<i>Preface to the Sixth Edition</i>	v
<i>Preface to the Fifth Edition</i>	vii
<i>Alphabetical Table of Cases</i>	xvii
<i>Numerical Table of Cases</i>	xxv
<i>Table of European Union Treaties and Conventions</i>	xxxiii
<i>Table of Regulations</i>	xxxvii
<i>Table of Directives</i>	xxxix
<i>Table of Decisions</i>	xlvi
<i>Table of International Treaties and Conventions</i>	xlvi
1. Objectives, Principles and Conditions	1
1. The Environment in Community Law	1
2. Genesis and Development of Community Environmental Law	4
3. Sources of Community Environmental Law	5
4. Objectives of Environmental Policy	8
(a) General remarks	8
(b) Sustainable development	9
(c) High level of protection	12
(d) The specific objectives of Art.174(1)	14
5. Principles of Environmental Action	14
(a) General Remarks	14
(b) Subsidiary	17
(c) Integration	20
(d) Precautionary principle	23
(e) Prevention principle	25
(f) Rectification of damage at source	26
(g) Polluter-pays principle	27
6. Conditions for Actions	29
(a) General Remarks	29
(b) Available scientific data	29
(c) Regional conditions	30
(d) Potential benefits and charges	30
(e) Economic and social development	31
<i>Bibliography</i>	32
2. Actors, Instruments, Decision-making Procedures	37
1. Actors	37

(a) The European Commission	37
(i) Administrative structures	37
(ii) Commission initiatives	39
(iii) Administrative activities	42
(iv) The Environment Agency and other "satellites"	44
(b) The European Parliament	46
(c) The Economic and Social Committee; Committee of the Regions	48
(d) The Council	49
(e) The European Courts (Court of Justice and Court of First Instance)	50
(f) Non-institutional actors	51
(i) Professional organisations	51
(ii) Environmental organisations	52
(iii) Individuals	53
2. Instruments	54
(a) Legal and political instruments	54
(i) General remarks	54
(ii) Regulations	56
(iii) Directives	57
(iv) Decisions	59
(v) Recommendations	59
(vi) Communications	60
(vii) Action programmes	60
(viii) Resolutions	62
(ix) Environmental agreements	62
(x) Tripartite contracts and agreements	65
(b) Instruments to influence the behaviour of undertakings and individual persons	65
(i) Obligation of notification	65
(ii) Authorisation	66
(iii) Interdiction and obligation to act	68
(iv) Information, appeals, warnings	71
(v) Financial assistance	71
(vi) Subventions	72
(vii) Tradable certificates; bubbles	73
3. Decision-making procedure	74
(a) Elaboration of a legislative measure	74
(i) Commission proposal	74
(ii) European Parliament, ECOSOC and Committee of the Regions	76
(iii) Council procedure	77
(b) The choice of the legal basis	79
(i) General principles	79
(ii) Nature protection	83
(iii) Waste	84
(iv) Other environmental measures	86

(c) The different legal bases	88
(i) Measures under Art.175(1)	88
(ii) Decisions on programmes, Art.175(3)	89
(iii) Decisions under Art.175(2)	89
(iv) Decisions on international co-operation (Art.174(4))	92
(v) Decisions based on other Treaty provisions	93
(vi) Decisions under the provisions on enhanced co-operation	96
<i>Bibliography</i>	99
3. Community Powers and Member State Powers	102
1. General aspects on the division of competence in environmental matters	102
2. Member States' measures in the absence of Community measures	104
(a) National environmental measures that affect imports: Arts 28 and 30 EC	104
(b) National measures affecting exports	119
(c) Measures under other policies	120
(i) Agricultural policy	120
(ii) Transport policy	121
(iii) State aids	122
(iv) Taxes and charges	123
3. Existence of Community legislation and the taking of national measures	126
(a) General aspects	126
(b) Rights under Art.176 EC	126
(c) Rights under Art.95(4)–(8) EC	132
(i) General aspects	132
(ii) Maintaining national legislation (Art.95(4))	133
(iii) Introducing new national legislation	138
(d) Rights under other Treaty provisions	142
(e) Rights under safeguard clauses	143
<i>Bibliography</i>	144
4. Horizontal Measures	147
1. The right to a clean environment	147
(a) General remarks	147
(b) Access to environmental information	149
(i) National level	149
(ii) European level	151
(c) Participation in environmental decision-making	154
(i) National level	154
(ii) European level	156
(d) Access to justice	159
(i) National level	159
(ii) European level	160
2. Funding	162
(a) General remarks—Environmental Fund	162

