: The Most Important Issue of Them All 2

The World Poverty Problem, 4

Factors Generating Concern.
Population Aspects of Poverty.

World Poverty and Economics, 5

Our Insatiable Wants.
Our Limited Means.
The Capacity of the Economy to Produce.
Living Standards.

Causes of Poverty and the Requisites of Economic Growth, 11

Quality of the Labor Force.
Stock of Capital and Capital Accumulation.
Technology.
Efficiency.
Population.

Have We Painted Too Rosy a Scenario? 17

The Distribution of GNP.

Can Governments Help? 20

Governments of LDCs.
Governments of DCs.

Summary, 23

Part One

Resource Allocation 27

2. Government Control of Prices: Do the Poor Benefit? 28

Why Do Governments Control Prices? 29

Price Floors.
Price Ceilings.

Some Useful Economic Concepts, 31

Market Structure.
Demand.
Changes in the Quantity Demanded versus Changes in Demand.
Supply.
Changes in the Quantity Supplied versus Changes in Supply.
Competitive Market Price Determination.
Changes in Equilibrium: Putting It All Together.
Price Elasticity of Demand.

Economic Analysis of Price Floors, 54

Labor Markets.

Economic Analysis of Price Ceilings, 65

Housing Markets.

Summary and Evaluation, 71

3. Economics of Higher Education: Who Benefits and Who Pays the Bills? 74

Problems in Higher Education, 75

What Kinds of Services?
How Much Service?
What Institutional Structure?
Who Should Pay?
The Economic Basis of the Problems.

The "Product" of Higher Education, 78

Investment in Human Capital.
Direct Consumption.
Social Spillovers.
The Incidence of the Benefits.

Economic Concept of Costs, 81

The Opportunity Cost Principle Revisited.
Explicit and Implicit Costs.

The Costs of Higher Educational Services, 83

The Explicit Costs.
The Implicit Costs.
Sources of Support.
The Incidence of the Costs.

Economic Evaluation of the Problems, 87

What Kinds of Services?
How Much Service?
Who Should Pay?
An Alternative Institutional Structure.

Summary, 99

4. Energy Problems: Must Simple Things Be Made Complex? 102

The Problems Perceived by the Public, 105

The Economics of Energy, 106

Demand.
Supply.

How to Create Energy Problems, 111

Price Controls.

Allocations of Crude Oil.
Conservation and Other Measures.

Toward Alleviating the Problems, 118

The Adequacy of Petroleum Supplies.
Alternative Energy Sources.
The Efficiency of the Price Mechanism.
The Role of the Government.

Summary, 125

5. Economics of Crime and Its Prevention: How Much Is Too Much? 128

What Is Crime? 129

Immorality?
Illegality?
Classification of Criminal Acts.
Causes of Crime.

The Costs of Crime, 132

Individually and Collectively Consumed Goods, 134

Individually Consumed Goods.
Collectively Consumed Goods.
Semicollectively Consumed Goods.
The "Free Rider" Problem.
Government Production of Collectively Consumed Items.

The Economics of Crime Prevention Activities, 137

The "Correct" Level.
Allocation of the Crime Prevention Budget.

The Economics of Legalizing Illegal Activities, 141

Summary, 144

6. Pollution Problems: Must We Foul Our Own Nests? 146

What Is Pollution? 148

The Environment and Its Services.
Recycling of Wastes and the Concept of Pollution.
Common Forms of Pollution.

Economics of Pollution, 152

Why Polluters Pollute.
Pollution and Resource Use.
The Costs of Controlling Pollution.
The Benefits of Controlling Pollution.
The Appropriate Level of Pollution Control.

What Can Be Done about Pollution? 161

Direct Controls.
Indirect Controls.
Private Property Rights.

Summary, 166

7. The Economics of Bigness: Who Does What to Whom? 168

The Public View of Big Businesses, 169

The Economics of Monopoly Power, 170

What is Monopoly Power?
Outputs and Prices.
Entry Restrictions.
Nonprice Competition.

