<i>Preface</i>	xi
1 Making Europe fit for the digital age	1
1.1 The digital transformation: From personal convenience to public headlines	1
1.2 The wakeup-call: The urge to shape Europe's digital future	13
1.3 From nerds to herds: A holistic view of digital policy	19
2 The stunning evolution of the digital space	25
2.1 Creating a global society: From tribal conversations to global networks	26
2.2 The forbidden fruit: From knowledge to power	31
2.3 The early days: The accidental birth of the internet	39
2.4 The evolution of search: Locating the needle in a colossal haystack	43
2.5 Mobile devices and app economy: The instant gratification of needs gone wild	48
2.6 The platform economy: Cleaning up the information mess	51
2.6.1 Network Effects and the Concentration of Digital Markets	52
2.6.2 The Lack of Transparency and Public Accountability	54
2.6.3 The Disruption of Existing Industries and Business Models	55
2.6.4 The Externalisation of Societal Harms	56
2.7 Music and audio streaming: Separating consumption from ownership	58
2.8 To boldly go: From universe to metaverse	59

3	Digital policy from 1997 to 2019	62
3.1	Boosting the economy: Creating a breeding ground for e-commerce	63
3.2	Unleashing economies of scale: A single market for digital services	67
3.3	Managing the risk: A safe harbour for online intermediaries	73
3.4	Protecting personal data: Privacy at the centre of digital policy	78
3.5	Reassuring the online shopper: Consumer protection in the digital world	83
3.5.1	Providing the Online Consumer with Trustworthy Information	85
3.5.2	Empowering the Consumer in E-Commerce Transactions	86
3.5.3	Helping the Consumer if Things Go Wrong	89
3.6	Taming the wild west: The fight against illegal and harmful content	92
3.7	Levelling the playing field: Curbing the power of online platforms	99
4	The case for a paradigm shift in digital policy making	107
4.1	When digital markets fail: Giving a hand to the invisible hand	110
4.2	Misalignment of interests: From intermediation to control	120
4.3	Opacity in the digital world: Clearing the fog	124
4.4	Investing in digital technologies: On a path towards resilience and autonomy	126
5	Defining the target of digital regulation	129
5.1	You are what you do: Targeting digital services	131
5.2	You are who you are: Targeting gatekeepers and systemically relevant operators	139
5.3	Focusing on risks: Targeting critical use of technology	143
6	Shaping Europe's digital decade	148
6.1	Steering the digital transformation: Quo vadis, Europe?	149

6.2	Have your cake and eat it: Reconciling regulation with innovation	150
6.3	Marching together: The 2030 Digital Compass	155
6.4	Putting people at the centre: The declaration of digital rights and principles	159
7	Regulating digital markets	162
7.1	Making the case for market regulation: Refining the problem analysis	164
7.2	Rebooting competition in the platform economy: The Digital Markets Act	168
7.3	Levelling the playing field: Due diligence on online marketplaces	176
7.4	Aligning legal frameworks: New rules beyond the Digital Services Act	192
8	Managing risks to society and democracy	199
8.1	Future-proofing digital legislation: The concept of systemic risk management	203
8.1.1	Keeping Pace with Technology by Means of Co-Regulation	206
8.1.2	Monitoring and Enforcement by Means of Crowdsourcing	210
8.2	Fast forward from the ancient <i>agora</i> : Preserving real democracy in a virtual world	213
8.2.1	Abiding by the Law in All Transparency	213
8.2.2	Shaping Democracy Based on Reliable Information	216
8.2.3	Preserving the Integrity of Democratic and Civil Infrastructures	222
8.3	From data point to human being: Defending the integrity of the individual	224
8.3.1	Upholding the Fundamental Rights of Citizens	225
8.3.2	The Freedom of Expression and Information	229
8.3.3	From Data Protection to Control over Data	232
8.3.4	The Rights of the Child	242
8.3.5	The Mental and Physical Integrity of Citizens	246

9	Promoting human-centred technology	252
9.1	From data sharing to data analytics: Creating a European data economy	253
9.1.1	Creating a Trustworthy and Fair Single Market for Data	255
9.1.2	Investing in Trustworthy European Data and Cloud Infrastructures	262
9.2	Taming the clever machine: Putting artificial intelligence to good use	263
9.2.1	Promoting Excellence and Trust in Artificial Intelligence	264
9.2.2	Getting to Grips with General-Purpose AI	268
9.3	Securing Europe's position in the world: Moving towards technological sovereignty	273
9.3.1	Towards Reaching the 2030 Targets for Digital Infrastructures	274
9.3.2	Addressing Critical Dependencies in a Challenging Geopolitical Context	276
10	Is Europe fit for the digital age?	279
