

SECTION 1 OVERVIEW OF LOWER DIGESTIVE TRACT

- 1.1 Arteries of Small Intestine, 2
- 1.2 Arteries of Large Intestine, 3
- 1.3 Veins of Small Intestine, 4
- 1.4 Veins of Large Intestine, 5
- 1.5 Veins of Rectum and Anal Canal: Female, 6
- 1.6 Autonomic Reflex Pathways: Schema, 7
- 1.7 Intrinsic Autonomic Plexuses of Intestine: Schema, 8
- 1.8 Autonomic Innervation of Small and Large Intestines: Schema, 9
- 1.9 Autonomic Innervation of Small Intestine, 10
- 1.10 Autonomic Innervation of Large Intestine, 11
- 1.11 Digestion of Protein, 12
- 1.12 Digestion of Carbohydrates, 13
- 1.13 Digestion of Fat, 14
- 1.14 Secretory, Digestive, and Absorptive Functions of Colon and Colonic Flora, 15
- 1.15 Causes of Gastrointestinal Hemorrhage, 17
- 1.16 Management of Gastrointestinal Hemorrhage, 18
- 1.17 Laparoscopic Peritoneoscopy, 19
- 1.18 Acute Abdomen: Causes, 20
- 1.19 Acute Abdomen: Thoracic, Retroperitoneal, Systemic, Abdominal Wall, 21
- 1.20 Overview of Digestive Tract Obstructions, 22
- 1.21 Acute Peritonitis, 24
- 1.22 Chronic Peritonitis, 25
- 1.23 Cancer of Peritoneum, 26
- 1.24 Abdominal Wounds: Blast Injuries, 27
- 1.25 Physiology of Gastroenteric Stomas, 28
- 1.26 Physiology of Gastroenteric Stomas (Continued), 29

SECTION 2 SMALL BOWEL

- 2.1 Development of Small Intestine, 32
- 2.2 Topography and Relations of Small Bowel, 33
- 2.3 Mucosa and Musculature of Duodenum, 34
- 2.4 Small Intestine Microscopic Structure, 35
- 2.5 Epithelium of Small Intestine, 36
- 2.6 Blood Supply of Small Intestine, 37
- 2.7 Lymph Drainage of Small Intestine, 38
- 2.8 Motility and Dysmotility of Small Intestine, 39
- 2.9 Gradient and Ileocecal Sphincter, 40
- 2.10 Gastrointestinal Hormones, 41
- 2.11 Pathophysiology of Small Intestine, 42
- 2.12 Tests for Small Bowel Function: Wireless Motility Capsule, 43
- 2.13 Tests for Small Bowel Function: Radiologic and Endoscopic Tests, 44
- 2.14 Congenital Intestinal Obstruction: Atresia, 45
- 2.15 Congenital Intestinal Obstruction: Malrotation of Colon and Volvulus of Midgut, 46
- 2.16 Congenital Intestinal Obstruction: Meconium Ileus, 47
- 2.17 Diaphragmatic Hernia: Sites and Herniation of Abdominal Viscera, 48
- 2.18 Diaphragmatic Hernia: Thoracic Approach to Repair, 49
- 2.19 Intussusception, 50
- 2.20 Omphalocele, 51
- 2.21 Duplications of Alimentary Tract, 52
- 2.22 Meckel Diverticulum: Variants of Vitelline Duct Remnants, 53
- 2.23 Meckel Diverticulum: Complications of Meckel Diverticulum and Vitelline Duct Remnants, 54
- 2.24 Diverticula of Small Intestine, 55
- 2.25 Celiac Disease: Malabsorption, 56
- 2.26 Celiac Disease: Endoscopic and Histologic Findings, 57
- 2.27 Tropical Sprue, 58
- 2.28 Whipple Disease (Intestinal Lipodystrophy), 59

