

Degree of Infestation of the Plum Tree by Wood-destroying Basidiomycetes and Frost-plates on the Plum Tree in Different Areas of Moravia and Silesia .	7
Problem, method, material	7
The problem	7
Method	9
Material, territory, areas, localities	10
Overview of literature	14
Occurrence of studied phenomena in nature	20
Statistical computations	46
Representation of the individual species of wood-destroying Basidiomycetes in the areas, enclaves and in the whole territory on individual parts and on the trees	52
Summary and evaluation of results, Discussion	57
Conclusion	69
Závěr	70

Degree of Infestation of the Sweet Cherry Tree by Wood-destroying Basidiomycetes and Frost-plates on the Sweet Cherry Tree in Different Areas of Moravia and Silesia, 2nd Continuation	75
Introduction	75
Overview of literature	77
Representation of the individual species of wood-destroying Basidiomycetes in areas, enclaves and in the whole territory on individual tree parts and on the trees	86
Summary and evaluation of results	95
Conclusion	99
