Foreword	ix
Preface	xi
Terminology and Symbols Used	xiii

## 1 Ruminant Production and Forage Nutrients

I. Introduction	1
II. Composition of Ruminant Products	2
III. Nutrients Required for Maintenance and Reproduction	3
IV. Nutrients in Forage	4
V. Sources of Nutrients	8

## 2 Intake of Forage by Housed Ruminants

I. Introduction	9
II. Measurement of Voluntary Intake	9
III. Forage Factors Controlling Voluntary Intake	17
IV. Prediction of Voluntary Intake	44
V. Increasing Voluntary Intake	51
VI. Conclusion	58

## 3 Intake of Grazed Forage

I. Introduction	60
II. Measurement of Forage Intake	60
III. Selective Grazing	66
IV. Physical Constraints	66
V. Forage Differences	76
VI. Improving Intake	81
VII. Conclusion	84

**4 Digestible Energy of Forage**

- I. Digestibility and Its Measurement
- II. Variation in Forage Digestibility
- III. Prediction of Forage Digestibility
- IV. Increasing Digestibility
- V. Conclusion

**5 Energy Utilization by Ruminants**

- I. Energy Available in Forage
- II. Efficiency of Utilization of Metabolizable Energy
- III. Improving the Efficiency of Energy Utilization
- IV. Conclusion

**6 Protein**

- I. Protein in Ruminant Nutrition
- II. Crude Protein in Forage
- III. Diagnosis of Protein Deficiency
- IV. Preventing Protein Deficiency
- V. Conclusion

**7 Calcium**

- I. Calcium in Ruminant Nutrition
- II. Calcium in Forage
- III. Diagnosis of Calcium Deficiency
- IV. Preventing Calcium Deficiency
- V. Conclusion

**8 Phosphorus**

- I. Phosphorus in Ruminant Nutrition
- II. Phosphorus in Forage
- III. Diagnosis of Phosphorus Deficiency
- IV. Preventing Phosphorus Deficiency
- V. Conclusion

**9 Magnesium**

- I. Magnesium in Ruminant Nutrition
- II. Magnesium in Forage
- III. Diagnosis of Magnesium Deficiency
- IV. Preventing Magnesium Deficiency
- V. Conclusion

**■ Sodium**

I. Sodium in Ruminant Nutrition	291
II. Sodium in Forage	295
III. Diagnosis of Sodium Deficiency	305
IV. Prevention of Sodium Deficiency	307
V. Conclusion	308

**■ Copper**

I. Copper in Ruminant Nutrition	310
II. Copper in Forage	316
III. Diagnosis of Copper Deficiency	324
IV. Prevention of Copper Deficiency	328
V. Conclusion	331

**■ Iodine**

I. Iodine in Ruminant Nutrition	333
II. Iodine in Forage	336
III. Diagnosis of Iodine Deficiency	340
IV. Preventing Iodine Deficiency	343
V. Conclusion	344

**■ Zinc**

I. Zinc in Ruminant Nutrition	346
II. Zinc in Forage	350
III. Diagnosis of Zinc Deficiency	355
IV. Prevention of Zinc Deficiency	357
V. Conclusion	358

**■ Manganese**

I. Manganese in Ruminant Nutrition	359
II. Manganese in Forage	361
III. Diagnosis of Manganese Deficiency	366
IV. Prevention of Manganese Deficiency	367
V. Conclusion	367

**■ Selenium**

I. Selenium in Ruminant Nutrition	369
II. Selenium in Forage	373
III. Diagnosing a Selenium Deficiency	376
IV. Correcting a Selenium Deficiency	379
V. Conclusion	381

**16 Cobalt**

I. Cobalt in Ruminant Nutrition	382
II. Cobalt in Forage	385
III. Diagnosis of Cobalt Deficiency	390
IV. Prevention of Cobalt Deficiency	393
V. Conclusion	395
<b>Glossary of Forage Names</b>	397
<b>References</b>	403
<b>Index</b>	463
