PART ONE Preparing for Effective Intervention

CHAPTER 1

The Essential Ingredients of Good Therapy: Basic Skills	3
Philosophy	3
Universal Design Principles for Learning: An Overarching Framework	4
General Principles of Intervention	4
Programming	6
Selection of Therapy Targets	6
Sequencing of Therapy Targets	9
Generalization/Carryover	11
Termination of Therapy	11
Formulation of Behavioral Objectives	11
Theories of Learning	15
Innateness Theory/Biological Model	15
Behavioral Model	16
Constructivism/Interactionist/Integrative Model	16
Behavior Modification	17
Types of Reinforcement	18
Positive Behavioral Interventions and Supports	20
Schedules of Reinforcement	21
Key Teaching/Scaffolding Strategies	22
Homework	24

Session Design	24
Basic Training Protocol	25
Task Order	26
Dynamics of Therapy	26
Group Therapy	28
Data Collection	31
Recording Session Data	31
Probes	32
Collaborative Service Delivery Models	32
Multitiered Systems of Support/Response to Intervention	35
Current Challenges of RTI	37
Treatment Efficacy/Evidence-Based Practice	37
Treatment Intensity and Dosage	39
Setting-Specific Professional Terminology	40
Troubleshooting Tips for Therapy Sessions	40
Conclusion	42
Additional Resources	43
Chapter Appendices located on the PluralPlus companion website (not included in print version)	
Appendix 1-A: Therapy Observation Checklist	
Appendix 1-B: Worksheet for Identifying Behavioral Objectives	
Appendix 1-C: Worksheet for Formulating and Writing Behavioral Objectives	
Appendix 1-D: Sample Daily Therapy Plan	
Appendix 1-E: Daily Therapy Plan	
Appendix 1-F: Report of Observation Hours	
Appendix 1-G: Instructions for Using Data Recording Forms	
Appendix 1-H: Sample Positive Behavioral Intervention and Support Plan	

CHAPTER 2

Information Reporting Systems and Techniques	45
Philosophy	45
Technical Writing Style	45
Report Formats	46
Initial Therapy Plan	47
Session Notes	50
Progress and Final Reports	51
Tips for Proofreading Clinical Reports	54
Individualized Education Program	55
Due Process	56
Individualized Family Service Plan	57
504 Plan	57
Professional Correspondence	58
Health Insurance Portability and Accountability Act	58

Additional Resources	68
Chapter Appendices located on the PluralPlus companion website (not included in print version)	
Appendix 2–A: Sample Initial Therapy Plan	
Appendix 2–B: Sample Progress Report	
Appendix 2–C: Health Insurance Portability and Accountability Act (HIPAA)	

PART TWO Providing Treatment for Communication Disorders

CHAPTER 3

Intervention for Articulation and Phonology in Children	71
Treatment Approaches	71
Traditional	72
Motor Kinesthetic	72
Distinctive Features	72
Paired Oppositions—Minimal and Maximal	74
Phonological Processes	75
Cycles Approach	75
Core Vocabulary	75
Metaphon	77
Oral-Motor Considerations	77
Treatment Efficacy and Evidence-Based Practice	77
Target Selection for Intervention Programming	78
Developmental	78
Nondevelopmental	80
Helpful Hints (Functional Articulation Disorders)	87
Helpful Hints (Phonological Disorders)	92
Organic Articulation Disorders	93
Cleft Palate	93
Helpful Hints	97
Hearing Impairment	98
Helpful Hints	103
Childhood Apraxia of Speech	104
Helpful Hints	108
Conclusion	109
Articulation and Phonology	109
Oral-Motor Dysfunction	110
Additional Resources	110
Articulation	110
Phonology	111
Chapter Appendices located on the PluralPlus companion website (not included in print version)	
Appendix 3–A: Phonetic Placement Instructions for Difficult-to-Teach Sounds	
Appendix 3–B: Diadochokinetic Rates for Children	