Should We Fear Bigness? 184

Bigness and Monopoly Power.
Outputs and Prices.
Entry Restrictions and Resource Allocation.
Nonprice Competition.
Income Distribution.

Summary, 188

8. Airline Regulation and Deregulation: Who Gains from Regulation? 190

The Problems of Regulation and the Promise of Deregulation, 191

When Should Governments Regulate Business? 192

Natural Monopoly.

Deficient Information.
Poorly Defined Property Rights.

The History of Airline Regulation and Deregulation, 199

The CAA and the FAA.

Airline Industry Performance: The Impact of Deregulation, 201

Fares.
Availability of Service.
Safety Concerns.

Airline Regulation: What Went Wrong? 206

Was Airline Regulation Economically Justified?
The Capture Theory of Regulation.

What the Future Holds, 210

Future Safety Concerns.
Increasing Concentration.

Summary, 212

9. Protectionism versus Free Trade: Can We Restrict Ourselves into Prosperity? 214

The Controversy over International Trade, 216

The Protectionist Viewpoint.
The Free Trade Viewpoint.

The Economics of International Trade, 217

How Trade Takes Place.
Production and Consumption Possibilities.
The Principle of Comparative Advantage.
How International Trade is Financed.

Analysis of the Controversy, 227

Protection from Cheap Foreign Goods.

Payments Problems.
Protection of Key Industries.

Summary, 231

10. Health Issues: Is Health Worth What It Costs? 234

Growth and Nature of Health Services, 236

National Health Care Dollars—Where They Came from and Where They Went.
Factors Explaining the Growth in Expenditures for Personal Health Care Services.
Special Characteristics of Health Services.

Health Care Problems, 243

The Public View.
The Economist's View.

Analysis of Demand for Health Care Services, 243

Price Elasticity of Demand.
Factors Changing the Demand for Health Services.

Analysis of Supply of Health Services, 248

Supply Characteristics: Physicians.
Supply Characteristics: Hospitals.
Factors Affecting the Supply of Hospital Services.

Evaluation of the U.S. Health Care System, 250

Reforms in the Distribution of Health Care Services.
Reducing Entry Barriers.
Increasing Efficiency.

National Health Insurance, 256

Basic Issues.
Alternative Proposals to National Health Insurance.

A Final Look at Rising Health Care Costs, 260

Supply Approach.
Demand Approach.
Reform Approach.

Summary, 264

Part Two

Distribution of Income 267

11. Poverty Problems: Is Poverty Necessary? 268

Poverty in Terms of Absolute Income Levels, 269

What Is Poverty?
Who Are the Poor?
The Upward Struggle of the Poor.

Poverty in Terms of Income Distribution, 273

Income Equality.
Income Inequality.

The Economic Causes of Poverty, 276

Determinants of Resource Prices and Employment.
Determination of Individual or Family Income.
Determinants of Income Distribution.
Causes of Differences in Labor Resource Ownership.
Causes of Differences in Capital Resource Ownership.
Summary of the Causes of Poverty.

Government Attempts to Alleviate Poverty, 280

Government Programs Primarily for The Poor.
Real Growth and Relative Importance of Low-income Programs.
Evaluation of Low-income Programs.

Negative Income Tax Proposals, 285

The Negative Income Tax.
Evaluation of the Negative Income Tax Scheme.

Summary, 287

12. Discrimination: The High Cost of Prejudice 290

What Is Discrimination? 291

The Public View.
A Working Definition.

Economic Analysis of Discrimination, 292

Sources of Market Discrimination.
Kinds of Market Discrimination.
Economic Costs of Discrimination.

Nonmarket Discrimination, 298

Social Discrimination.
Educational Discrimination.

What Can Be Done about Discrimination? 300

Reduce Tastes for Discrimination.
Reduce Market Imperfections.
Reduce Discrimination in
Development of Human Capital.
Reduce Occupational Segregation.

