

CONTENTS

Introduction	7
Methods	8
Evaluation of growth	13
Reproducibility of experiments	14
Morphological variability	30
Colour of algae	34
The volume and depth of the layer of a nutrient solution	36
Growth of cultures	41
Growth in various nutrient solutions	44
Influence of organic substances	82
Soil decoct	82
Humate	86
Yeast decoct	87
Glucose	90
Combination of organic substances	96
Productivity	97
Conclusion	98
References	101
Index	115
