

Table of content

Head

1	Facial muscles.	2
1.1	Forehead, vertex, temple	
1.2	Auricle	
1.3	Palpebral fissure	
1.4	Nose	
1.5	Mouth	
1.6	Neck	
2	Extraocular muscles of the eyeball.	7
3	Muscles of the tongue	9
3.1	Intrinsic muscles of the tongue (internal muscles)	
3.2	Extrinsic muscles of the tongue (external muscles)	
4	Muscles of the palate.	11
5	Masticatory muscles	12

Neck

6	Muscles of the pharynx	14
6.1	Pharyngeal constrictor muscles	
6.2	Pharyngeal levator muscles	
7	Muscles of the larynx.	16
8	Branches and innervation areas of the Plexus cervicalis	18
9	Lateral muscle of the neck.	18
10	Suprahyoid muscles.	19
11	Infrahyoid muscles	20
12	Scalene muscles.	21
13	Prevertebral muscles	22

Trunk

14	Muscles of the thoracic wall	24
15	Ventral muscles of the abdominal wall	25
16	Lateral muscles of the abdominal wall	25
17	Dorsal muscles of the abdominal wall.	26
18	Spinocostal muscles	26
19	Autochthonous muscles of the back	27
19.1	Lateral tract	
19.2	Medial tract	
19.3	Autochthonous deep muscles of the neck	
20	Movements of the head joint and cervical spine	35
21	Diaphragm.	36
21.1	Muscle	
21.2	Passageways and weak spots in the diaphragm	
22	Pelvic floor, perineal and sphincter muscles of the anus	37
22.1	Pelvic floor (Diaphragma pelvis)	
22.2	Perineal muscles	
22.3	Sphincter muscles of the anus	

Upper limb

23 Joints of the upper limb, Articulationes membri superioris.	40
23.1 Joints of the shoulder girdle, Articulationes cinguli pectoralis	
23.2 Joints of the free upper limb, Articulationes membri superioris liberi	
23.3 Planes and axes of movement of joints of the upper limb	
24 Branches and innervation areas of the Plexus brachialis	42
25 Segmental innervation of muscles of the upper limb, diagnostically important key muscles.	43
26 Ventral muscles of the shoulder girdle.	43
27 Ventral muscles of the shoulder	44
28 Lateral muscles of the shoulder	44
29 Dorsal muscles of the shoulder girdle	45
30 Dorsal muscles of the shoulder	46
31 Ventral muscles of the upper arm.	47
32 Dorsal muscles of the upper arm	48
33 Ventral superficial muscles of the forearm	49
34 Ventral deep muscles of the forearm	50
35 Lateral (radial) muscles of the forearm.	51
36 Dorsal superficial muscles of the forearm	52
37 Dorsal deep muscles of the forearm.	53
38 Thenar muscles	54
39 Palmar muscles.	55
40 Hypothenar muscles	56

Lower limb

41 Joints of the lower limb, Articulationes membri inferioris	58
41.1 Bony connections of the pelvic girdle, Juncturae cinguli pelvici	
41.2 Joints of the free lower limb, Articulationes membri inferioris liberi	
41.3 Planes and axes of movement of joints of the lower limb	
42 Branches and innervation areas of the Plexus lumbosacralis	61
42.1 Branches and supply areas of the Plexus lumbalis	
42.2 Branches and innervation areas of the Plexus sacralis	
43 Segmental innervation of muscles of the lower limb, diagnostically significant key muscles	63
44 Ventral muscles of the hip.	63
45 Dorsolateral muscles of the hip	64
46 Pelvitrochanteric muscles of the hip.	65
47 Ventral muscles of the thigh	66
48 Medial muscles of the thigh (adductors)	67
49 Dorsal muscles of the thigh (ischocrural muscles)	68
50 Ventral muscles of the lower limb	69
51 Lateral (fibular) muscles of the lower limb	70
52 Dorsal superficial muscles of the lower limb.	70
53 Dorsal deep muscles of the lower limb	71
54 Muscles of the dorsum of the foot	72
55 Medial muscles of the sole of the foot.	72
56 Muscles in the middle of the sole of the foot	73
57 Lateral muscles of the sole of the foot.	74

Cranial nerves

58 Cranial nerves, overview 76

59 Cranial nerves, functions (fibre qualities). 76

60 Cranial nerves 77

60.1 N. olfactorius [I]

60.2 N. opticus [II]

60.3 N. oculomotorius [III]

60.4 N. trochlearis [IV]

60.5 N. trigeminus [V]

60.6 N. abducens [VI]

60.7 N. facialis [VII]

60.8 N. vestibulocochlearis [VIII]

60.9 N. glossopharyngeus [IX]

60.10 N. vagus [X]

60.11 N. accessorius [XI]

60.12 N. hypoglossus [XII]

61 Functional organisation of the isocortex: primary and secondary cortical areas. 82

61.1 Primary cortical areas

61.2 Secondary cortical areas

62 Nuclei of the thalamus (selection) 82

Index 83
