Foreword xiii | Contributors xv | Preface xix | Acknowledgments xxi

Part I Setting the Context **1**

Chapter 1 Population Health Management at the Worksite **2**

Nicolaas P. Pronk, PhD, FACSM

A Look at the Past	2
Managing the Health of Defined Populations	4
The Population Health Management Framework	4
What Works?	5
A Glimpse of the Future	8
Conclusion	9

Chapter 2 Employee Health Promotion: A Historical Perspective **10**

R. William Whitmer, MBA

Worksite Wellness—1975 to 1985	10
Employee Health Promotion—1986 to 1995	12
Employee Health Management—1996 to the Present	16
Former and Current Providers	18
Conclusion	20

Chapter 3 Workplace-Based Health and Wellness Services **21**

Raymond J. Fabius, MD, CPE, FACPE, and Sharon Glave Frazee, PhD

Brief History of Workplace Health Centers	22
From Occupational Health to Population Health	23
How Worksite Health Promotion Fits In	25
Workplace Health as a Point of Integration	26
The Value of Workplace Health	27
What Does the Future Offer?	29
Conclusion	30

Chapter 4 State of the Worksite Health Promotion Industry: The 2004 National Worksite Health Promotion Survey **31**

Laura A. Linnan, ScD, CHES

Monitoring Worksite Health Promotion Objectives— National Surveys (1985, 1992, 1999)	31
2004 National Worksite Health Promotion Survey	32
Survey Sample and Key Measures	33
Data Collection Procedures and Analysis Plan	33
Results	33
Discussion	37
Implications for Practice	38
Implications for Research	39
Conclusion	39

Chapter 5 Health Promotion Programming in Small, Medium, and Large Businesses 41

Heather M. Bowen, MS, RD, LD; Todd D. Smith, MS, CSP, ARM; Mark G. Wilson, HSD; and David M. Dejoy, PhD

Characteristics of Small Versus Large Employers	41
Availability of Health Promotion Activities and Services	42
Access to Health Promotion Activities and Services	43
Quality of Health Promotion Activities and Services	44
The Small-Business Conundrum	45
Strategies for Expanding Health Promotion in Small Businesses	45
Conclusion	48

Chapter 6 Employee Health Promotion: A Legal Perspective 49

Alison Cline Earles, Esq., and LuAnn Heinen, MPP

Summary of Relevant U.S. Laws and Their Effects on Health Promotion Programs . . .	50
HIPAA Privacy and Security Rules and Health Promotion Programs	50
HIPAA Nondiscrimination Rules and Incentive-Based Health Promotion Programs . . .	51
Americans With Disabilities Act	55
State Lifestyle Discrimination Laws	56
Tax Laws	56
Conclusion	57

Chapter 7 Health Care Policy and Health Promotion. 58

John M. Clymer, AB; Garry M. Lindsay, MPH, CHES; Jennifer M. Childress, MS, CHES; and George J. Pfeiffer, MSE, FAWHP

What Is Policy?	58
Types of Policy	58
Policy and Outcomes	59
Common Health-Related Policies and Application to Health Promotion	
Professionals.	60
Policy as a Cultural Catalyst	62
Noncompliance With Policy	63
Planning and Implementing Health Policy	63
Conclusion	65

Chapter 8 The Case for Change: From Segregated to Integrated Employee Health Management 66

Ann L. Yaktine, PhD, and Mike D. Parkinson, MD, MPH, FACPM

Identifying the Problem.	66
Raising the Bar	67
Revisioning the Role of Health Benefits	68
Determining the Health of the Workforce.	69
Implementing an Integrated Program	70
Conclusion	73

Part II The Evidence for Employer-Sponsored Health Programs 74

Chapter 9 An Introduction to Evidence on Worksite Health Promotion 75

Jonathan E. Fielding, MD, MPH, MBA, and David P. Hopkins, MD, MPH

Evidence-Based Worksite Health Promotion	76
Sources of Evidence on Effectiveness for Worksite Health Promotion.	77
Scientific Studies and Evidence-Based Decision Making	78
Systematic Reviews in Support of Evidence-Based Decision Making	78
Insufficient Evidence	80
Specific Issues Regarding Worksite Health Promotion Literature	80
Additional Considerations on Evidence Regarding Worksite Health Promotion	81
Conclusion	81

