Preface	vii
---------	-----

PART 1	Getting Acquainted with Economics	1
---------------	--	----------

1	WHAT IS ECONOMICS?	2
----------	---------------------------	----------

Ideas for Beyond the Final Exam*	2
---	----------

Idea 1: The Trade-Off Between Inflation and Unemployment	3
--	---

Idea 2: The Illusion of High Interest Rates	3
---	---

Idea 3: The Consequences of Budget Deficits	4
---	---

Idea 4: Mutual Gains from Voluntary Exchange	4
--	---

Idea 5: The Surprising Principle of Comparative Advantage	4
---	---

Idea 6: The Overwhelming Importance of Productivity Growth in the Long Run	5
--	---

Idea 7: Attempts to Repeal the Laws of Supply and Demand: The Market Strikes Back	5
---	---

Idea 8: Externalities: A Shortcoming of the Market Cured by Market Methods	6
--	---

Idea 9: Rational Choice and True Economic Costs	6
---	---

Idea 10: The Importance of Marginal Analysis	7
--	---

Idea 11: The Cost Disease of the Service Sector	8
---	---

Idea 12: Increasing Output May Require Sacrificing Equality	8
---	---

Epilogue	9
----------	---

Inside the Economist's Tool Kit	9
--	----------

Economics as a Discipline	9
---------------------------	---

*Some of the Ideas for Beyond the Final Exam are in this textbook; others are in *Microeconomics: Principles and Policy* by Baumol and Blinder.

The Need for Abstraction	9
The Role of Economic Theory	13
What Is an Economic “Model”?	14
Reasons for Disagreements: Imperfect Information and Value Judgments	15
The Economist’s Odd Vocabulary	16
Summary	17
Concepts for Review	17
Questions for Discussion	17
 2 THE USE AND MISUSE OF GRAPHS	 18
Graphs Used in Economic Analysis	18
Two-Variable Diagrams	18
The Definition and Measurement of Slope	20
Rays Through the Origin and 45° Lines	23
Squeezing Three Dimensions into Two: Contour Maps	24
Perils in the Interpretation of Graphs	25
Summary	32
Concepts for Review	33
Questions for Discussion	33
 3 SCARCITY AND CHOICE: THE ECONOMIC PROBLEM	 34
Scarcity, Choice, and Opportunity Cost	35
Opportunity Cost and Money Cost	36
Production, Scarcity, and Resource Allocation	37
Scarcity and Choice for a Single Firm	37
The Principle of Increasing Costs	39
Scarcity and Choice for the Entire Society	39
Scarcity and Choice Elsewhere in the Economy	41
The Concept of Efficiency	43
The Three Coordination Tasks of Any Economy	44

Specialization, Division of Labor, and Exchange	44
Markets, Prices, and the Three Coordination Tasks	46
Radicalism, Conservatism, and the Market Mechanism	46
Summary	48
Concepts for Review	49
Questions for Discussion	49
4 SUPPLY AND DEMAND: AN INITIAL LOOK	50
Fighting the Invisible Hand	50
Demand and Quantity Demanded	52
Supply and Quantity Supplied	54
Equilibrium of Supply and Demand	56
Shifts of the Demand Curve	58
Shifts of the Supply Curve	61
Restraining the Market Mechanism: Price Ceilings	64
Restraining the Market Mechanism: Price Floors	66
A Can of Worms	67
Summary	69
Concepts for Review	70
Questions for Discussion	70
PART 2 The Realm of Macroeconomics	73
5 MACROECONOMICS AND MICROECONOMICS	74
Drawing a Line Between Macroeconomics and Microeconomics	74
Supply and Demand in Macroeconomics	76
Gross National Product	78
Limitations of the GNP: What GNP Is Not	80
The Economy on a Roller Coaster	81
The Great Depression of the 1930s	83
From World War II to 1973	85

The Great Stagflation, 1973–1980	86
The Reagan Years	86
The Problem of Macroeconomic Stabilization: A Sneak Preview	87
Summary	89
Concepts for Review	90
Questions for Discussion	90
 6 MACROECONOMIC MALADIES: UNEMPLOYMENT AND INFLATION	 92
The Costs of Unemployment	93
Counting the Unemployed: the Official Statistics	94
Types of Unemployment	95
How Much Employment Is “Full Employment”?	96
Unemployment Insurance: The Invaluable Cushion	97
The Economic Costs of High Unemployment	97
The Costs of Inflation	100
Inflation: The Myth and the Reality	100
Inflation as a Redistributor of Income and Wealth	103
Real Versus Nominal Interest Rates	104
Inflation and the Tax System	105
Usury Laws, Interest Rate Ceilings, and Other Impediments	106
Other Costs of Inflation	108
Creeping Versus Galloping Inflation	109
The Costs of Creeping Versus Galloping Inflation	110
Creeping Inflation Does Not Necessarily Lead to Galloping Inflation	110
Summary	111
Concepts for Review	111
Questions for Discussion	112
Appendix: How Statisticians Measure Inflation	112
Index Numbers for Inflation	112
The Consumer Price Index	113