- 2.29 Bacterial Overgrowth, 60
- 2.30 Carbohydrate Malabsorption, Including Lactose Malabsorption, 61
- 2.31 Protein-Losing Enteropathies, 62
- 2.32 Eosinophilic Gastrointestinal Diseases, 63
- 2.33 Cronkhite-Canada Syndrome and Other Rare Diarrheal Disorders, 64
- 2.34 Crohn's Disease: Imaging and Regional Variations, 65
- 2.35 Crohn's Disease: Fistulizing (Penetrating), 66
- 2.36 Crohn's Disease: Extraintestinal Manifestations, 67
- 2.37 Typhoid Fever: Transmission and Pathologic Lesions, 68
- 2.38 Typhoid Fever: Paratyphoid Fever, Enteric Fever, 69
- 2.39 Infectious Enteritis: Viral Enteritis, 70
- 2.40 Infectious Enteritis: Food Poisoning: Infection Type, 71
- 2.41 Infectious Enteritis: Food Poisoning: Toxin Type, 72
- 2.42 Infectious Enteritis: Reactive Arthritis, 73
- 2.43 HIV/AIDS Enteropathy, 74
- 2.44 Posttransplant Lymphoproliferative Disorder, 75
- 2.45 Abdominal and Intestinal Tuberculosis: Appearance of Mucosa, 76
- 2.46 Abdominal and Intestinal Tuberculosis: Chronic Peritonitis, 77
- 2.47 *Mycobacterium avium-intracellulare* Infection, 78
- 2.48 Small Bowel Manifestations of Systemic Diseases: Connective Tissue Disorder and Dermatologic Diseases, 79
- 2.49 Small Bowel Manifestations of Systemic Diseases: Miscellaneous Disorders, 80
- 2.50 Intestinal Obstruction: Obstruction and Adynamic Ileus of Small Intestine, 81
- 2.51 Intestinal Obstruction: Computed Tomography of Small Intestine Obstruction, 82
- 2.52 Vascular Malformation of Small Intestine: Small Intestinal Bleeding, 83
- 2.53 Vascular Malformation of Small Intestine: Angiodysplasias and Pigmentation, 84
- 2.54 Indirect and Direct Inguinal Hernias: Indirect Inguinal Hernia, 85
- 2.55 Indirect and Direct Inguinal Hernias: Funicular Process and Hernia in Infancy, 86
- 2.56 Indirect and Direct Inguinal Hernias: Tension-Free Hernia and McVay Repairs, 87
- 2.57 Indirect and Direct Inguinal Hernias: Transabdominal Preperitoneal and Totally Extraperitoneal Approaches to Inguinal Hernia, 88
- 2.58 Femoral Hernia: Anatomy, 89
- 2.59 Femoral Hernia: Surgical Repair, 90
- 2.60 Complications of Inguinal and Femoral Hernias, 91
- 2.61 Special Forms of Hernia, 92
- 2.62 Ventral Hernia, 93
- 2.63 Lumbar and Parastomal Hernias, 94
- 2.64 Pelvic Hernias, 95
- 2.65 Internal Hernia, 96
- 2.66 Abdominal Wounds of Small Intestine, 97
- 2.67 Abdominal Wounds of Mesentery, 98
- 2.68 Abdominal Wounds Resulting From Blast Injuries, 99
- 2.69 Mesenteric Ischemia: Thrombosis of Mesenteric Artery, 100
- 2.70 Mesenteric Ischemia: Thrombosis of Mesenteric Vein, 101
- 2.71 Superior Mesenteric Artery Syndrome, 102
- 2.72 Celiac Artery Compression Syndrome (Median Arcuate Ligament Syndrome), 103
- 2.73 Cancer of Peritoneum (Peritoneal Carcinomatosis), 104
- 2.74 Familial Mediterranean Fever and Other Rare Etiologies of Abdominal Pain, 105
- 2.75 Acute Intermittent Porphyria, 106
- 2.76 Laparoscopy, 107
- 2.77 Giardiasis, 108
- 2.78 Benign Tumors of Small Intestine, 109
- 2.79 Benign Tumors of Small Intestine (Continued), 110

