

## SECTION 1 LIVER

- 1.1 Development of Liver, 2
- 1.2 Development of Liver and Its Venous System, 3
- 1.3 Prenatal and Postnatal Circulation, 4
- 1.4 Topography of Liver, 5
- 1.5 Surfaces and Bed of Liver, 6
- 1.6 Lesser Omentum, Variations in Form of Liver, 7
- 1.7 Cellular Elements of Liver, 8
- 1.8 Liver Structure: Schema, 9
- 1.9 Vascular Ductal Relations and Liver Lobules, 10
- 1.10 Intrahepatic Vascular System, 11
- 1.11 Vessel and Duct Distribution, Liver Segments, 12
- 1.12 Arterial Blood Supply of Liver, Biliary System, and Pancreas, 13
- 1.13 Hepatic Artery Variations, 14
- 1.14 Cystic Artery and Its Variations, 15
- 1.15 Portal Vein Tributaries, Portacaval Anastomoses, 16
- 1.16 Portal Vein: Variations and Anomalies, 17
- 1.17 Lymphatic Drainage of Liver and Bile Tract, 18
- 1.18 Innervation of Liver and Bile Tract, 19
- 1.19 Congenital and Familial Hyperbilirubinemias, 20
- 1.20 Congenital Anomalies, 21
- 1.21 Liver Functions, 22
- 1.22 Innate Immune System and Liver, 23
- 1.23 Prothrombin Formation, 24
- 1.24 Physical Diagnosis of Liver Disease, 25
- 1.25 Liver Function Tests, 26
- 1.26 Bilirubin and Bile Acid Metabolism, 27
- 1.27 Bilirubin and Bile Acid Metabolism (Continued), 28
- 1.28 Hepatic Protein and Bile Acid Metabolism: Normal Serum Protein and Clotting Factors and Cholestasis, 29
- 1.29 Liver Biopsy, 30
- 1.30 Noninvasive Assessments for Hepatic Fibrosis, 31
- 1.31 Imaging Studies of Liver: Ultrasound, 32
- 1.32 Imaging Studies of Liver: Computed Tomography and Magnetic Resonance Imaging, 33
- 1.33 Liver Diseases Caused by Pregnancy and Incidental to Pregnancy, 34
- 1.34 HELLP Syndrome and Eclampsia, 35
- 1.35 Trauma to Liver, 36
- 1.36 Jaundice in Neonatal Period: Causes, 37
- 1.37 Jaundice in Neonatal Period: Manifestations of Kernicterus and Treatment, 38
- 1.38 Congenital Malpositions of Liver, 39
- 1.39 Pathologic Features of Liver Injury, 40
- 1.40 Pathologic Features of Hepatic Regeneration and Atrophy, 41
- 1.41 Pathologic Features of Hepatic Necrosis, 42
- 1.42 Cirrhosis: Overview, 44
- 1.43 Cirrhosis: Fundamental Vascular Changes, 45
- 1.44 Cirrhosis: Clinical Manifestations, 46
- 1.45 Portal Hypertension: Causes, 47
- 1.46 Clinical Determination of Portal Hypertension, 48
- 1.47 Portal Hypertension: Endoscopic Approach, 49
- 1.48 Portal Hypertension: Transjugular Intrahepatic Portosystemic Shunt, 50
- 1.49 Ascites: Pathogenesis, 51
- 1.50 Renal Complications of Liver Disease, 52
- 1.51 Hepatic Encephalopathy, 53
- 1.52 Metabolic-Associated Steatotic Liver Disease, 54
- 1.53 Alcohol-Associated Liver Disease, 55
- 1.54 Hemosiderosis, Hemochromatosis: Overview of Iron Metabolism, 56
- 1.55 Hemosiderosis, Hemochromatosis: Patterns of Iron Deposition in Secondary Iron Overload and Hereditary Hemochromatosis, 57
- 1.56 Wilson Disease, 58
- 1.57 Alpha-1 Antitrypsin Deficiency, 59

