

CONTENTS

INTRODUCTION.....	10
1 THEORETICAL FOUNDATIONS OF INQUIRY/ORIENTED TEACHING OF MATHEMATICS IN THE PRIMARY LEVEL.....	12
1.1 Didactics of mathematics and its role in connection to inquiry-based teaching	12
1.2 Dienes' didactic theory and its contribution to inquiry-based teaching.....	13
1.3 Pólya's method and its application.....	16
1.4 Summary	20
2 SUPPORT FOR INQUIRY-ORIENTED TEACHING OF STUDENTS IN PRIMARY MATHEMATICS EDUCATION.....	22
2.1 Primary mathematics education in curriculum documents	23
2.2 Representation of subjects focused on mathematics in the study program Teacher Training for Primary Education	26
2.3 What is expected from graduates in terms of training and practice?	26
2.4 The field of skills in education for the 21st of century	27
2.5 Summary	29
3 ACTIVITIES FOR SUPPORT INQUIRY-ORIENTED TEACHING IN MATHEMATICS EDUCATION	30
3.1 Introduction of other number systems - the tale of Gulliver.....	30
3.1.1 <i>Theoretical background</i>	30
3.1.2 <i>Introduction of the binary number system using Polya's method</i>	31
3.1.3 <i>Addition and subtraction in the binary number system</i>	36
3.1.4 <i>Evaluation</i>	41
3.1.5 <i>Transfer - other number systems</i>	42
3.1.6 <i>Summary</i>	43

3.2 Building with blocks	43
3.2.1 Theoretical background.....	43
3.2.2 Stimulating situation/Problem	46
3.2.3 Tools.....	47
3.2.4 Research design	47
3.2.5 Building recorded using three projections - tasks	48
3.2.6 Building recorded using a building plan	50
3.2.7 Building recorded using notation (cipher)	51
3.2.8 Evaluation.....	51
3.2.9 Transfer to new situation	53
3.2.10 Variability of assignments in the buildings with blocks environment.....	55
3.2.11 Summary	58
3.3 Didactic topics and possible teacher's interventions.....	59
3.4 Summary	82
4 QUALITATIVE METHODOLOGY AS A BASIS FOR THE IMPLEMENTATION OF INVESTIGATION OF INQUIRY-BASED TEACHING.....	83
4.1 Research problem.....	83
4.2 The goal of research	85
4.3 Research questions	85
4.4 Tools and methods in the realized research	86
4.5 The research sample	89
4.6 The implementation of research.....	90
4.7 Analysis and interpretation of data from essays.....	92
4.7.1 Processing of research results and their interpretation.....	96
4.7.2 Preconceptions about inquiry approach in mathematics education.....	97

4.7.3 Initial ideas about the inquiry processing of the mathematics curriculum	98
4.7.4 The position of a teacher and a student in the inquiry approach in teaching mathematics	98
4.7.5 Teaching methods used in inquiry-oriented teaching in selected topics of primary mathematics education.....	99
4.7.6 Evaluation of students from a research sample of applied inquiry-based methods in primary mathematics education.....	100
4.7.7 Changes in students' initial concepts about inquiry approach in primary mathematics education.....	100
4.8 Research findings	102
CONCLUSION	104