How to Use a Price Index to “Deflate” Monetary Figures	114
The GNP Deflator	114
Summary	115
Concepts for Review	115
Questions for Discussion	115
7 PRODUCTIVITY, PROGRESS, AND PROSPERITY	117
Life in the “Good Old Days”	117
The Magnitude of Productivity Growth	120
Significance of the Growth of Productivity	123
The Second Major Development: Convergence	123
Why International Equalization?	125
Are All Countries Participating in Equalization?	126
The Recent Productivity Slowdown in the United States	126
More Guarded Interpretations of the Slowdown	129
The Costs of Lagging Productivity	131
Productivity, Unemployment, and Deindustrialization	131
Concluding Comment	134
Summary	135
Concepts for Review	135
Questions for Discussion	135
PART 3 Aggregate Supply and Demand Analysis	137
8 INCOME AND SPENDING: THE POWERFUL CONSUMER	138
Aggregate Demand, National Product, and National Income	139
The Circular Flow of Spending, Production, and Income	140
Demand Management and the Powerful Consumer	142

Consumer Spending and Income: The Important Relationship	144
The Consumption Function and the Marginal Propensity to Consume	147
Movements Along Versus Shifts of the Consumption Function	149
Other Determinants of Consumer Spending	150
Why Tax Policy Failed in 1968 and 1975	152
The Predictability of Consumer Behavior	153
Summary	154
Concepts for Review	154
Questions for Discussion	155
Appendix A: The Saving Function and the Marginal Propensity to Save	155
Summary	157
Concepts for Review	157
Questions for Discussion	157
Appendix B: National Income Accounting	157
Defining GNP: Exceptions to the Rules	158
GNP as the Sum of Final Goods and Services	158
GNP as the Sum of All Factor Payments	159
GNP as the Sum of Values Added	161
Alternative Measures of the Income of the Nation	162
Summary	163
Concepts for Review	164
Questions for Discussion	164
 9 DEMAND-SIDE EQUILIBRIUM: UNEMPLOYMENT OR INFLATION?	 165
The Extreme Variability of Investment	166
A Simplified Circular Flow	167
The Meaning of Equilibrium GNP	168

Equilibrium on the Demand Side of the Economy	169
Constructing the Expenditure Schedule	170
The Mechanics of Income Determination	171
The Aggregate Demand Curve	173
Demand-Side Equilibrium and Full Employment	175
The Coordination of Saving and Investment	177
Summary	179
Concepts for Review	180
Questions for Discussion	180
Appendix A: The Saving and Investment Approach	181
Graphical Analysis	181
Induced Investment	181
Summary	182
Concepts for Review	182
Questions for Discussion	182
Appendix B: The Simple Algebra of Income Determination	182
Questions for Discussion	183
 10 CHANGES ON THE DEMAND SIDE: MULTIPLIER ANALYSIS	 184
The Magic of the Multiplier	184
Demystifying the Multiplier: How It Works	186
Algebraic Statement of the Multiplier	188
The Multiplier Effect of Consumer Spending	190
The Multiplier in Reverse	191
The Paradox of Thrift	192
The Multiplier and the Aggregate Demand Curve	193
Summary	194
Concepts for Review	194
Questions for Discussion	195
Appendix: The Simple Algebra of the Multiplier	195

