	PARA
1. Objectives, Principles and Conditions	
The environment in European Union law	1-01
Genesis and development of EU environmental law	1-05
Sources of community environmental law	1-07
Objectives of environmental policy	1-10
Principles of environmental action	1-16
Conditions for action	1-34
2. Actors, Instruments, Decision-making Procedures	
Actors	2-01
Instruments	2-31
Decision-making procedure	2-61
3. Union Powers and Member State Powers	
General aspects on the division of competence in environmental matters	3-01
Member States' measures in the absence of EU measures	3-04
Existence of community legislation and the taking of national measures	3-41
4. Horizontal Measures	
The right to a clean environment	4-01
Funding	4-22
Planning and land use	4-27
Measures concerning industrial installations	4-39
Environmental liability	4-57

Taxes and charges.....	4-62
5. Biodiversity and Nature Conservation	
General measures	5-02
Protection of threatened species.....	5-22
Animal welfare	5-29
6. Products	
General questions	6-01
Composition and marketing of products.....	6-06
Environmental labelling	6-55
Imports and exports of products	6-64
Industrial standardisation	6-66
7. Water Protection	
European union water policy and law	7-01
Quality measures	7-13
Reduction of discharges into water.....	7-24
Oceans and rivers	7-35
8. Air Pollution and Noise	
Air policy and law.....	8-01
Air quality values	8-07
Pollution emissions from mobile sources (products)	8-14
Air emissions from installations	8-30
Noise and electromagnetic waves	8-39
9. Climate Change and Ozone Depletion	
General remarks	9-01
The Kyoto Protocol	9-04
Emission trading with greenhouse gases	9-11
Energy saving, energy efficiency and renewables	9-15
Limiting emissions of greenhouse gases	9-21
Monitoring mechanisms	9-22
Fiscal measures	9-23
General observations	9-25
Ozone depletion	9-26
10. Waste	
Waste management policy and law	10-01
Waste installations	10-09
Waste materials	10-18
Specific waste streams	10-48
11. Legal Aspects of Integrating Environmental Requirements	
General remarks	11-01
Agricultural policy	11-08
Fisheries policy	11-15
Transport policy	11-16

Energy policy.....	11-22
Trade policy	11-30
Tourism and the environment.....	11-39

12. Implementation

Obligations of Member States to apply EU law.....	12-01
Monitoring transposition and application	12-14
Sanctions for non-application	12-30

13. EC Environmental Law and Policy

Introduction	13-01
Primary law	13-03
Law-making and the quality of EC law.....	13-06
The different environmental sectors	13-14
The credibility of the process to monitor application	13-19
Institutions	13-26
Citizens and EU environmental law and policy	13-32
Member States and EU environmental law and policy	13-38
The European Union as a global environmental player	13-43
Perspectives	13-46
