Preface

Mario Marzilli 9

Coronary atherosclerosis and ischemic heart disease: the pathologist's perspective

Michele Pasotti, Frediano Inzani, Manuela Agozzino,
Alessandra Cavallero, Eloisa Arbustini 11

Coronary artery stenosis and myocardial perfusion

Gianmario Sambuceti, Mario Marzilli 27

Microvascular function before and after coronary recanalization

Mario Marzilli, Marta Focardi, Gianmario Sambuceti 41

Exercise-induced myocardial ischemia

Antonio L'Abbate 53

Unstable plaque or unstable patient

Giovanna Liuzzo, Filippo Crea 65

Coronary recanalization and the natural history of ischemic heart disease

Mario Marzilli, Silvia Affinito 81

Clinical implications of persistent angina

Antonio Abbate, George W. Vetrovec 87

Recurrence of chest pain after coronary revascularization: the potential role of coronary microcirculatory abnormalities

Juan Carlos Kaski, Raquel Marzoa-Rivas, Ramon Ríos-Vázquez,
Ignacio Gil-Ortega 99

Trimetazidine: an innovative approach to ischemic heart disease in different subsets of patients

Mario Marzilli, Marta Focardi 115

Index 127
