Preface	vii
<b>PART 1 Getting Acquainted with Economics</b>	<b>1</b>
<b>1 WHAT IS ECONOMICS?</b>	<b>2</b>
<b>Ideas for Beyond the Final Exam*</b>	<b>2</b>
Idea 1: The Trade-Off Between Inflation and Unemployment	3
Idea 2: The Illusion of High Interest Rates	3
Idea 3: The Consequences of Budget Deficits	4
Idea 4: Mutual Gains from Voluntary Exchange	4
Idea 5: The Surprising Principle of Comparative Advantage	4
Idea 6: The Overwhelming Importance of Productivity Growth in the Long Run	5
Idea 7: Attempts to Repeal the Laws of Supply and Demand: The Market Strikes Back	5
Idea 8: Externalities: A Shortcoming of the Market Cured by Market Methods	6
Idea 9: Rational Choice and True Economic Costs	6
Idea 10: The Importance of Marginal Analysis	7
Idea 11: The Cost Disease of the Service Sector	8
Idea 12: Increasing Output May Require Sacrificing Equality	8
Epilogue	9
<b>Inside the Economist's Tool Kit</b>	<b>9</b>
Economics as a Discipline	9

\*Some of the Ideas for Beyond the Final Exam are in this textbook; others are in *Macroeconomics: Principles and Policy* by Baumol and Blinder.

The Need for Abstraction	9
The Role of Economic Theory	13
What Is an Economic “Model”?	14
Reasons for Disagreements: Imperfect Information and Value Judgments	15
The Economist’s Odd Vocabulary	16
Summary	17
Concepts for Review	17
Questions for Discussion	17
<b>2 THE USE AND MISUSE OF GRAPHS</b>	<b>18</b>
<b>Graphs Used in Economic Analysis</b>	<b>18</b>
Two-Variable Diagrams	18
The Definition and Measurement of Slope	20
Rays Through the Origin and 45° Lines	23
Squeezing Three Dimensions into Two: Contour Maps	24
<b>Perils in the Interpretation of Graphs</b>	<b>25</b>
Summary	32
Concepts for Review	33
Questions for Discussion	33
<b>3 SCARCITY AND CHOICE: THE ECONOMIC PROBLEM</b>	<b>34</b>
Scarcity, Choice, and Opportunity Cost	35
Opportunity Cost and Money Cost	36
Production, Scarcity, and Resource Allocation	37
Scarcity and Choice for a Single Firm	37
The Principle of Increasing Costs	39
Scarcity and Choice for the Entire Society	39
Scarcity and Choice Elsewhere in the Economy	41
The Concept of Efficiency	43
The Three Coordination Tasks of Any Economy	44

Specialization, Division of Labor, and Exchange	44
Markets, Prices, and the Three Coordination Tasks	46
Radicalism, Conservatism, and the Market Mechanism	46
Summary	48
Concepts for Review	49
Questions for Discussion	49
<b>4 SUPPLY AND DEMAND: AN INITIAL LOOK</b>	<b>50</b>
Fighting the Invisible Hand	50
Demand and Quantity Demanded	52
Supply and Quantity Supplied	54
Equilibrium of Supply and Demand	56
Shifts of the Demand Curve	58
Shifts of the Supply Curve	61
Restraining the Market Mechanism: Price Ceilings	64
Restraining the Market Mechanism: Price Floors	66
A Can of Worms	67
Summary	69
Concepts for Review	70
Questions for Discussion	70
<b>PART 2 Essentials of Microeconomics: Consumers and Firms</b>	<b>73</b>
<b>5 CONSUMER CHOICE AND THE INDIVIDUAL'S DEMAND CURVE</b>	<b>74</b>
Total and Marginal Utility	75
From Marginal Utility to the Demand Curve	78
The Diamond–Water Paradox: The Puzzle Resolved	80
Prices, Income, and Quantity Demanded	80
Summary	83
Concepts for Review	84