11	SUPPLY-SIDE EQUILIBRIUM: UNEMPLOYMENT AND INFLATION?	197
	The Supply-Side Matters	197
	The Aggregate Supply Curve	198
	Shifts of the Aggregate Supply Curve	200
	The Shape of the Aggregate Supply Curve	202
	Equilibrium of Aggregate Demand and Supply	202
	Recessionary and Inflationary Gaps Revisited	204
	Adjusting to an Inflationary Gap: Inflation	205
	Demand Inflation and Stagflation	207
	An Example from U.S. History: 1966 to 1970	207
	Adjusting to a Recessionary Gap: Deflation or Unemployment?	208
	Does the Economy Have a Self-Correcting Mechanism?	210
	Stagflation from Supply Shifts	212
	Inflation and the Multiplier	213
	A Role for Stabilization Policy	215
	Summary	216
	Concepts for Review	216
	Questions for Discussion	216
PART 4	Fiscal and Monetary Policy	219
12	FISCAL POLICY AND SUPPLY-SIDE ECONOMICS	220
	Government Purchases and Equilibrium Income	221
	Income Taxes and the Consumption Schedule	224
	Tax Policy and Equilibrium Income	225
	Multipliers for Tax Policy	227
	Government Transfer Payments	228
	The Multiplier Revisited	229

Planning Expansive Fiscal Policy	230
Planning Restrictive Fiscal Policy	231
The Choice Between Spending Policy and Tax Policy	232
Some Harsh Realities	233
The Idea Behind Supply-Side Tax Cuts	234
Some Flies in the Ointment	237
Toward Assessment of Supply-Side Economics	241
Summary	243
Concepts for Review	243
Questions for Discussion	244
Appendix: Algebraic Treatment of Fiscal Policy and Aggregate Demand	244
Questions for Discussion	246
 B MONEY AND THE BANKING SYSTEM	 248
Policy Issue: Deregulating the Banks	248
Barter Versus Monetary Exchange	249
The Conceptual Definition of Money	251
What Serves as Money?	251
How the Quantity of Money Is Measured	253
How Banking Began	255
Principles of Bank Management: Profits Versus Safety	257
Bank Regulation	257
How Bankers Keep Books	258
The Limits to Money Creation by a Single Bank	259
Multiple Money Creation by a Series of Banks	261
The Process in Reverse: Multiple Contractions of the Money Supply	264
Why the Money Creation Formula is Oversimplified	265
The Need for Monetary Control	266
Summary	267
Concepts for Review	267
Questions for Discussion	268

14 MONETARY POLICY AND THE NATIONAL ECONOMY	269
The Federal Reserve System: Origins and Structure	269
The Independence of the Fed	271
Controlling the Money Supply: Open-Market Operations	272
Open-Market Operations, Bond Prices, and Interest Rates	273
Controlling the Money Supply: Reserve Requirements	274
Controlling the Money Supply: Lending to Banks	276
Proposals for Tightening Monetary Control	277
The Money Supply Mechanism	278
The Demand for Money	279
Equilibrium in the Money Market	280
Money and Income: The Important Difference	281
Interest Rates and Total Expenditure	282
Monetary Policy and Aggregate Demand in the Keynesian Model	283
Money and the Price Level in the Keynesian Model	285
From Models to Policy Debates	287
Summary	288
Concepts for Review	288
Questions for Discussion	289
15 THE KEYNESIAN–MONETARIST DEBATE	290
Velocity and the Quantity Theory of Money	290
The Determinants of Velocity	293
Monetarism: The Quantity Theory Modernized	294
Reconciling the Keynesian and Monetarist Views	296
Keynesians Versus Monetarists: Fiscal Versus Monetary Policy	298
Keynesians Versus Monetarists: Lags in Fiscal and Monetary Policy	298

Keynesians Versus Monetarists: Control of the Money Supply Versus Control of Interest Rates	300
Keynesians Versus Monetarists: The Aggregate Supply Curve	304
Keynesians Versus Monetarists: Should the Government Intervene?	306
Stabilization Policy: Discretionary Measures or Fixed Rules?	309
Techniques of Economic Forecasting	310
The Accuracy of Economic Forecasts	314
Other Dimensions of the Rules-Versus-Discretion Debate	314
Conclusion: What Should Be Done?	315
Summary	317
Concepts for Review	318
Questions for Discussion	318

16 BUDGET DEFICITS AND THE NATIONAL DEBT: FACTS AND FICTION 319

The Partisan Political Debate over the Budget Deficit	319
Should the Budget Be Balanced?	320
Deficits and Debt: Some Terminology	322
Some Facts About the National Debt	322
Interpreting the Budget Deficit	324
Bogus Arguments About the Burden of the Debt	330
Budget Deficits and Inflation	331
Deficits, Interest Rates, and Crowding Out	335
The True Burden of the National Debt	337
The Economic Effects of Budget Deficits: Causation Versus Correlation	338
Conclusion: The Partisan Debate over the Budget Deficit	341
Summary	342
Concepts for Review	343
Questions for Discussion	343