(b) Structural Fund and Cohesion Fund	164
(c) LIFE—Financial Instrument for the Environment	166
3. Planning and land use	168
(a) Town and Country Planning; Land Use	168
(b) Environment Impact Assessment	169
(i) Projects	169
(ii) Plans and programmes	172
(iii) Policies and legislation	173
4. Measures concerning industrial installations	176
(a) Corporate environmental responsibility	176
(b) Permitting	176
(c) Individual industrial sectors	181
(d) Environmental auditing	183
(e) Accident prevention	185
5. Environmental liability	187
6. Taxes and charges	191
<i>Bibliography</i>	193
 5. Biodiversity and Nature Conservation	 196
1. General measures	196
(a) International conventions	196
(b) Land use and soil protection	198
(c) Habitat protection	201
(i) Birds' habitats	202
(ii) Fauna and flora habitats	204
(iii) Habitats for fish	207
(d) Financial measures to support nature conservation	208
2. Protection of threatened species	210
(a) Fauna and flora species	210
(b) Birds	211
(c) Trade restrictions	213
(d) Other measures	214
3. Animal welfare	215
(a) Animal welfare and the EC Treaty	215
(b) Tests on animals	216
(c) Seal pups	218
(d) Leghold traps	218
(e) Animals in zoos	219
<i>Bibliography</i>	220
 6. Products	 224
1. General questions	224
2. Composition and marketing of products	229
(a) Detergents	232
(b) Gas, oil, diesel and petrol fuel	232
(c) Cars	236
(d) Packaging	237

(e) Other products that contain heavy metals	238
(f) Products containing ozone-depleting substances	240
(g) Chemical substances and preparations	240
(i) Existing chemical substances	241
(ii) New chemical substances	243
(iii) Chemical preparations	245
(iv) Restrictions on marketing and use	245
(v) The REACH reform	248
(h) Pesticides and biocides	249
(i) Plant protection products	249
(ii) Biocides	251
(iii) Ban of plant protection products	251
(i) Products from biotechnology	252
(j) PVC	258
3. Environmental labelling	259
(a) Environmental Quality Labels	259
(i) Regulation 1980/200 on eco-labelling	259
(ii) Organic farming	261
(iii) Energy consumption	261
(iv) Fuel consumption of cars	262
(v) Recyclable packaging	262
(vi) Forest label	262
(b) Environmental Warning Labels	263
(i) Chemicals that are dangerous for the environment	263
(ii) Separate collection	264
(iii) Labelling of products containing GMOs	264
4. Imports and exports of products	265
5. Industrial standardisation	266
<i>Bibliography</i>	270
7. Water Protection	273
1. Community water policy and law	273
2. Quality measures	279
(a) Drinking water	279
(b) Bathing water	282
(c) Groundwater	284
(d) Nitrates in water	286
(e) Other Directives	287
(i) Surface water	287
(ii) Fresh fish water	288
(iii) Shellfish water	289
3. Reduction of discharges into water	289
(a) Dangerous substances	289
(i) Directive 76/464	289
(ii) Daughter Directives	291
(b) Emissions from industrial installations	294
(c) Dumping of waste; discharge of offshore installations	294

