

# CONTENTS

**INTRODUCTION ..... 9**

**Unit 1 MEDICAL EDUCATION (Džuganová) ..... 11**

- A. Lead-in: Brainstorming. Opinion exchange
- B. Reading comprehension: Study at the university.
- C. Medical language: Medical subjects and specialties
- D. Famous personalities: Jan Jessenius
- E. Glossary

**Unit 2 BODY SYSTEMS (Džuganová) ..... 19**

- A. Lead-in: Label the diagram
- B. Reading comprehension: Body systems
- C. Medical language: Formation of medical terms. Derived adjectives
- D. Listening comprehension: The human body
- E. Glossary

**Unit 3 THE CELLS (Džuganová) ..... 32**

- A. Lead-in: Recognize individual cells and their functions
- B. Reading comprehension: Cell structure and function
- C. Medical language: Regular and irregular plural
- D. Video-watching: Meiosis, crossing over and variability 3D animation
- E. Communication activity: Guess who I am?
- F. Entertainment: Solve the crossword
- G. Glossary

**Unit 4 BLOOD AND LYMPH (Džuganová) ..... 43**

- A. Lead-in: Slovak idioms vs. English idioms. Brainstorming.  
A true/false exercise
- B. Reading comprehension: Composition of the blood.  
Lymph and the lymphatic system
- C. Medical language: Derived adjectives. Compound adjectives
- D. Video-watching: Types of blood cells.  
Blood groups and blood compatibility
- E. A bit of clinical medicine: Various blood diseases
- F. Famous personalities: Discoveries of the blood groups
- G. Glossary
