

SECTION 1 OVERVIEW OF UPPER DIGESTIVE TRACT

- 1.1 Development of Gastrointestinal Tract at 14 and 16 Days, 2
- 1.2 Development of Gastrointestinal Tract at 18 Days and 1 Month, 3
- 1.3 Development of Gastrointestinal Tract at 5 Weeks, 6 Weeks, and 2 Months, 4
- 1.4 Development of Gastrointestinal Tract at 10 Weeks and 4 to 5 Months; Diaphragm at 9 Weeks, 5
- 1.5 Relationships of Stomach at 2 Months; Sagittal Section at 2 to 3 Months, 6
- 1.6 Sagittal Sections at 3 to 4 Months Compared With Adult, 7
- 1.7 Regions of Abdomen, 8
- 1.8 Bony Framework of Abdominopelvic Cavity, 9
- 1.9 Anterolateral Abdominal Wall: Superficial Dissection, 10
- 1.10 Anterolateral Abdominal Wall: Intermediate Dissection, 11
- 1.11 Anterolateral Abdominal Wall: Deep Dissection, 12
- 1.12 Anterolateral Abdominal Wall: Posterolateral Abdominal Wall, 13
- 1.13 Anterolateral Abdominal Wall: Internal View of Anterolateral Abdominal Wall, 14
- 1.14 Inguinal Canal: Dissections, 15
- 1.15 Inguinal Canal: Spermatic Cord, 16
- 1.16 Inguinal Canal: Femoral Sheath, 17
- 1.17 Posterior Wall of Abdominal Cavity, 18
- 1.18 Diaphragm, 19
- 1.19 Floor of Abdominopelvic Cavity, 20
- 1.20 Peritoneum: Paramedian (Parasagittal) Section, 21
- 1.21 Peritoneum: Cross Section of Abdomen at Middle T12, 22
- 1.22 Peritoneum: Cross Section at L3, L4, 23
- 1.23 Peritoneum: Posterior Abdominal Wall, 24
- 1.24 Peritoneum: Omental Bursa, 25
- 1.25 Peritoneum: Pelvic Contents (Male), 26
- 1.26 Peritoneum: Pelvic Contents (Female), 27
- 1.27 Pelvic Fascia and Perineopelvic Spaces: Potential Spaces, 28
- 1.28 Pelvic Fascia and Perineopelvic Spaces: Sagittal Section of Fascial Planes, 29
- 1.29 Pelvic Fascia and Perineopelvic Spaces: Ischioanal Fossa, 30
- 1.30 Pelvic Fascia and Perineopelvic Spaces: Actual and Potential Perineopelvic Spaces, 31
- 1.31 Pelvic Fascia and Perineopelvic Spaces: Bladder, 32
- 1.32 Arteries of Posterior Abdominal Wall, 33
- 1.33 Arteries of Anterior Abdominal Wall, 34
- 1.34 Veins of Anterior Abdominal Wall, 35
- 1.35 Veins of Posterior Abdominal Wall, 36
- 1.36 Lymph Drainage of the Abdomen, 37
- 1.37 Innervation: Thoracoabdominal Nerves, 38
- 1.38 Innervation: Nerves of Anterior Abdominal Wall, 39
- 1.39 Innervation: Lumbosacral and Coccygeal Plexuses, 40
- 1.40 Innervation: Nerves of Posterior Abdominal Wall, 41
- 1.41 Innervation: Nerves of Perineum (Male), 42
- 1.42 Overview of the Digestive System, 43
- 1.43 Overview of Control Mechanisms, 44
- 1.44 Brain-Gut Interactions and Visceral Reflexes, 46
- 1.45 Enteric Nervous System, 47
- 1.46 Interpretation of Visceral Pain, 48
- 1.47 Interpretation of Visceral Pain (Continued), 49
- 1.48 Gastrointestinal Hormones, 50
- 1.49 Mucosal Defense Mechanisms, 51
- 1.50 Intestinal Housekeeper, 52
- 1.51 Immune Defenses of the Digestive System, 53
- 1.52 Epithelial Cell Defense Mechanisms of the Digestive System, 54
- 1.53 Microbiome, 55
- 1.54 Gastrointestinal Manifestations of COVID-19, 56

