1. INTRODUCTION.....	3
2. PAPER OBJECTIVES	5
3. THEORETICAL PART	6
3.1. Definition of Personal Decontamination	6
3.2. Major Principles of Personal Decontamination of Toxic Substances....	7
3.3. Means of Personal Decontamination	8
3.3.1. Requirements for Means of Personal Decontamination	8
3.3.2. Examples of Contemporary Means Based on Mechanical and Physical Principles	9
3.3.3. Examples of Contemporary Means Based on Chemicals	13
3.4. Brief Evaluation of Personal Decontamination Security at CR FRS	17
3.5. Conclusion of Theoretical Part for Experimental Part of the Task.	18
4. EXPERIMENTAL PART	22
4.1. Condition for Performance of Tests Regarding Decontamination Effectiveness of Means and Procedures	22
4.2. Contamination of Surfaces	22
4.2.1. Contaminants	22
4.2.2. Test Surfaces	23
4.2.3. Contamination of Test Surfaces.....	23
4.3. Decontamination	23
4.3.1. General Conditions for Decontamination Performance.....	23
4.3.2. Means DESPRACH	24
4.3.3. Decontamination Nano-sorbent FAST-ACT	24
4.3.4. Decontamination Glove FAST-ACT	24
4.3.5. Decontamination Cloth	25
4.3.6. Applicator of Foam Hvezda	25
4.3.7. Wiping of the Surface with Alcohol	26
4.4. Determination of Residual Contamination	26
4.4.1. Appliances	26
4.4.2. Sampling and Adjustment of Samples	26
4.4.3. Determination of Agent VX	27
4.4.4. Determination of Sulfide yperite	28
4.4.5. Determination of o-cresol	28
4.4.6. Determination of Acrylonitrile.....	29
4.4.7. Evaluation of Measured Data	30
4.5. Analysis of Contaminants in Waste after Decontamination	30
4.6. Penetration of Contaminants through Decontamination Glove	31
4.6.1. Penetration of Agent VX.....	31
4.6.2. Penetration of Sulfide Yperite	32
4.6.3. Penetration of o-cresol and Acrylonitrile.....	32

5. RESULTS AND DISCUSSION	33
5.1. Decontamination Effectiveness of Tested Means and Procedures	33
5.1.1. Decontamination of Agent VX.....	33
5.1.2. Decontamination of Sulfide Yperite	35
5.1.3. Decontamination of o-cresol.....	36
5.1.4. Decontamination of Acrylonitrile	38
5.1.5. Comparison of Decontamination Effectiveness	39
5.2. Other Parameters	40
5.2.1. Decontamination of Heavily Accessible Places and Vertical Areas.	40
5.2.2. Need of Water for Rinsing	41
5.2.3. Economic Comparison.	41
5.2.4. Waste Risks and Waste Management	42
5.2.5. Resilience of Decontamination Gloves Against Penetration of Contaminants.....	49
5.3. Overall Evaluation of Tested Procedures and Means	51
6. PROJECT OF PERSONAL DECONTAMINATION MEANS FOR FIREFIGHTERS “INDEHA”	54
6.1. Reasoning of the Proposal for Implementation of Decontamination Procedure Based on Wiping with Ethanol in CR FRS	54
6.2. Project of the Means	54
6.2.1. Composition of the Means	54
6.2.2. Variants of the Means	56
6.2.3. Economic Evaluation	57
6.3. Methodology of Personal Decontamination	59
6.4. Verification of Means and Methodology	62
7. CONCLUSION	65
8. LITERATURE	66
POPULATION PROTECTION INSTITUTE (PPI)	68