Chapter 10 The Assessment of Health Risks With Feedback: Results of a Systematic Review 82

Robin E. Soler, PhD; Matt Griffith, MPH; David P. Hopkins, MD, MPH; and Kimberly D. Leeks, PhD, MPH

The AHRF Intervention	83
Evaluation of Effectiveness Across the Qualifying Body of Evidence	83
Results: Intervention Effectiveness	84
Potential Adverse Effects and Barriers to Implementation of AHRF Plus	89
Methodological Challenges of the Review	90
Conclusion	90

Chapter 11 Practice and Research Connected: A Synergistic Process of Translation Through Knowledge Transfer 92

Nicolaas P. Pronk, PhD, FACSM

Translation as a Knowledge Transfer	94
Practice and Research Connected.	95
The Practice and Research Connected Model	96
Tools to Generate, Transfer, and Apply Knowledge	98
Conclusion	99

Chapter 12 Benchmarking and Best Practices in Worksite Health Promotion 101

Jessica Grossmeier, MPH; LaVaughn Palma-Davis, MA; K. Andrew Crighton, MD, CPE; Margaret Sabin, MHSA; and David R. Anderson, PhD

Benchmarking	101
Best Practices	102
Application of Benchmarking Approaches	103
HERO Employee Health Management Best Practice Scorecard.	104
Conclusion	104

Chapter 13 Health and the Organization of Work109

David Gimeno, PhD, and Benjamin C. Amick III, PhD

Contextual Levels Shaping the Organization of Work	109
Toward a Multilevel Perspective on Work Organization.	111
The Health Effects of the Organization of Work: What Do We Know?	111
Methodological Issues to Consider in Moving Forward	113
Interventions on the Organization of Work With Health Outcomes:	
What Can We Learn?	114
Conclusion	116

Chapter 14 Health and Productivity Management: An Overview117

Joseph A. Leutzinger, PhD

What Is Health and Productivity Management?	117
Health-Related Productivity	117
HPM Model.	119
What Makes HPM Unique?	122
Implementation of the HPM Model	122
Trends in HPM.	124
Evaluation	124
Conclusion	125

Part III Assessing Worker and Organizational Health 126

Chapter 15 Practical Program Evaluation: Ensuring Findings Are Used for Program Improvement127

Thomas J. Chapel, MA, MBA, and Jason E. Lang, MPH, MS

CDC's Framework for Program Evaluation in Public Health.	128
Applying the Framework Steps.	128
Conclusion	138

Chapter 16 The Assessment of Health and Risk: Tools, Specific Uses, and Implementation Processes140

Edward M. Framer, PhD, and Yosuke Chikamoto, PhD

Assessment of Health Risk and Health Status	140
Implementing Population Health Measurement Systems	144
Detailed Review	147
Health Assessment Program Participation Eligibility Determination	148
Health Assessment Program Delivery Methods	148
Marketing	149
Biometric Screenings	149
Data Handling	149
Implementation Monitoring	149

Evaluation	150
Conclusion	150

Chapter 17 Organizational Assessment for Health

Thomas Golaszewski, EdD

Best-Practice Guidelines and Award Mechanisms in Worksite Health Promotion . . .	151
Organizational Assessment Tools	152
Future Recommendations	158
Conclusion	158

Chapter 18 Assessment Tools for Employee Productivity 160

Nicolaas P. Pronk, PhD, FACSM

Approach.	160
Research Reviews on Health-Related Productivity Instruments	160
Compilation of Individual Health-Related Productivity Instruments.	161
Psychometric Properties	161
Practical Application	164
Conclusion	164

Chapter 19 Calculating the Economic Return of Health and Productivity Management Programs 165

Seth Serxner, PhD, MPH, and Daniel B. Gold, PhD

Approach.	165
Measurement and Evaluation Activities	171
General Discussion	172
Conclusion	174

Chapter 20 Using Claims Analysis to Support Intervention Planning, Design, and Measurement 175

David H. Chenoweth, PhD, and Jeff A. Hochberg, MS

Do It Yourself or Hire It Done.	175
Requesting Appropriate Data	175
Defining the Types of Data to Consider	176
Making Sense of Medical Claims.	177
Conclusion	181