- 1.55 Mechanisms of Disease: Functional Gastrointestinal Disorders, 57
- 1.56 Adverse Effects of Medications on the Upper Digestive System, 59
- 1.57 Hunger and Appetite, 60
- 1.58 Disturbances of Hunger and Appetite, 61
- 1.59 Overview of Gastrointestinal Bleeding, 62
- 1.60 Diagnostic Aids in Gastric Disorders, 63
- 1.61 Overview of Imaging of the Upper Gastrointestinal Tract, 64
- 1.62 Overview of Imaging of the Upper Gastrointestinal Tract (Continued), 65
- 1.63 Endoscopic Evaluation of the Upper Digestive Tract, 66
- 1.64 Endoscopic Evaluation of the Upper Digestive Tract (Continued), 67
- 1.65 Histologic and Cytologic Diagnosis, 68
- 1.66 Breath Testing, 69
- 1.67 Stool Testing, 70

SECTION 2 MOUTH AND PHARYNX

- 2.1 Development of Mouth and Pharynx, 72
- 2.2 Oral Cavity, 73
- 2.3 Mandible, 74
- 2.4 Temporomandibular Joint, 75
- 2.5 Floor of Mouth, 76
- 2.6 Roof of Mouth, 77
- 2.7 Muscles Involved in Mastication: Lateral Views, 78
- 2.8 Muscles Involved in Mastication: Lateral and Posterior Views, 79
- 2.9 Tongue: Dorsum and Schematic Stereogram, 80
- 2.10 Tongue: Lateral Views, 81
- 2.11 Teeth: Deciduous and Permanent Teeth, 82
- 2.12 Teeth: Detailed Anatomy, 83
- 2.13 Salivary Glands, 84
- 2.14 Sections Through Mouth and Jaw, 85
- 2.15 Fauces, 86
- 2.16 Histology of Mouth and Pharynx, 87
- 2.17 Pharynx: Median Section, 88
- 2.18 Pharynx: Opened Posterior View, 89
- 2.19 Bony Framework of Mouth and Pharynx, 90
- 2.20 Musculature of Pharynx: Sagittal Section, 91
- 2.21 Musculature of Pharynx: Lateral View, 92
- 2.22 Musculature of Pharynx: Partially Opened Posterior View, 93
- 2.23 Arteries of Oral and Pharyngeal Regions, 94
- 2.24 Maxillary Artery, 95
- 2.25 Venous Drainage of Mouth and Pharynx, 96
- 2.26 Lymph Vessels and Nodes of Head and Neck, 97
- 2.27 Lymph Vessels and Nodes of Pharynx and Tongue, 98
- 2.28 Nerves of Oral and Pharyngeal Regions, 99
- 2.29 Afferent Innervation of Oral Cavity and Pharynx, 100
- 2.30 Autonomic Innervation of Mouth and Pharynx, 101
- 2.31 Salivary Secretion, 102
- 2.32 Mastication, 103
- 2.33 Mastication (Continued), 104
- 2.34 Diagnostic Approach to Oral Lesions, 105
- 2.35 Congenital Anomalies of Oral Cavity, 106
- 2.36 Dental Abnormalities, 107
- 2.37 Dental Abnormalities (Continued), 108
- 2.38 Periodontal Disease, 109
- 2.39 Odontogenic Infections: Origins and Pathways of Infection, 110
- 2.40 Odontogenic Infections: Abscess Formation, 111
- 2.41 Gingivitis, 112
- 2.42 Manifestation of Disease of Tongue, 113
- 2.43 Manifestation of Disease of Tongue (Continued), 114
- 2.44 Leukoplakia, 115