- 2.80 Carcinoid, 111
- 2.81 Peutz-Jeghers Syndrome, 112
- 2.82 Malignant Tumors of Small Intestine, 113
- 2.83 Malignant Tumors of Small Intestine (Continued), 114

SECTION 3 COLON

- 3.1 Development of Large Intestine, 116
- 3.2 Ileocecal Region: External Features, 117
- 3.3 Ileocecal Region: Internal Features, 118
- 3.4 Vermiform Appendix, 119
- 3.5 Mesenteric Relations of Intestines, 120
- 3.6 Typical Sigmoid Colon and Variations, 121
- 3.7 Structure of Colon, 122
- 3.8 Rectum In Situ: Female and Male, 123
- 3.9 Structure of Rectum and Anal Canal, 124
- 3.10 Histology of Anal Canal, 125
- 3.11 Anorectal Musculature: Sigmoid and Cross Section, 126
- 3.12 Anorectal Musculature: External Anal Sphincter, 127
- 3.13 Anorectal Musculature: Muscles of Pelvic Floor, 128
- 3.14 Anorectal Musculature: Pelvic Diaphragm (Male), 129
- 3.15 Blood Supply of Large Intestine: Variations in Cecal and Appendicular Arteries, 130
- 3.16 Blood Supply of Large Intestine: Variations in Colic Arteries, 131
- 3.17 Blood Supply of Large Intestine: Variations in Colic Arteries (Continued), 132
- 3.18 Blood Supply of Large Intestine: Arteries of Rectum and Anal Canal (Male), 133
- 3.19 Lymph Drainage of Large Intestine, 134
- 3.20 Physical Examination, 135
- 3.21 Radiologic and Imaging Studies, 136
- 3.22 Colonoscopy, 137
- 3.23 Biopsy and Cytologic Studies, 138
- 3.24 Congenital Intestinal Obstruction: Anorectal Malformations (Imperforate Anus), 139
- 3.25 Congenital Intestinal Obstruction: Anorectal Malformations (Perineal Approach to Imperforate Anus), 140
- 3.26 Congenital Intestinal Obstruction: Management of Anorectal Malformations, 141
- 3.27 Congenital Intestinal Obstruction: Hirschsprung Disease (Typical Distention and Hypertrophy), 142
- 3.28 Congenital Intestinal Obstruction: Hirschsprung Disease (Aganglionic Megacolon), 143
- 3.29 Congenital Intestinal Obstruction: Hirschsprung Disease (Surgical Repair), 144
- 3.30 Diverticulosis of Colon, 145
- 3.31 Diverticulitis, 146
- 3.32 Volvulus of Sigmoid, 147
- 3.33 Volvulus of Cecum, 148
- 3.34 Intussusception, 149
- 3.35 Diseases of Appendix, 150
- 3.36 Diseases of Appendix (Continued), 151
- 3.37 Abdominal Wounds: Colon—Exteriorization of Sigmoid Wound, 152
- 3.38 Abdominal Wounds: Colon—Wound of Hepatic Flexure, 153
- 3.39 Abdominal Wounds: Rectum, 154
- 3.40 Anorectal Melanoma, Radiation Injury, and Typhlitis, 155
- 3.41 Foreign Bodies in Anus and Colon, 156
- 3.42 Proctologic Conditions: Hemorrhoids, 157
- 3.43 Proctologic Conditions: Prolapse and Procidentia, 158
- 3.44 Proctologic Conditions: Papillitis, Cryptitis, Adenomatous Polyps, Villous Tumor, Fissure, and Pruritus Ani, 159
- 3.45 Proctologic Conditions: Anorectal Abscess and Fistula, 160
- 3.46 Proctologic Conditions: Sexually Transmitted Diseases, 161
- 3.47 Gut Microbiome, 162