(d) Waste water	295
4. Oceans and rivers	297
(a) Oceans	297
(b) Rivers	301
<i>Bibliography</i>	302
8. Air Pollution	305
1. Air policy and law	305
2. Air quality values	308
3. Pollution emissions from mobile sources (products)	314
(a) Air emissions from cars	314
(b) Air emissions from aeroplanes, ships and machines	320
(c) Emissions from volatile organic compounds (VOCs)	321
4. Air emissions from installations	322
(a) Framework provisions	322
(b) Large combustion plants	323
(c) Waste incineration installations	325
(d) Volatile organic compounds (VOCs) from stationary sources	326
5. Noise and electromagnetic waves	328
(a) General aspects	328
(b) Transport	329
(c) Construction machines	332
(d) Electromagnetic waves	333
<i>Bibliography</i>	333
9. Climate change and ozone depletion	335
1. General remarks	335
2. The Kyoto Protocol	337
3. Emission trading with greenhouse gases	340
4. Energy conservation and energy technology	342
5. Monitoring mechanisms	344
6. Fiscal measures	345
7. Emission limit values, restrictions of use	346
8. Ozone depletion	348
<i>Bibliography</i>	349
10. Waste	351
1. Waste management policy and law	351
2. Waste installations	357
(a) Siting	357
(b) The choice of a type of waste installation	358
(c) Permits	358
(d) Landfills	359
(e) Decommissioning of installations	360
(f) Contaminated land	360
(g) Port reception facilities	361
3. Waste materials	362

(a) Framework provisions	362
(b) Hazardous waste	368
(c) Waste recovery	370
(d) Disposal of waste	373
(e) Shipment of waste	373
(i) Waste shipments to and from third countries	374
(ii) Shipments between Member States	376
(iii) Shipments within Member States	377
(iv) Shipment of radioactive waste	377
4. Specific waste streams	378
(a) Packaging	378
(b) Batteries	380
(c) Used oils	381
(d) PCB/PCT	382
(e) Sewage sludge	382
(f) Animal waste	383
(g) End-of-life vehicles	384
(h) Waste electrical and electronic equipment	384
(i) Mining waste	385
(j) Other waste streams	386
<i>Bibliography</i>	386
11. Legal Aspects of Integrating Environmental Requirements	390
1. General remarks	390
2. Agricultural policy	396
3. Fishery policy	400
4. Transport policy	402
5. Energy policy	405
6. Trade policy	410
7. Tourism and the environment	414
<i>Bibliography</i>	415
12. Implementation	418
1. Obligations of Member States to apply Community law	418
(a) Treaty provisions	418
(b) Secondary legislation	418
(i) Transposition	419
(ii) Application	423
2. Monitoring transposition and application	425
(a) Implementation reports	425
(b) The Commission's monitoring function	426
(c) Monitoring by other bodies	428
(d) Citizen complaints	429
(e) Direct effect of environmental provisions	432
3. Sanctions for non-application	433
(a) Action under Art.226 EC	433
(b) Action under Art.227 EC	435

(c) Action under Art.228 EC	435
(d) State liability	437
(e) Financial sanctions	437
(f) Criminal sanctions	439
(g) Interim measures	439
(h) Action by individuals	440
<i>Bibliography</i>	442
13. EC environmental law and policy	447
1. Introduction	447
2. Primary law	448
3. Law-making and the quality of EC law	450
(a) On law-making	450
(b) The quality of EC environmental law	452
(c) Better regulation	455
4. The different environmental sectors	456
5. The credibility of the process to monitor application	459
(a) The monitoring policy	459
(b) Administrative secrecy	460
(c) Environmental inspectors	461
(d) Internal conventions	462
(e) Credibility	462
6. Institutions	462
(a) Commission	462
(b) European Parliament	466
(c) Council	467
7. Citizens and Community environmental law and policy	468
8. Member States and Community environmental law and policy	471
9. The EC as a global environmental player	473
10. Perspectives	475
<i>Bibliography</i>	476