INTRODUCTION TO CHAPTERS 4 AND 5

Introduction to Language Intervention for Children and Adolescents	113
Classification of Language Disorders	113
Relationship Between Oral Language and Literacy.....	114
Role of the Speech-Language Pathologist (SLP) in Literacy	117
Theoretical Models of Intervention	118
Treatment Efficacy/Evidence-Based Practice	119

CHAPTER 4

Intervention for Language in Infants and Preschool Children	121
Intervention With Infants (Birth to 3 years)	121
American Speech-Language-Hearing Association (ASHA) Early Intervention	121
Guidelines	
Prelinguistic and Early Language Therapy Targets	122
Helpful Hints	132
Intervention With Children (3 to 5 years).....	133
Treatment Approaches for Infants, Toddlers, and Preschoolers	139
Emergent Literacy Intervention (Birth Through Preschool Years)	141
Helpful Hints	148
Conclusion	149
Additional Resources	149

Chapter Appendices located on the PluralPlus companion website (not included in print version)

Appendix 4-A: Developmental Language Milestones: Birth to 5 Years	
Appendix 4-B: Gross and Fine Motor Developmental Milestones	
Appendix 4-C: Stages of Cognitive Development	
Appendix 4-D: Gesture Developmental Milestones: 9 to 16 Months	
Appendix 4-E: Development of Vision	
Appendix 4-F: Feeding Developmental Milestones	
Appendix 4-G: Stages of Play Development	
Appendix 4-H: Developmental Toy List	
Appendix 4-I: Examples of Lessons From “Promoting Awareness of Speech Sounds” (PASS)	

CHAPTER 5

Intervention for Language in School-Age Children Through Adolescence ...	153
Characteristics of Students Ages 5 to 10 years.....	153
Characteristics of Adolescents 10 to 18 years.....	156
Intervention Considerations for School-Age Children and Adolescents	160

The Common Core State Standards	161
Treatment Approaches for School-Age Children and Adolescents	164
Instructional Strategies for Writing	166
Helpful Hints	189
Conclusion	193
Additional Resources	194
Chapter Appendix located on the PluralPlus companion website (not included in print version)	
Appendix 5–A: Types of Cohesion	

CHAPTER 6

Intervention for Autism Spectrum Disorder (ASD)	197
Overview of Autism Spectrum Disorder	197
Incidence	198
Etiology	199
Characteristics of Children With ASD	200
Social Communication	200
Repetitive/Restricted Behaviors, Interests, and Activities	201
Language and Speech Considerations	201
Emergent Literacy and Literacy	204
Medications	204
Outcomes	205
Treatment Efficacy/Evidence-Based Practice	205
Treatment for Autism	206
Theoretical Models	206
Treatment Approaches	208
Helpful Hints	217
Conclusion	218
Additional Resources	218

CHAPTER 7

Intervention for Adult Aphasia With Introduction to Traumatic Brain Injury	223
Aphasia	223
Classification of Aphasia Syndromes	223
Treatment Efficacy/Evidence-Based Practice	226
Treatment for Aphasia	227
Neuroplasticity	228
Theoretical Orientations to Aphasia Treatment	230
Guidelines for Programming and Implementing Therapy	230
Specific Intervention Procedures	233

Helpful Hints	247
Conclusion	248
Additional Resources	249
Traumatic Brain Injury (Coauthored by Emily DeAngelis)	251
Communication	251
Executive Functioning	252
Attention and Memory	252
Behavior	252
Treatment Efficacy/Evidence-Based Practice	253
Treatment for Traumatic Brain Injury	254
Helpful Hints	255
Conclusion	255
Additional Resources	256
Chapter Appendices located on the PluralPlus companion website (not included in print version)	
Appendix 7–A: Suggestions for Enhancing Verbal Interaction With a Family Member With Aphasia	
Appendix 7–B: Guidelines for Conversational Coaching	

