

CONTENTS

Summary (English)	2
Souhrn (Czech)	3
Keywords (English)	4
Klíčová slova (Czech)	4
Chapter 1: Introduction	6
Chapter 2: Lattice Discrete Particle Model	6
2.1 Particle placement	7
2.2 Particle facets	9
2.3 Material models	10
2.4 Model calibration and parameters evolution	13
Chapter 3: Selected problems	14
3.1 Adhesive anchors	14
3.2 Prestressed/post-tensioned concrete beams	17
3.3 Viscoelastic behaviour of macro-synthetic fibre reinforced concrete	18
3.4 Fibre-reinforced polymer-concrete joints	18
3.5 Framework for tertiary creep of concrete	21
Chapter 4: Conclusions and future work	22
Acknowledgements	23
References	24
Curriculum vitae	28