The Comparable Worth Controversy, 303

Proponents.
Opponents.
Comparable Worth: A Definitive Conclusion?

Summary, 305**Part Three
Stabilization 307****13. Unemployment Issues: Why Do We Waste Our Labor Resources? 308****Some Effects of Unemployment, 309**

Effects on GNP.
Effects on Social Relations.

What Is Unemployment? 310

General Definition.
Involuntary Unemployment.

Analysis of the Unemployment Problem, 312

Types of Unemployment.
Further Dimensions of the Unemployment Problem.

What Causes People to Lose Their Jobs? 315

Circular Flow of Economic Activity.
Aggregate Demand.

Aggregate Supply.

Aggregate Demand and Supply.
Reasons for Deficient Aggregate Demand.

Reasons for Weak Aggregate Supply.

Combating Unemployment, 327

Aggregate Demand Policies.
Aggregate Supply Policies and the Economy in the 1980s.

Summary, 330**14. Inflation: How to Gain and Lose at the Same Time 332****Meaning and Measurement of Inflation, 334**

Inflation Defined.
Further Aspects of Inflation.
Measurement of Inflation.
Rate of Inflation.

Economic Effects of Inflation, 337

Equity Effects.
Efficiency Effects.
Output Effects.

What Is Money? 340

Functions of Money.
The Basic Money Supply (M1).
Other Money Measures.

The Process of Creating Money, 343

Commercial Banks.
Other Depository Institutions.
Balance Sheet of a Bank.
The Fractional Reserve Banking System.
Demand Deposit Creation.

The Issue of Control, 347

The Federal Reserve System.
Federal Reserve Controls.
Federal Reserve Targets.

Inflationary Causes and Cures, 351

Quantity Theory of Money.
Demand-Pull Inflation.
Cures for Demand-Pull Inflation.

Cost-Push Inflation.
Demand-Pull and Then Cost-Push Inflation.
Is There a Cure for Cost-Push Inflation?

Summary, 358

Part Four

The Public Sector: Who Wins and Who Loses? 361

15. Government Expenditure and Tax Issues 362

What Are People
Afraid of? 363

Size of Government.
Tax Inequities.

The Problem of Size, 365

Government Expenditures.
Government Receipts.

Economic Analysis of the
Problem of Size, 367

An Efficient Level of Government Expenditures.
Collective Goods and Services.
External Benefits and Costs.
Income Distribution.
Summary.

Tax Principles and
Analysis, 372

Tax Equity.
Tax Efficiency.
Principles of Shifting and Incidence.

Who Really Pays Taxes? 376

Federal, State, and Local Tax Distribution in 1980.
Federal Tax Incidence versus State and Local Tax Incidence.
Tax Rates by Type of Tax.

Policy Reforms, 380

The Problem of Size.
Income Tax Reform: A Dream Come True.

Summary, 386

16. The Big National Debt: Is It Bad? 388

The Course of the National
Debt, 389

The Growth in the Federal
Debt Held by the Public, 390

The Absolute Growth in the Federal Debt Held by the Public.
Public-Held Federal Debt as a Percent of the GNP.
Federal Debt Held by the Public as a Percent of Total Credit Market Debt.

What Is the National
Debt? 394

Types of Federal Securities.
Who Owns the National Debt?

Problems with a Large National
Debt, 395

The Views of the Public.
The Concern of Economists.
Summary in Regard to National Debt Problems.

Economic Analysis of National
Debt Financing, 399

Methods of Finance.
Economic Effects of Government Debt Financing.
Differing Effects of Tax and Debt Financing.

Managing a Large National
Debt, 403

Debt Management Policy.
Debt Management Principles.

When Should the Government
Borrow? 405

Public Investments.
Economic Instability.
Is Government Debt Accumulation Necessary during Wartime?
A Budget Proposal.

Summary 408