- 2.45 Effects of Iatrogenic Agents on Oral Mucosa, 116
- 2.46 Abnormalities of Temporomandibular Joint, 117
- 2.47 Inflammations of Salivary Glands, 118
- 2.48 Oral Manifestations in Systemic Infections, 119
- 2.49 Oral Manifestations in Systemic Infections (Continued), 120
- 2.50 Oral Manifestations of Gastrointestinal Diseases, 121
- 2.51 Oral Manifestations of Rheumatic Diseases, 122
- 2.52 Oral Manifestations Related to Endocrine System, 123
- 2.53 Oral Manifestations in Nutritional Deficiencies, 124
- 2.54 Oral Manifestations of Hematologic Diseases, 125
- 2.55 Oral Manifestations in Various Skin Conditions, 126
- 2.56 Oral Manifestations in Various Skin Conditions (Continued), 127
- 2.57 Oral Manifestations of Immunocompromised Conditions, 128
- 2.58 Neurogenic Disorders of Mouth and Pharynx, 129
- 2.59 Infections of Pharynx, 130
- 2.60 Allergic Conditions of Pharynx, 131
- 2.61 Cysts of Jaw and Oral Cavity, 132
- 2.62 Cysts of Jaw and Oral Cavity (Continued), 133
- 2.63 Benign Tumors of Oral Cavity, 134
- 2.64 Benign Tumors of Oral Cavity (Continued), 135
- 2.65 Benign Tumors of Vallecule and Root of Tongue (Hypopharynx), 136
- 2.66 Benign Tumors of Salivary Glands, 137
- 2.67 Benign Tumors of Fauces and Oral Pharynx, 138
- 2.68 Malignant Tumors of Oral Cavity and Oral Pharynx, 139
- 2.69 Malignant Tumors of Salivary Glands, 140
- 2.70 Malignant Tumors of Jaw, 141
- 2.71 Malignant Tumors of Hypopharynx, 142
- 2.72 Functional Disorders That Lead to Structural Issues: Killian Triangle, Endoscopic Electrocautery, Cricopharyngeal Bar, 143
- 2.73 Functional Disorders That Lead to Structural Issues: Cricopharyngeal Myotomy and Esophageal Diverticula, 144

SECTION 3 ESOPHAGUS

- 3.1 Development of Esophagus, 146
- 3.2 Esophagus In Situ, 147
- 3.3 Topography and Constrictions of Esophagus, 148
- 3.4 Musculature of Esophagus, 149
- 3.5 Pharyngoesophageal Junction, 150
- 3.6 Esophagogastric Junction, 151
- 3.7 Diaphragmatic Crura and Orifices, 152
- 3.8 Histology of Esophagus, 153
- 3.9 Blood Supply of Esophagus, 154
- 3.10 Venous Drainage of Esophagus, 155
- 3.11 Lymphatic Drainage of Esophagus, 156
- 3.12 Nerves of Esophagus, 157
- 3.13 Intrinsic Nerves and Variations in Nerves of Esophagus, 158
- 3.14 Intrinsic Innervation of Alimentary Tract, 159
- 3.15 Neuroregulation of Deglutition, 160
- 3.16 Esophageal Duplication Cysts, 161
- 3.17 Congenital Esophageal Stenosis, 162
- 3.18 Dysphagia Aortica and Vascular Compression, 163
- 3.19 Plummer-Vinson Syndrome, 164
- 3.20 Diverticula of Esophagus, 165
- 3.21 Esophageal Atresia, 166
- 3.22 Esophagoscopy and Endoscopic Ultrasound, 167
- 3.23 Inferior Esophageal Ring Formation, 168
- 3.24 Achalasia and Diffuse Esophageal Spasm, 169
- 3.25 Congenital Diaphragmatic Hernia, 170
- 3.26 Hiatal Hernias, 171
- 3.27 Paraesophageal Hernias, 172
- 3.28 Eosinophilic Esophagitis, 173
- 3.29 Reflux Esophagitis, 174

- 3.30 Foreign Bodies in Esophagus, 175
- 3.31 Esophageal Strictures, 176
- 3.32 Rupture and Perforation of Esophagus, 177
- 3.33 Benign Tumors of Esophagus, 178
- 3.34 Barrett Esophagus, 179
- 3.35 Adenocarcinoma of Esophagus, 180
- 3.36 Squamous Cell Carcinoma of Esophagus, 181
- 3.37 Diagnostic Aids in Esophageal and Gastric Disorders, 182
- 3.38 Diagnostic Aids in Esophageal and Gastric Disorders (Continued), 183
- 3.39 Esophageal Varices, 184