17 THE TRADE-OFF BETWEEN INFLATION AND UNEMPLOYMENT	344
Demand-Side Inflation Versus Supply-Side Inflation: A Review	344
Applying the Model to a Growing Economy	346
Demand-Side Inflation and the Phillips Curve	348
Supply-Side Inflation and the Collapse of the Phillips Curve	352
What the Phillips Curve Is Not	354
Fighting Inflation with Fiscal and Monetary Policy	356
What Should Be Done?	359
Inflationary Expectations and the Phillips Curve	360
The Theory of Rational Expectations	363
Fighting Recessions with Fiscal and Monetary Policy	365
Why Economists (and Politicians) Disagree	367
The Dilemma of Demand Management	368
Attempts to Improve the Trade-Off Directly	369
Incomes Policy	369
Tax-Based Incomes Policy	373
The Share Economy	373
Indexing	374
Summary	375
Concepts for Review	376
Questions for Discussion	377
 PART 5 The United States in the World Economy	 379
18 INTERNATIONAL TRADE AND COMPARATIVE ADVANTAGE	380
Why Trade?	381
Mutual Gains from Trade	382
International Versus Intranational Trade	383

Comparative Advantage: The Fundamental Principle of Specialization	384
The Arithmetic of Comparative Advantage	386
The Graphics of Comparative Advantage	388
Supply–Demand Equilibrium and Pricing in Foreign Trade	390
Comparative Advantage and Competition of “Cheap Foreign Labor”	392
Tariffs, Quotas, and Other Interferences with Trade	392
How Tariffs and Quotas Work	394
Tariffs Versus Quotas	396
Why Inhibit Trade?	397
Other Arguments for Protection	399
What Import Prices Benefit a Country?	402
Conclusion: A Last Look at the “Cheap Foreign Labor” Argument	403
Summary	404
Concepts for Review	405
Questions for Discussion	405

19 THE INTERNATIONAL MONETARY SYSTEM: ORDER OR DISORDER? 407

What Are Exchange Rates?	407
Exchange Rate Determination in a Free Market	409
The Purchasing-Power Parity Theory: The Long Run	411
Economic Activity and Exchange Rates: The Medium Run	413
Interest Rates and Exchange Rates: The Short Run	414
Market Determination of Exchange Rates: Summary	415
Fixed Exchange Rates and the Definition of the Balance of Payments	415
Defining the Balance of Payments in Practice	418
The U.S. Balance of Payments Accounts	418
A Bit of History: The Gold Standard	420

The Bretton Woods System and the International Monetary Fund	421
Adjustment Mechanisms Under the Bretton Woods System	422
Why Try to Fix Exchange Rates?	424
The Current Mixed System	425
Recent Developments in International Financial Markets	426
Summary	428
Concepts for Review	429
Questions for Discussion	429
 20 MACROECONOMICS IN A WORLD ECONOMY	 431
International Trade and National Incomes	432
The Multiplier in the Presence of Foreign Trade	435
Relative Prices, Exports, and Imports	438
The Effects of Changes in Exchange Rates	439
Lags in International Trade and the J Curve	440
Aggregate Supply in an Open Economy	442
The Macroeconomic Effects of Exchange Rates	443
Interest Rates and International Capital Flows	444
Fiscal Policy in an Open Economy	445
Monetary Policy in an Open Economy	447
International Aspects of Reaganomics	447
The Link Between the Budget Deficit and the Trade Deficit	449
On Curing the Trade Deficit	450
Conclusion: We Are Not Alone	453
Summary	455
Concepts for Review	455
Questions for Discussion	456

PART 6 Alternative Economic Systems 457

21 GROWTH IN DEVELOPED AND DEVELOPING COUNTRIES 458

Growth in General 458

How to Measure Growth: Total Output or Output per Capita? 458

On Growth in Population: Is Less Really More? 459

The Crowded Planet: Exponential Population Growth 461

Requirements for Increased Growth 463

Accumulating Capital by Sacrificing Consumption: The Case of Soviet Russia 463

The Payoff to Growth: Higher Consumption in the Future 464

Growth Without Sacrificing Consumption: Something for Nothing? 465

Is More Growth Really Better? 466

Problems of the Less Developed Countries 468

Living in the LDCs 468

Recent Trends 470

Impediments to Development in the LDCs 472

Help from Industrialized Economies 478

Loans and Grants by the United States and Others 479

Can LDCs Break Away from Poverty? 480

Summary 480

Concepts for Review 481

Questions for Discussion 481

Appendix 483

Glossary G-1