Part IV Program Design and Implementation 182

Chapter 21 Organizing Intelligence to Achieve Increased Consumer Engagement, Behavior Change, and Health Improvement . . . 183

Stephanie Pronk, MEd

Creating a Multidimensional View of the Consumer	183
Segmentation, Identification, and Stratification	185
Outreach and Engagement Techniques	186
Integrated Tracking and Reporting Using a Closed-Loop System.	187
Conclusion	187

**Chapter 22 The Application of Behavior Change Theory
in the Worksite Setting189**

Karen Glanz, PhD, MPH

The Importance of Understanding Influences on Health Behavior189
What is Theory?190
Explanatory and Change Theories190
Important Theories and Their Key Constructs.190
Social Cognitive Theory191
Constructs and Issues Across Theories193
Implications and Opportunities195
Conclusion195

**Chapter 23 Keeping Healthy Workers Healthy: Creating a Culture
of Health196**

Shirley Musich, PhD; Howard Schubiner, MD; and Timothy J. McDonald, MHSA

Organizational Practices and Policies.197
Corporate Environment.198
Health Management Programming199
Medical Services202
Measuring the Value of Low-Risk Maintenance203
Conclusion205

Chapter 24 Connecting the Program to Core Business Objectives207

Steven P. Noeldner, PhD

How Business Executives Think207
Business Objectives.207
People Produce Profit.208
Health Insurance for Employees208
Health Care Costs Directly Relate to Employee Health Status208
Health and Productivity208
Total Health Management209
Return on Investment.209
Value of Investment210
Fully Insured Versus Self-Funded Health Care211
Building a Business Case211
Connecting the Health Management Program to Core Business Objectives212
Conclusion213

**Chapter 25 Addressing Diversity and Health Literacy at
the Worksite214**

Antronette K. (Toni) Yancey, MD, MPH; A. Janet Tomiyama, MA; and Nicole R. Keith, PhD

Health Literacy215
Health Disparities216
Addressing Underserved Populations in Workplace Health Promotion:
 Obesity Prevention and Control.216
Conclusion222

Chapter 26 A Culture of Health: Creating and Sustaining Supportive Organizational Environments for Health224

Nicolaas P. Pronk, PhD, FACSM, and Calvin U. Allen, MBA, CHIE

A Culture of Health Defined	224
Culture of Health Components	225
Shaping a Culture of Health	228
Putting the Pieces Together	229
Conclusion	230

Chapter 27 Online Communities and Worksite Health Management . . .231

Neal S. Sofian, MSPH, and Daniel Newton, PhD

What Is an Online Community?	231
The Expansion of Collaborative Technologies: MySpace for Health	232
Not All Information Is Equal	233
What Are MoMs and How Do MoMs Happen?	233
Online Communities and Storytelling	235
Creating Purposeful Social Networks	236
So What Does All This Mean for Worksite Health Management?	237
Conclusion	238

Chapter 28 Rewarding Change: Principles for Implementing Worksite Incentive Programs239

Jeffrey J. VanWormer, MS, and Nicolaas P. Pronk, PhD, FACSM

Core Principles	239
Value	240
Contingency	241
Incentives in Context: Smoking and Diet	242
Enhancing the Value of Incentives Through Communication	242
Application to Benefits Design	244
Conclusion	246

Chapter 29 eHealth for Employee Health and Wellness: Optimizing Plan Design and Incentive Management.248

David K. Ahern, PhD; Lauren Buckel, BA; Edward W. Aberger, PhD; and Michael J. Follick, PhD

Growth of eHealth.	248
eHealth Programs to Optimize Plan Design	254
Conclusion	258

Chapter 30 Effective Programs to Promote Worker Health Within Healthy and Safe Worksites259

Glorian Sorensen, PhD, MPH, and Lisa Quintiliani, PhD

The Evidence on Worksite Health Promotion	260
The OSH Approach	260
Rationale for Integrating WHP and OSH Programs.	262
Evidence for the Effectiveness of Integrated OSH and WHP Programs	263

Characteristics of Best-Practice Programs	.263
Program Planning and Design	.265
Implementation of Integrated Programs	.265
Organizational Support.	.267
Conclusion	.268

