Gibbons

General information	326
Modern species	328
	Holger Preuschoft

Great apes

General information	358
---------------------	-----

Introduction	360	Holger Preuschoft
Orangutans	401	Kathy MacKinnon
Orangutan rehabilitation	419	Monica Borner
Breeding and life span of orangutans in captivity	422	Marvin Jones
The gorilla	424	Bernhard Grzimek
Our first field studies	441	George B. Schaller
New observations of gorillas in the wild	449	Dian Fossey
Chimpanzees	463	Jane Goodall
Chimpanzee rehabilitation	482	Bernhard Grzimek
The bonobo or pygmy chimpanzee	486	Alison and Noel Badrian
Humans		
General information	488	
Human phylogeny	490	Gunter Brauer
Modern humans: physical form	520	Rainer Knussmann
Biological roots of human behavior	538	Irenäus Eibl-Eibesfeldt
New World edentates		
General information	576	
Introduction	578	Walburga Moeller
Phylogeny	579	Erich Thenius
Modern xenarthrans	583	Walburga Moeller
Pangolins		
General information	628	
Phylogeny	630	Erich Thenius
Modern pholidotes	630	Urs Rahm
Appendix
