<i>About the author</i>	ix	
<i>Preface</i>	x	
<i>List of abbreviations</i>	xiii	
1	A glimpse of the internet of the future: Utopias and dystopias of tomorrow	1
1.1	The past is prologue	2
1.2	Artificial intelligence, then and now	6
1.3	Welcome to the metaverse	15
1.4	Cryptocurrencies, Fintech, and alternative payment systems	19
1.5	Digital property, non-fungible tokens, and digital collectibles	29
2	Battles for public attention in digital media	35
2.1	The medium is the message	36
2.1.1	The printing press and movable type	36
2.1.2	The motion picture	42
2.1.3	Television	45
2.2	The evolution of Web 1.0 to Web 2.0	50
2.2.1	The World Wide Web (Web 1.0)	50
2.2.2	Web 2.0	56
2.2.3	From Arab Spring forward—The end of innocence	59
2.3	Web3—The promise of consumer control for the digital future	69
2.4	Watching, playing, and creating—the curatorial audience	73
3	The challenges of the ubiquitous metaverse	84
3.1	Economic opportunity for all	85
3.2	Anonymity, pseudonymity, and identity	89
3.3	Disinformation, falsity, trolling, and cyber harms	93
3.4	Police and regulatory power: Mediating the government in the metaverse	99
3.5	Intellectual property rights	110

4	Working, studying, and praying in the multiverse	116
4.1	The public metaverse network	118
4.1.1	Virtual real estate	118
4.1.2	Digital goods, virtual goods, and the attributes of personal property	121
4.1.3	Public accommodation in the metaverse	125
4.2	At work via the metaverse	129
4.2.1	Cloud services agreement—Data retention, confidential computing, and cybersecurity	129
4.2.2	Software designer agreement—Functionality, intellectual property, security, and interoperability	131
4.2.3	Employee relations—Avatars, biometrics, and workplace monitoring	133
4.2.4	ADA and work accommodation	140
4.3	At school via the metaverse	143
4.3.1	Core characteristics of metaverse education platforms	144
4.3.2	The continuum from excursion to immersion	146
4.3.3	Educational equity	149
4.3.4	Free speech, academic freedom, and universal data collection	157
4.3.5	Educational privacy	161
5	Corporate dominance and competition (antitrust) regulation	166
5.1	The history of anti-competition	167
5.1.1	How antitrust history informs the metaverse and Web3	181
5.1.2	Market power and network effects	185
5.1.3	Anticompetitive practices to expand market share and retain customers	187
5.2	Using intellectual property to build loyalty and market dominance	190
5.3	Where regulators should intervene to protect the marketplace	194
5.4	The Web3 alternatives to multinationals	201
6	The battle for global dominance: The metaverse as the theater of conflict	203
6.1	Ongoing cyberwars: How existing conflicts will shape the emergence of the metaverse	204
6.1.1	Keeping conflict out of the metaverse	206
6.1.2	Intellectual property rights reinforce national borders	208

6.2 The US transition from speech-protective regulation to a threat-based regulation 210

6.3 European regulation as human dignity and central authority 213

6.4 The Chinese closed metaverse and the threat of social credit 218

6.5 Government as social contract: The philosophical essentials libertarian alternatives 223

7 Final thoughts and suggestions for the next decade 227