Chapter 31 Programs Designed to Improve Employee Health Through Changes in the Built Environment.269

Mireille N.M. van Poppel, PhD, and Luuk H. Engbers, PhD, PT

Environmental Interventions in Worksite Health Promotion	.269
Theories and Models	.270
Environmental Interventions for Improving Physical Activity at Work	.272
Environmental Interventions for Improving Dietary Habits at Work.	.275
Conclusion	.276

Chapter 32 The Design, Implementation, and Evaluation of Medical Self-Care Programs277

Don R. Powell, PhD, and Jeanette D. Karwan, RD

The Need for Medical Self-Care	.277
Major Determinants of Medical Self-Care Utilization	.278
Goals and Benefits of Medical Self-Care	.278
Components of a Medical Self-Care Program.	.281
Legal Implications of Medical Self-Care.	.284
Employee Skepticism of Medical Self-Care	.284
Evaluating a Medical Self-Care Program	.285
Conclusion	.285

Chapter 33 Disease Management for Employed Populations.286

Dennis E. Richling, MD

Complex Origins: The Development of Disease Management.	.287
The Opportunity for Disease Management	.288
Employers and Disease Management	.289
Disease Management Fundamentals	.290
The Future of Disease Management	.294
Conclusion	.294

Chapter 34 From the Basics to Comprehensive Programming296

Mary M. Kruse, MS, ATC

Before You Start	.296
The Role of a Consultant	.299
Building the Infrastructure.	.301
Program Design and Integration.	.302
Pulling It All Together.	.303
Building a Sustainable Program	.305
Conclusion	.307

Part V Case Studies **308**

**Chapter 35 The Occupational Athlete: Injury Reduction
and Productivity Enhancement in Reforestation Workers.309**
Delia B. Roberts, PhD, FACSM

Company Description.	309
Program Aims	310
Population	310
Methods	310
Results	312
Discussion	313
Program Scalability and Sustainability	316
Conclusion	316

**Chapter 36 Employee Health at BAE Systems:
An Employer–Health Plan Partnership Approach.318**
*N. Marcus Thygeson, MD; Jason M. Gallagher, MBA; Kathleen K. Cross, RN, CANP;
and Nicolaas P. Pronk, PhD, FACSM*

Company and Partnership Description	318
Program Goals and Objectives.	318
Population	318
Program Implementation and Interventions	319
Outcomes and Results	320
Direct Medical Costs	322
Workplace Productivity.	325
Conclusion	326

**Chapter 37 Health Promotion, Participation, and Productivity:
A Case Study at Unilever PLC327**
Peter Mills, MD, and Jessica Colling, BSC, MSC

Company Description.	327
Program Aims	327
Population Intervention Group.	329
Control Group	329
Approach to Implementation.	329
Program Launch.	330
Control Group Engagement.	330
Interventions.	330
Results and Effects	332
Baseline Data	332
Program Usage	333
Outcome Measures	333
Discussion	334
The Next Steps.	334
Going Global	334
Conclusion	335

Chapter 38 Introducing Environmental Interventions at the Dow Chemical Company to Reduce Overweight and Obesity Among Workers336

Ron Z. Goetzel, PhD; Jennie D. Bowen, MPH; Ronald J. Ozminkowski, PhD; Cheryl A. Kassed, PhD, MSPH; Enid Chung Roemer, PhD; Maryam J. Tabrizi, MS, CHES; Meghan E. Short, BA; Shaohung Wang, PhD; Xiaofei Pei, PhD; Heather M. Bowen, MS, RD, LD; David M. Dejoy, PhD; Mark G. Wilson, HSD; Kristin M. Baker, MPH; Karen J. Tully, BS; John M. White, PhD; Gary M. Billotti, MS; and Catherine M. Baase, MD

Introduction	336
NHLBI Research Focused on Obesity Prevention at the Worksite	337
A Profile of Dow	337
Establishing a Business Case for Health Improvement at Dow	337
Study Design	338
Availability of Historical Archival Data From Dow	339
Assessing the Physical and Social Environment at Dow	339
Gathering Qualitative Data From Dow Employees	340
Conclusion	341