Questions for Discussion	84
<b>Appendix: Indifference Curve Analysis</b>	<b>85</b>
Geometry of the Available Choices: The Budget Line	85
Properties of the Budget Line	86
What the Consumer Prefers: The Indifference Curve	87
Properties of the Indifference Curves	88
The Slopes of an Indifference Curve and of a Budget Line	88
The Consumer's Choice	90
Consequences of Income Changes: Inferior Goods	91
Consequences of Price Changes: Deriving the Demand Curve	91
Summary	92
Concepts for Review	93
Questions for Discussion	93
<b>6 MARKET DEMAND AND ELASTICITY</b>	<b>94</b>
From Individual Demand Curves to Market Demand Curves	94
The "Law" of Demand	95
Elasticity: The Measure of Responsiveness	99
Elasticity and the Shape of Demand Curves	102
Elasticity and Total Expenditure	104
What Determines Elasticity of Demand?	106
Elasticity Is a General Concept	106
Advertising, Prices of Complements and Substitutes, and Demand Curve Shifts	108
The Time Dimension of the Demand Curve and Decision Making	109
Summary	111
Concepts for Review	111
Questions for Discussion	112

<b>Appendix: Statistical Analysis of Demand Relationships</b>	112
<b>7 INPUT DECISIONS AND PRODUCTION COSTS</b>	115
<b>The One Variable-Input Case</b>	116
Total, Average, and Marginal Physical Products	117
The “Law” of Diminishing Marginal Returns	119
Production, Input Quantities, and Cost	120
The Three Cost Curves	121
Fixed Costs and Variable Costs	122
Shapes of the Average Cost and Total Cost Curves	125
Long-Run Versus Short-Run Costs	126
The Average Cost Curve in the Short and Long Runs	127
<b>The Choice of Input Combination</b>	128
Substitutability: The Choice of Input Combinations	128
Diminishing Returns and the Optimal Quantity of an Input	129
Choice of Input Proportions: The Production Function	131
The Firm’s Cost Curves	134
Economies of Scale	135
Diminishing Returns and Returns to Scale	137
Historical Costs Versus Analytical Cost Curves	138
Cost Minimization in Theory and Practice	140
Summary	141
Concepts for Review	141
Questions for Discussion	142
<b>Appendix: Production Indifference Curves</b>	142
Characteristics of the Production Indifference Curves	143
The Choice of Input Combinations	144
Cost Minimization, Expansion Path, and Cost Curves	145
Effects of Changes in Input Prices	145
Summary	147

Concepts for Review	147
Questions for Discussion	147
<b>8 OUTPUT-PRICE DECISIONS: THE IMPORTANCE OF MARGINAL ANALYSIS</b>	<b>148</b>
Price and Quantity: One Decision, Not Two	149
Do Firms Really Maximize Profits?	150
Total Profit: Keep Your Eye on the Goal	151
Profit Maximization: A Graphical Interpretation	154
Marginal Analysis and Maximization of <i>Total Profit</i>	155
Marginal Revenue and Marginal Cost: Guides to an Optimum	157
Marginal Analysis in Real Decision Problems	160
Conclusion: The Fundamental Role of Marginal Analysis	163
A Look Back and a Look Forward	165
Summary	165
Concepts for Review	165
Questions for Discussion	166
<b>Appendix: The Relationships Among Total, Average, and Marginal Data</b>	<b>166</b>
Graphic Representation of Marginal and Average Curves	168
Questions for Discussion	169
<b>PART 3 The Market System: Virtues and Vices</b>	<b>171</b>
<b>9 THE FIRM AND THE INDUSTRY UNDER PERFECT COMPETITION</b>	<b>172</b>
Varieties of Market Structure: A Sneak Preview	173
Perfect Competition Defined	174
The Competitive Firm and Its Demand Curve	175

