

Contents

1	Introduction	1
1.1	Statement of Problem	1
1.2	Research Questions	2
1.3	Overview of Methodology	3
	Reference	5
 Part I Theoretical Perspective of Digital Rights Management Systems		
2	Panorama of Digital Rights Management Systems	9
2.1	How Digital Rights Management Got Here	9
2.1.1	Background of Digital Rights Management	10
2.1.2	Why We Need Digital Right Management	14
2.2	Digital Rights Management Technological Protection Measures	21
2.2.1	Digital Watermarking	21
2.2.2	Fingerprinting	22
2.2.3	Encryption	24
2.2.4	Access Control	26
2.2.5	Use Control (Copy Control)	28
2.3	Digital Rights Management Technology Standards	30
2.3.1	Extensible Rights Markup Language (XrML)	31
2.3.2	Open Digital Rights Language (ODRL)	33
2.3.3	Extensible Access Control Markup Language (XACML)	35
2.3.4	MPEG Rights Expression Language	37
2.4	Digital Rights Management Usage Models	40
2.4.1	Prepaid	40
2.4.2	Rental	42
2.4.3	Subscription	43
2.4.4	Peer-to-Peer	44
	References	48

3	Digital Rights Management Dilemma: Theoretical Context	53
3.1	Culture Perspective	53
3.1.1	Culture Background	54
3.1.2	Traditional Value System	57
3.2	Social Perspective	65
3.2.1	Culture Lag	65
3.2.2	Reciprocal Determinism Theory	67
3.3	Economic Perspective	70
3.3.1	Right-Holders	77
3.3.2	Internet Content/Service Provider	77
3.3.3	End-Users	78
3.4	Socio-Cultural and Economic Matrix for Copyright and Digital Rights Management	82
3.4.1	The Rationality of the Technological Protection Measures of Copyright	83
3.4.2	Types of Consultation Mechanism	85
	References	87
 Part II Comprehensive Analysis of Digital Rights Management		
4	Legislations	93
4.1	Correct Positioning and Proper Application of Copyright Technological Protection Measures	93
4.1.1	Correct Positioning of Technological Protection Measures in Digital Era	93
4.1.2	The Proper Application of Technological Protection Laws in Digital Era	95
4.1.3	Fully Introduce New Technology	96
4.2	The Background of Anti-Circumvention Rules Emergence	101
4.2.1	Technological Measures Legislations	102
4.2.2	Rights Management Information Legislation	103
4.3	Legal Protection of Technological Protection Measures in Different Regions	104
4.3.1	US Level: Digital Millennium Copyright Act in 1998	104
4.3.2	The EU Directives	105
4.3.3	The Path of Digital Rights Management Regulatory Model in China	109
4.4	The Impact of Anti-Circumvention Legislations	114
4.5	Anti-Circumvention Legislations Analysis and Evaluation	115
	References	117
5	Case Law Analysis	121
5.1	Cases in the US	121
5.1.1	Felten v. Recording Industry Assoc. of America	121
5.2	Cases in Europe	122

5.2.1	Finnish CSS Cases in 2007	122
5.2.2	Nintendo v. PC Box	124
5.3	Cases in China	125
5.3.1	Jiangmin Company “Logic Lock” Case in 1997	125
5.3.2	Beijing Jingdiao Technology Ltd. v. Shanghai Naikai Electronic Technology Ltd.	127
	References	130
6	Digital Rights Management Practices	131
6.1	iTunes Model	131
6.1.1	The Emergence of iTunes: Substitute for Illegal File-Sharing Platform	131
6.1.2	iTunes Online Music Store (iTunes Store): Prospective on Digital Rights Management Model	132
6.2	Amazon Kindle	136
6.2.1	High Updating Speed of Devices	136
6.2.2	Abundant Supported Formats	137
6.3	Adobe Content Server	137
6.4	Foxit Digital Rights Management	138
6.5	Ubisoft and Blizzard	138
6.5.1	Blizzard was Proud of the Digital Rights Management System	139
6.6	National Digital Library Project in China	141
6.6.1	Copyright Protection and Construction of Digital Library	141
6.7	China Unicom/China Telecom Platform	144
6.8	Founder Information Industry Group: Apabi Technology	146
	References	148

Part III Proposed Digital Rights Management Model in China

7	Predicament and Countermeasure	153
7.1	Necessity for A New Regulatory Model in China	153
7.1.1	In Terms of Legal Nature: Technological Protection Measures are Private Remedies to Protect Copyright.	154
7.1.2	In Terms of Protection Methods: Technological Protection Measures Aim to Control and Consumers	155
7.1.3	Rationality Analysis of Fair Use Under Digital Rights Management	157
7.2	Digital Rights Management Rules in China Against the Socio-Cultural and Economic Matrix: Theoretical Basis for Conflict Regulation	159
7.2.1	Based on the Theory of Copyright Benefit Balance	159
7.2.2	Oriented by the Coordination of Rights and Obligations	161

7.3	Legal Protection of Digital Rights Management and Present Situation of Conflict Coordination in China	163
7.3.1	Legal Protection of Digital Rights Management in China	163
7.3.2	Present Situation of Conflict Coordination in China	166
7.4	Coordination Approach of Conflicts	167
7.4.1	Technical Considerations	167
7.4.2	Administrative Intervention	169
7.4.3	Judicial Expectations	171
7.4.4	Legislation Suggestions	172
	References	173
 Part IV Suggestions on the Improvement of Relevant Legal Systems in China		
8	A Comprehensive Regulatory Model	177
8.1	Legislative Suggestions on the Direct Coordination of Conflicts	180
8.1.1	Establishment of Effectiveness Principle for Digital Rights Management	180
8.1.2	Supplement of Exception Clauses to Coordinate the Conflict with Fair Use	181
8.1.3	Introduction of Copyright Term System for the Technological Measures	183
8.2	Legislative Suggestions on the Indirect Coordination of Conflicts	184
8.2.1	Establishment of Legal Protection System of Privacy Involved in the Supporting Technological Measures	184
8.2.2	Improvement on the Laws and Regulations of Anti-Unfair Competition to Prevent the Unfair Competition	187
8.3	Far More Than Judicial Regulatory Model	188
8.3.1	Technology and Law of Social Norms	189
8.3.2	Assimilation of Anti-Circumvention Provisions Based on Internationally Multilateral Treaties	192
8.3.3	Accountability & Liability	202
8.4	Exception Rules of Technological Measures	208
8.4.1	Encryption Research Exception	209
8.4.2	Reverse Engineering Exception	212
8.4.3	Library Evasion Exception Rules	217
8.4.4	Personal Information Protection Exception	222
8.4.5	Exception Rules for the Benefit of the Visually Impaired	226
	References	235

**Part V The Room for Perfecting China’s Digital Rights Management:
Some Experience Can be Learned from Europe and America**

9 Status Quo and Foreground 241

9.1 Clear the Definition of Technology Protection Measures 241

9.2 Distinguish Legal Technology Circumvention Behaviors
from Illegal Ones 242

9.3 Add “Anti-Equipment” Items in Regulatory Architecture 243

9.4 Comparison Between China and Europe and America 246

9.5 The Development of American Network Copyright Law:
Dominated by Government Under the Promotion
of Practitioners 247

9.6 The Adaptive Development of Copyright Law in Network
Age 249

9.7 Summary 254

References 255

10 Conclusion 257