CHAPTER 8

Intervention for Motor-Speech Disorders: The Dysarthrias, Apraxia of Speech, and Dysphagia	259
Treatment for Motor-Speech Disorders	259
The Dysarthrias	260
Treatment Efficacy/Evidence-Based Practice	261
Treatment for the Dysarthrias	263
Helpful Hints	275
Apraxia of Speech	276
Treatment Efficacy/Evidence-Based Practice	278
Treatment for Apraxia of Speech	278
Helpful Hints	285
Conclusion	286
Additional Resources	286
Dysphagia	288
Treatment for Dysphagia	288
Helpful Hints	292
Conclusion	293
Additional Resources	293

CHAPTER 9

Intervention for Stuttering	295
Categories of Stuttering Behaviors	296

Core Behaviors	297
Secondary Behaviors.....	297
Developmental Disfluencies Versus Stuttering	297
Treatment for Fluency Disorders.....	298
Treatment Efficacy/Evidence-Based Practice	299
Intervention Techniques	301
Helpful Hints	306
Helpful Hints	316
Conclusion	319
Additional Resources	319

Chapter Appendix located on the PluralPlus companion website (not included in print version)

Appendix 9–A: Sample Phrases, Questions, and Monologues

CHAPTER 10

Intervention for Voice and Alaryngeal Speech	321
Voice Disorders.....	321
Classification of Voice Disorders.....	323
Treatment Efficacy/Evidence-Based Practice	325
Treatment for Voice Disorders	326
Intervention Techniques	327
Transgender Voice	332
Helpful Hints	340
Alaryngeal Speech	341
Treatment for Alaryngeal Clients	342
Mechanical Devices	342
Esophageal Speech	343
Tracheoesophageal (TEP) Speech	346
Helpful Hints	349
Conclusion	350
Additional Resources	350

Chapter Appendix located on the PluralPlus companion website (not included in print version)

Appendix 10–A: Additional Dialogue Scripts for Voice Therapy Activities

CHAPTER 11

Client and Family Counseling	353
Five Key Traits of an Effective Counselor	355
Stages of Counseling.....	356
Establishing the Therapeutic Relationship	356
Implementing Counseling Intervention.....	357
Terminating the Therapeutic Relationship	357

Client and Family Emotional Reactions to Communicative Disorders	357
Counseling Techniques for Communicative Disorders	359
Nonverbal	362
Verbal	362
Group Counseling.....	363
Family Systems Counseling.....	363
Helpful Hints	364
Conclusion	365
Additional Resources	365

CHAPTER 12

Multicultural Issues in Intervention/Diversity, Equity, Inclusion, and Accessibility (DEIA)

Cultural Competence	368
Cultural/Ethnic Background	370
Socioeconomic Status (SES).....	370
Linguistic Differences	371
Clinical Considerations for Children.....	374
Terminology.....	374
Patterns of Second-Language Acquisition	381
Educational Models	381
Clinical Considerations for Adult Populations	381
Clinical Considerations for Multilingual Populations With Language Disorders	382
Helpful Hints	383
Conclusion	384
Additional Resources	385

CHAPTER 13

Contemporary Issues.....

Critical Thinking	387
Components of Critical Thinking.....	387
Strategies/Techniques for Promoting Critical Thinking.....	388
Telepractice.....	391
Evidence Base for Telepractice.....	392
Privacy and Regulatory Issues.....	392
Basic Clinician Competencies With Technology.....	393
Candidates for Telepractice Services	393
Simulation Technologies	394
Standardized Patients (SPs).....	394
Computer-Based Learning Experiences (CBLEs)	395
Implementation	395

Coding and Reimbursement	395
CPT Codes	396
ICD-10 Codes	396
Documentation	396
Helpful Hints	396
Conclusion	397

Whole-Book Appendices located on the PluralPlus companion website (not included in print version)

- APPENDIX A: ASHA Code of Ethics
- APPENDIX B: International Phonetic Alphabet Symbols
- APPENDIX C: Glossary of Selected Medical Terms
- APPENDIX D: Schematic of the Vocal Tract
- APPENDIX E: Cultural Competency Check-Ins
