

1	Introduction	7
2	Case Presentations	10
3	Epidemiology	14
4	Histogenesis and Etiology	
	<i>Histogenesis</i>	16
	<i>Etiology</i>	17
5	Pathology	18
6	Clinical Diagnosis	22
7	Laparoscopy	
	<i>Laparoscopic Diagnosis</i>	24
	<i>Laparoscopic Staging</i>	28
8	Endometriosis and Infertility	
	<i>Pathogenesis</i>	30
	<i>Work-up</i>	37
	<i>Principles of Management</i>	38
	<i>Ovulation Induction and Cycle Regulation</i>	39
	<i>In Vitro Fertilization and Gamete Intra Fallopian Transfer</i>	40
9	Special Section: Endocrinology of the Menstrual Cycle	42
10	Effects of Estrogens and Progestogens on the Endometrium	44

11	Medical Management	
	<i>General Concepts</i>	46
	<i>Symptomatic Management</i>	48
	<i>Estrogen/Progestogen Induced Pseudopregnancy</i>	50
	<i>Progestogen Induced Pseudopregnancy</i>	56
	<i>Danazol Induced Pseudomenopause</i>	60
	<i>Gestrinone</i>	65
	<i>Hypogonadotropism Induced by GnRH Agonists (Buserelin)</i>	66
12	Surgical Management	
	<i>General Concepts</i>	77
	<i>Laparoscopic Surgery</i>	78
	<i>Conservative Surgery</i>	80
	<i>Definitive Surgery and Hormonal Replacement Therapy</i>	82
13	Combined Medical and Surgical Management	83
14	Recurrences Following Surgical and Medical Treatment	84
15	Individualized Approach to Treatment	86
16	Endometriosis and Neoplasia	90
17	Summary	91
	Bibliography	92
	Index	97