Short-Run Equilibrium of the Competitive Firm	175
Short-Run Profit: Graphic Representation	177
The Case of Short-Term Losses	178
Shut-Down and Break-Even Analysis	179
The Short-Run Supply Curve of the Competitive Firm	181
The Short-Run Supply Curve of the Competitive Industry	181
Industry Equilibrium in the Short Run	182
Industry and Firm Equilibrium in the Long Run	183
The Long-Run Industry Supply Curve	186
Zero Economic Profit: The Opportunity Cost of Capital	187
Perfect Competition and Economic Efficiency	188
Why Good Weather Can Be Bad for Farmers	189
Summary	190
Concepts for Review	191
Questions for Discussion	191
<b>10 THE PRICE SYSTEM AND THE CASE FOR LAISSEZ FAIRE</b>	<b>192</b>
Efficient Resource Allocation: The Concept	192
Pricing to Promote Efficiency: An Example	194
Can Price Increases Ever Serve the Public Interest?	195
Scarcity and the Need to Coordinate Economic Decisions	197
Three Coordination Tasks in the Economy	198
Input–Output Analysis: The Near Impossibility of Perfect Central Planning	201
Perfect Competition and Efficiency: What to Produce	203
Other Roles of Prices: Income Distribution and Fairness	206
Toward Assessment of the Price Mechanism	208
Summary	208
Concepts for Review	209
Questions for Discussion	209
<b>Appendix: The Invisible Hand in the Distribution of Goods and in Production Planning</b>	<b>209</b>

Efficient Distribution of Commodities: Who Gets What?	209
Efficient Production Planning: Allocation of Inputs	211
Summary	212
Questions for Discussion	212
<b>11 MONOPOLY</b>	<b>213</b>
Monopoly Defined	214
Causes of Monopoly: Barriers to Entry and Cost Advantage	214
Natural Monopoly	215
The Monopolist's Supply Decision	216
The Monopolist's Price and Marginal Revenue	218
Determining the Profit-Maximizing Output	219
Comparison of Monopoly and Perfect Competition	220
Can Anything Good Be Said About Monopoly?	222
Monopoly and the Shifting of Pollution Charges	224
Summary	225
Concepts for Review	225
Questions for Discussion	226
<b>12 BETWEEN COMPETITION AND MONOPOLY</b>	<b>227</b>
Monopolistic Competition	228
Price and Output Determination Under Monopolistic Competition	230
The Excess Capacity Theorem and Resource Allocation	232
Oligopoly	233
A Shopping List	234
Sales Maximization	237
The Game-Theory Approach	238
The Kinked Demand Curve Model	241

Monopolistic Competition, Oligopoly, and Public Welfare	243
Summary	245
Concepts for Review	245
Questions for Discussion	246
<b>13 THE MARKET MECHANISM: SHORTCOMINGS AND REMEDIES</b>	<b>247</b>
What Does the Market Do Poorly?	247
Efficient Resource Allocation: A Review	248
Externalities	250
Public Goods	255
The Cost Disease of the Service Sector	256
Allocation of Resources Between Present and Future	259
Some Other Sources of Market Failure	262
Evaluative Comments	264
Summary	266
Concepts for Review	266
Questions for Discussion	267
<b>14 REAL FIRMS AND THEIR FINANCING: STOCKS AND BONDS</b>	<b>268</b>
Firms in the United States	269
Proprietorships	270
Partnerships	271
Corporations	272
The Hybrids: Limited Partnerships and Subchapter S Corporations	274
Financing Corporate Activity	274
The Financing of Corporate Activity: Stocks and Bonds	276
Bond Prices and Interest Rates	277
Corporate Choice Between Stocks and Bonds	278
Buying Stocks and Bonds	278

Selecting a Portfolio: Diversification	279
Following a Portfolio's Performance	279
Stock Exchanges and Their Functions	281
Stock Exchanges and Corporate Capital Needs	282
The Recent Surge in Takeover Battles	283
The Issue of Speculation	285
Stock Prices as Random Walks	286
Summary	289
Concepts for Review	290
Questions for Discussion	290
<b>PART 4 The Government and the Economy</b>	<b>291</b>
<b>15 LIMITING MARKET POWER: REGULATION OF INDUSTRY</b>	<b>292</b>
Monopoly, Regulation, and Nationalization	292
What Is Regulated? By Whom?	294
Brief History	294
Why Regulation?	295
Why Regulators Sometimes Raise Prices	298
Marginal Versus Full-Cost Rate Floors	299
A Problem of Marginal Cost Pricing	301
Modified Rail Regulation Policy and Stand-Alone Cost Ceilings	303
Regulation of Profit and Incentives for Efficiency	304
Modified Regulation with Efficiency Incentives	306
Some Effects of Deregulation	308
Consequences of Deregulation: General Comments	310
A Word on Nationalization	311
Summary	313
Concepts for Review	313
Questions for Discussion	314