SECTION 4 STOMACH

- 4.1 Development of Stomach and Greater Omentum, 186
- 4.2 Anatomy, Normal Variations, and Relations of Stomach, 187
- 4.3 Anatomy and Relations of Duodenum, 188
- 4.4 Mucous Membrane of Stomach, 189
- 4.5 Musculature of Stomach, 190
- 4.6 Duodenal Bulb and Mucosal Surface of Duodenum, 191
- 4.7 Structures of Duodenum, 192
- 4.8 Duodenal Fossae and Ligament of Treitz, 193
- 4.9 Blood Supply: Stomach, Liver, and Spleen, 194
- 4.10 Blood Supply: Stomach, Duodenum, Pancreas, and Spleen, 195
- 4.11 Blood Supply: Liver, Pancreas, Duodenum, and Spleen, 196
- 4.12 Blood Supply: Duodenum and Head of Pancreas, 197
- 4.13 Blood Supply: Hepatic Artery Variations, 198
- 4.14 Collateral Circulation of Upper Abdominal Organs, 199
- 4.15 Venous Drainage of Stomach and Duodenum, 200
- 4.16 Lymphatic Drainage of Stomach, 201
- 4.17 Autonomic Innervation of Stomach and Duodenum, 202
- 4.18 Autonomic Innervation of Stomach and Duodenum (Continued), 203
- 4.19 Autonomic Innervation of Stomach and Duodenum (Continued), 204
- 4.20 Normal Gastric Neuromuscular Physiology, 205
- 4.21 Mechanism of Gastric Acid Secretion, 206
- 4.22 Digestive Activity of Stomach, 207
- 4.23 Neuroregulation of Gastric Activity: Extrinsic Innervation of Stomach, 208
- 4.24 Neuroregulation of Gastric Activity: Enteric Nervous System, 209
- 4.25 Local Factors Influencing Gastric Activity, 210
- 4.26 Systemic Factors Influencing Gastric Activity, 211
- 4.27 Hormonal Factors Influencing Gastric Activity, 212
- 4.28 Functional Changes in Gastric Motility and Secretion in Gastric Diseases, 213
- 4.29 Pyloric Obstruction; Effects of Vomiting, 214
- 4.30 Nausea and Vomiting, 215
- 4.31 Aerophagia and Belching, 217
- 4.32 Endoscopic Evaluation of Stomach: Upper Endoscopy, 218
- 4.33 Diagnostic Tests in Gastric Disorders: Gastric Emptying Scintigraphy, 219
- 4.34 Diagnostic Aids in Gastric Disorders: Antroduodenal Manometry, 220
- 4.35 Diagnostic Tests in Gastric Disorders: Electrogastrography, 221
- 4.36 Diagnostic Tests in Gastric Disorders: EndoFLIP of the Pylorus, 222
- 4.37 Gastric Acid Analysis, 223
- 4.38 *Helicobacter Pylori* Infection, 224
- 4.39 Paraesophageal Hernia and Gastric Volvulus, 225
- 4.40 Hypertrophic Pyloric Stenosis, 226
- 4.41 Diverticulum of Stomach; Gastroduodenal Prolapse, 227
- 4.42 Traumatic Injuries of the Stomach, 228
- 4.43 Gastritis, 229
- 4.44 Acute Gastric Ulcer, 230
- 4.45 Subacute Ulcer of Stomach, 231
- 4.46 Chronic Gastric Ulcer, 232
- 4.47 Cameron Lesions and Disorders of the Cardia, 233
- 4.48 Giant Gastric Ulcer, 234
- 4.49 Gastroparesis, 235
- 4.50 Gastric Electrical Stimulation for Gastroparesis, 236
- 4.51 Endoscopic Pyloromyotomy for Gastroparesis, 237
- 4.52 Functional Dyspepsia, 238
- 4.53 Peptic Ulcer: Duodenitis and Ulcer of Duodenal Bulb, 239
- 4.54 Peptic Ulcer: Duodenal Ulcers Distal to Duodenal Bulb; Multiple Ulcers, 240
- 4.55 Complications of Gastric and Duodenal Ulcers, 241
- 4.56 Complications of Gastric and Duodenal Ulcers (Continued), 242
- 4.57 Complications of Gastric and Duodenal Ulcers (Continued), 243
- 4.58 Complications of Gastric and Duodenal Ulcers (Continued), 244
- 4.59 Healing of Gastric Ulcer, 245
- 4.60 Benign Tumors of the Stomach: Gastric Polyps, 246
- 4.61 Benign Tumors of the Stomach (Continued), 247
- 4.62 Carcinoma of Stomach: Near Cardia and in Fundus, 248
- 4.63 Carcinoma of Stomach: Early Carcinoma, 249
- 4.64 Carcinoma of Stomach: Adenocarcinoma of Stomach, 250
- 4.65 Carcinoma of Stomach: Scirrhous Carcinoma, 251
- 4.66 Carcinoma of Stomach: Ulcerating Carcinoma, 252
- 4.67 Carcinoma of Stomach: Spread of Carcinoma, 253
- 4.68 Principles of Operative Procedures, 254
- 4.69 Principles of Operative Procedures (Continued), 255
- 4.70 Bariatric Surgery, 256
- 4.71 Postgastrectomy Complications, 257
- 4.72 Complications of Gastrectomy (Bariatric Surgery) for Obesity, 258