- 3.48 Gut Microbiome (Continued), 163
 - 3.49 Parasitic Diseases: Enterobiasis, 164
 - 3.50 Parasitic Diseases: Trichuriasis, 165
 - 3.51 Parasitic Diseases: Ascariasis, 166
 - 3.52 Parasitic Diseases: Necatoriasis and Ancylostomiasis, 167
 - 3.53 Parasitic Diseases: Strongyloidiasis, 168
 - 3.54 Parasitic Diseases: Taeniasis Caused by *Taenia saginata*, 169
 - 3.55 Parasitic Diseases: Taeniasis Caused by *Taenia solium* (*Cysticercus cellulosae*), 170
 - 3.56 Parasitic Diseases: *Hymenolepis nana*, 171
 - 3.57 Parasitic Diseases: Diphylobothriasis, 172
 - 3.58 Helminths and Protozoa: Ova of Helminth Parasites and Pseudoparasites and Rhabditiform Larvae, 173
 - 3.59 Helminths and Protozoa: Giardia Lamblia and Other Protozoans, 174
 - 3.60 Amebiasis: Fecal-Oral Spread of Disease, 175
 - 3.61 Amebiasis: Histology and Scope Images, 176
 - 3.62 Disorders Seen With HIV/AIDS, 177
 - 3.63 *Clostridium difficile* Infection, 178
 - 3.64 Food Poisoning and Infectious Diarrhea, 179
 - 3.65 Ulcerative Colitis: Endoscopic Images and Histology, 180
 - 3.66 Ulcerative Colitis: Etiologic Factors, Complications of Inflammatory Bowel Disease, 181
 - 3.67 Ulcerative Colitis: Ileostomy, 182
 - 3.68 Ulcerative Colitis: Ileal Pouch Anal Anastomosis (IPAA) and Pouchitis, 183
 - 3.69 Crohn's Disease: Histology and Endoscopy, 184
 - 3.70 Crohn's Disease: Imaging, 185
 - 3.71 Crohn's Disease: Strictureplasty, 186
 - 3.72 Microscopic Colitis, 187
 - 3.73 Diversion Colitis, 188
 - 3.74 Ischemic Colitis, 189
 - 3.75 Angioedema, 190
 - 3.76 Strictures Resulting From Use of Nonsteroidal Antiinflammatory Drugs, 191
 - 3.77 Motility of Large Intestine, 192
 - 3.78 Normal Defecation, 193
 - 3.79 Motility Testing, 194
 - 3.80 Pathophysiology of Defecation: Factors Affecting Normal Defecation, 195
 - 3.81 Diarrhea, 196
 - 3.82 Overview of Constipation, 197
 - 3.83 Functional Constipation, 198
 - 3.84 Irritable Bowel Syndrome, Constipation Predominant, 199
 - 3.85 Pelvic Floor Dysfunction and Constipation, 200
 - 3.86 Fecal Incontinence, 201
 - 3.87 Medical Therapy for Motility Disorders, 202
 - 3.88 Chronic Colonic Pseudoobstruction and Toxic Megacolon, 203
 - 3.89 Ogilvie Syndrome, 204
 - 3.90 Colonic Involvement in Systemic Diseases: Diabetes and Scleroderma, 205
 - 3.91 Colonic Involvement in Systemic Diseases: Amyloidosis and Sarcoidosis, 206
 - 3.92 Malignant Tumors of Large Intestine, 207
 - 3.93 Malignant Tumors of Large Intestine (Continued), 208
 - 3.94 Malignant Tumors of Large Intestine (Continued), 209
 - 3.95 Polyposis Syndromes: Familial Polyposis, 210
 - 3.96 Polyposis Syndromes: Multiple Polyposis, 211
 - 3.97 Genetics of Colon Cancer, 212
 - 3.98 Colon Cancer Prevention, 213
 - 3.99 Colon Cancer Screening Guidelines, 214
 - 3.100 Lower Gastrointestinal Bleeding, 215
- Selected References, 217**
- Index, 219**