<b>16</b>	<b>LIMITING MARKET POWER: ANTITRUST POLICY</b>	<b>315</b>
	The Public Image of Business at the Time the Antitrust Laws Were Born	317
	The Antitrust Laws	318
	The Courts and the Sherman Act	320
	On Merger Policy	321
	Issues in Concentration of Industry	322
	Evidence on Concentration in Industry	323
	The Pros and Cons of Bigness	326
	Other Government Programs Related to Bigness	327
	Issues in Antitrust Policy	328
	Summary	330
	Concepts for Review	330
	Questions for Discussion	330
<b>17</b>	<b>TAXATION, GOVERNMENT SPENDING, AND RESOURCE ALLOCATION</b>	<b>331</b>
	Government Spending: An Overview	331
	Taxes in America	332
	The Federal Tax System	335
	The Payroll Tax and the Social Security System	338
	The State and Local Tax System	339
	Fiscal Federalism	341
	The Concept of Equity in Taxation	341
	The Concept of Efficiency in Taxation	343
	Shifting the Burden of Taxation: Tax Incidence	344
	The Incidence of Excise Taxes	347
	The Incidence of the Payroll Tax	348
	When Taxation Can Improve Efficiency	349
	Equity, Efficiency, and the Optimal Tax	350
	The Real Versus the Ideal	351

Summary	352
Concepts for Review	353
Questions for Discussion	353
<b>18 ENVIRONMENTAL PROTECTION AND RESOURCE CONSERVATION</b>	<b>355</b>
<b>The Economics of Environmental Protection</b>	<b>355</b>
The Environment in Perspective: Is Everything Getting Steadily Worse?	356
The Law of Conservation of Matter and Energy	358
The Edifice Complex	358
Environmental Damage as an Externality	360
Supply–Demand Analysis of Environmental Problems	361
Basic Approaches to Environmental Policy	362
Emissions Taxes Versus Direct Controls	364
Other Financial Devices to Protect the Environment	367
Two Cheers for the Market	369
<b>The Economics of Energy and Natural Resources</b>	<b>371</b>
The Free Market and Pricing of Depletable Resources	373
Resource Prices in the Twentieth Century	375
The Free Market and Resource Depletion	379
On the Virtues of Rising Prices	381
Growing Reserves of Exhaustible Resources: Our Puzzle Revisited	382
Summary	383
Concepts for Review	384
Questions for Discussion	384
<b>PART 5 The Distribution of Income</b>	<b>385</b>
<b>19 PRICING THE FACTORS OF PRODUCTION</b>	<b>386</b>
The Principle of Marginal Productivity	387

The Derived Demand Curve for an Input	388
The Issue of Usury Laws: Are Interest Rates Too High?	389
Investment, Capital, and Interest	390
The Market Determination of Interest Rates	392
The Determination of Rent: Simple Version	395
The Rent of Land: Some Complications	396
Generalization: What Determines Lee Iacocca's Salary?	399
Rent Controls: The Misplaced Analogy	401
Issue: Are Profits Too High or Too Low?	402
What Accounts for Profits?	402
Criticisms of Marginal Productivity Theory	405
Summary	406
Concepts for Review	406
Questions for Discussion	406
<b>Appendix: Discounting and Present Value</b>	407
Summary	408
Concepts for Review	409
Questions for Discussion	409
<b>20 LABOR: THE CRUCIAL INPUT</b>	410
<b>Competitive Labor Markets</b>	412
The Supply of Labor	412
The Demand for Labor and the Determination of Wages	414
Why Wages Differ	415
Ability and Earnings	416
Investment in Human Capital	417
Education and Earnings: Dissenting Views	418
The Effects of Minimum Wage Legislation	420
<b>Unions and Collective Bargaining</b>	421
The Development of Unionism in America	421
Unions as a Labor Party	424
Monopsony and Bilateral Monopoly	428
Collective Bargaining and Strikes	428
Collective Bargaining in the Public Sector	431

