How to Use This Manual	xiii
Chapter 1 Fitness Testing in Later Years	
<i>Recognizing Unique Needs of Older Adults</i>	1
Importance of Fitness (and Fitness Testing) in Later Years	2
Rationale for Developing the SFT	3
Unique Qualities of the SFT	4
Uses of the SFT	6
Summary	8
Chapter 2 The Senior Fitness Test	
<i>Defining Functional Fitness Parameters</i>	11
Conceptual Background	12
Functional Fitness Parameters	13
Test Selection Criteria	17
Overview of Test Items	18
Summary	23
Chapter 3 Test Validity, Reliability, and Performance Standards	
<i>Identifying Relevant Fitness Measures for Older Adults</i>	25
Validity	26
Reliability	39
Performance Standards	41
Summary	50

Chapter 4 Test Administration	
<i>Establishing Consistent Testing Protocols</i>	53
Pretest Procedures and Considerations	54
Administering the Tests	58
Guidelines for Group Testing	76
Summary	80
Chapter 5 Test Results	
<i>Interpreting and Using Feedback to Motivate and Improve Performance</i>	83
Interpreting Test Scores	84
Using Test Results to Motivate Participants	92
Improving Performance	96
Summary	106
Appendix A: Informed Consent/Assumption of Liability Form	109
Appendix B: Medical Clearance Form	110
Appendix C: Participant Instructions Prior to Assessment	111
Appendix D: Scorecard	112
Appendix E: Accident Report Form	113
Appendix F: BMI Conversion Chart	114
Appendix G: Station Signs for Posting	115
Appendix H: Age Group Percentile Norms	124
Appendix I: Personal Profile Form	132
Appendix J: Performance Charts	133
Appendix K: Personal Goals/Activity Plans	141
Appendix L: Activity Record	142
Appendix M: Normal Range of Scores	143
Appendix N: Resources on Exercise Programming for Older Adults	144
Appendix O: Measurement Conversions	145
References	147
Index	157
About the Authors	161
