

CONTENTS

Contributors	vii
Editors' Preface	xi
J. Wimpenny	
An overview of biofilms as functional communities	1
H. J. Busscher and H. C. van der Mei	
Initial microbial adhesion events: mechanisms and implications	25
D. G. Davies	
Physiological events in biofilm formation	37
P. Stoodley, L. Hall-Stoodley, J. D. Boyle, F. Jørgensen and H. M. Lappin-Scott	
Environmental and genetic factors influencing biofilm structure	53
P. E. Kolenbrander, R. N. Andersen, K. M. Kazmerzak and R. J. Palmer, Jr	
Coaggregation and coadhesion in oral biofilms	65
H.-C. Flemming, J. Wingender, C. Mayer, V. Körstgens and W. Borchard	
Cohesiveness in biofilm matrix polymers	87
G. F. Moore, B. C. Dunsmore, S. M. Jones, C. W. Smejkal, J. Jass, P. Stoodley and H. M. Lappin-Scott	
Microbial detachment from biofilms	107
C. Picioreanu, M. C. M. van Loosdrecht and J. J. Heijnen	
Modelling and predicting biofilm structure	129
P. D. Marsh and G. H. W. Bowden	
Microbial community interactions in biofilms	167
S. Molin, J. A. J. Haagensen, K. B. Barken and C. Sternberg	
Microbial communities: aggregates of individuals or co-ordinated systems	199
L. J. Ehlers	
Gene transfer in biofilms	215
A. J. McBain, D. G. Allison and P. Gilbert	
Population dynamics in microbial biofilms	257
G. M. Wolfaardt, D. R. Korber, S. Karthikeyan and D. E. Caldwell	
Biodegradation by biofilm communities	279
R. Bayston	
Biofilms and prosthetic devices	295
D. G. Allison, A. J. McBain and P. Gilbert	
Biofilms: problems of control	309

J. W. Costerton

Biofilms in the New Millennium: musings from a peak in Xanadu	329
Index	345