Summary	432
Concepts for Review	433
Questions for Discussion	433
<b>Appendix: The Effects of Unions and Minimum Wages Under Monopsony</b>	<b>434</b>
The Hiring Decisions of a Monopsonist	434
Unions Under Monopsony	435
Minimum Wage Laws Under Monopsony	436
Summary	437
Concepts for Review	437
Questions for Discussion	437
<b>21 POVERTY, INEQUALITY, AND DISCRIMINATION</b>	<b>438</b>
The Politics and Economics of Inequality	438
The Facts: Poverty	439
The Facts: Inequality	441
Depicting Income Distributions: The Lorenz Curve	444
Some Reasons for Unequal Incomes	446
The Facts: Discrimination	447
The Economic Theory of Discrimination	448
The Optimal Amount of Inequality	450
The Trade-Off Between Equality and Efficiency	451
Policies to Combat Poverty	453
The Negative Income Tax	454
The Negative Income Tax and Work Incentives	455
The Personal Income Tax	456
Death Duties and Other Taxes	456
Policies to Combat Discrimination	457
Postscript on the Distribution of Income	459
Summary	459
Concepts for Review	460
Questions for Discussion	460

<b>PART 6</b>	<b>Alternative Economic Systems</b>	<b>461</b>
<b>22</b>	<b>THE ECONOMICS OF KARL MARX</b>	<b>463</b>
	The Marxian Framework: Historical Materialism	464
	On the Nature of Communist Society	466
	Commodities, Productive Labor, and Capital	467
	Marx's Value Theory: Surplus as the Source of Accumulation	468
	The Ethics of Surplus Value	469
	The Marxian Analysis of Pricing and Profit	470
	The Purpose of the Marxian Price–Value Analysis	471
	Alienation	472
	Marxian Crisis Theory	473
	Will the Business Cycle Kill Capitalism?	475
	Conclusion	476
	Summary	476
	Concepts for Review	476
	Questions for Discussion	476
<b>23</b>	<b>COMPARATIVE ECONOMIC SYSTEMS: WHAT ARE THE CHOICES?</b>	<b>477</b>
	The Challenge to Modern Capitalism	478
	Economic Systems: Two Important Distinctions	480
	The Market or the Plan? Some Issues	481
	The Market or the Plan? The Scoreboard	483
	Capitalism or Socialism?	483
	Socialism, Planning, and Freedom	484
	Sweden's Welfare State	485
	France: Planning by Consensus	487
	Workers' Management in Yugoslavia	489
	The Soviet Economy: Historical Background	490
	Central Planning in the Command Economy	491
	Markets and Prices in Soviet Economic Life	492

The Five-Year and One-Year Plans	492
Performance and Problems of Soviet Planning	495
China Under Mao: Revolutionary Communism	497
China Since Mao	499
Summary	500
Concepts for Review	500
Questions for Discussion	501
<b>24 DISSENTING OPINIONS: CONSERVATIVE, MODERATE, AND RADICAL</b>	<b>502</b>
The Libertarian Credo	503
The Libertarian Economics of Milton Friedman	503
Libertarian Economics and Public Policy	505
John Kenneth Galbraith: The Economist as Iconoclast	507
The Galbraithian Critique of Conventional Economic Theory	507
The Galbraithian Critique of the American Economy	509
A Critique of the Critique	510
The Radical Economics of the Left	511
The Shortcomings of Mainstream Economics: Point and Counterpoint	512
The Radical Critique of the American Economy	516
What is the Radical Alternative?	516
Summary	517
Concepts for Review	518
Questions for Discussion	518
<b>Glossary</b>	<b>G-1</b>
<b>Index</b>	<b>I-1</b>