- 1.58 Other Inherited Metabolic Disorders (von Gierke Disease, Galactosemia, Niemann-Pick Disease), 60
- 1.59 Hypoxic Conditions: Shock and Sickle Cell Anemia, 61
- 1.60 Drug-Induced Hepatic Injuries, 62
- 1.61 Acute Viral Hepatitis A and E, 63
- 1.62 Acute Viral Hepatitis A and E (Continued), 64
- 1.63 Hepatitis B and Hepatitis D, 65
- 1.64 Hepatitis B and Hepatitis D (Continued), 66
- 1.65 Hepatitis C: Clinical Picture, 67
- 1.66 Hepatitis C: Proteins Encoded by the HCV Genome, 68
- 1.67 Hepatitis Caused by Herpesviridae: Herpes Simplex Virus and Cytomegalovirus, 69
- 1.68 Hepatitis Caused by Herpesviridae: Epstein-Barr Virus and Varicella-Zoster Virus, 70
- 1.69 Spirochetal Infections (Weil Disease, Syphilis), 71
- 1.70 Granulomatous Liver Disease: Tuberculosis, 72
- 1.71 Granulomatous Liver Disease: Sarcoidosis, Brucellosis, Histoplasmosis, 73
- 1.72 Amebiasis, 74
- 1.73 *Echinococcus* Cyst (Hydatid Disease), 75
- 1.74 Schistosomiasis, 76
- 1.75 Primary Biliary Cholangitis: Histologic Features, 77
- 1.76 Primary Biliary Cholangitis: Clinical Features, 78
- 1.77 Primary Sclerosing Cholangitis: Pathologic Features, 79
- 1.78 Primary Sclerosing Cholangitis: Clinical Manifestations, 80
- 1.79 Autoimmune Hepatitis, 81
- 1.80 Vascular Disturbances: Arterial, 82
- 1.81 Vascular Disturbances: Portal Vein, 83
- 1.82 Hepatic Vein Obstruction: Budd-Chiari Syndrome, 84
- 1.83 Cardiac Liver (Congestive Hepatopathy), 85
- 1.84 Hematologic Malignant Disease and Liver: Hodgkin Disease, Leukemia, Venooclusive Disease, Graft-Versus-Host Disease, 86
- 1.85 Benign Liver Tumors: Hemangioma, 87
- 1.86 Benign Liver Tumors: Focal Nodular Hyperplasia, 88
- 1.87 Benign Liver Tumors: Adenoma, 89
- 1.88 Hepatocellular Carcinoma: Gross Features, 90
- 1.89 Hepatocellular Carcinoma: Histologic Features, and Spread of Primary Carcinoma Within the Liver, 91
- 1.90 Nonsurgical Therapies for Localized Hepatocellular Carcinoma: Percutaneous Ablation, Transarterial Embolization, and Radiotherapy, 92
- 1.91 Cholangiocarcinoma, 93
- 1.92 Metastatic Liver Cancer, 94
- 1.93 Operative Procedures: Wedge Resection/Segmentectomy, 95
- 1.94 Left Lobectomy: Steps 1, 2, and 3, 96
- 1.95 Left Lobectomy: Steps 4, 5, and 6, 97
- 1.96 Extended Right Lobectomy: Steps 1, 2, 3, and 4, 98
- 1.97 Extended Right Lobectomy: Steps 5 and 6, 99
- 1.98 Palliative Therapy in Inoperable Cases: Infusion of Chemotherapeutic Agents via Hepatic Artery Infusion Pump, 100
- 1.99 Liver Transplantation, 101
- 1.100 Liver Transplantation (Continued), 102

## SECTION 2 GALLBLADDER AND BILE DUCTS

- 2.1 Development of Gallbladder and Bile Ducts, 104
- 2.2 Anatomy and Histology of Gallbladder and Bile Ducts, 105
- 2.3 Variations of Extrahepatic Bile Ducts; Accessory Hepatic Ducts, 106
- 2.4 Choledochoduodenal Junction, 107
- 2.5 Function of Gallbladder and Choledochoduodenal Sphincter, 108

- 2.6 Function of Gallbladder and Choledochoduodenal Sphincter: HIDA Scan, 109
- 2.7 Sphincter of Oddi Dysfunction, 110
- 2.8 Sphincter of Oddi Dysfunction (Continued), 111
- 2.9 Noninvasive Imaging of Gallbladder and Bile Ducts, 112
- 2.10 Invasive Imaging Modalities and Minimally Invasive Interventions of the Bile Duct: Percutaneous Cholangiography, ERCP, and MRCP, 113
- 2.11 Invasive Imaging Modalities and Minimally Invasive Interventions of the Bile Duct: Choledocholithiasis and Cholangitis: Management of Stones, 114
- 2.12 Congenital Anomalies: Gallbladder and Bile Ducts, 115
- 2.13 Cholelithiasis: Stone Formation, 116
- 2.14 Cholelithiasis: Clinical Aspects, 117
- 2.15 Cholelithiasis: Pathologic Features, Choledocholithiasis, 118
- 2.16 Hydrops and Empyema of Gallbladder, 119
- 2.17 Interrelation of Gallbladder Diseases, 120
- 2.18 Cholecystitis: Acute and Chronic, 121
- 2.19 Cholecystitis: Later Stages and Complications, 122
- 2.20 Perforation, Subphrenic Abscess, 123
- 2.21 Bile Duct Fistulae, 124
- 2.22 Biliary Injuries and Cholangitis: Extrahepatic Cholangitis, Strictures, Surgical Accidents, 125
- 2.23 Biliary Injuries and Cholangitis: Open Cholecystectomy, 126
- 2.24 Biliary Injuries and Cholangitis: Laparoscopic Cholecystectomy, 127
- 2.25 Diagnosis of Biliary Tract Disease, 128
- 2.26 Tumors of Gallbladder, 129
- 2.27 Tumors of Bile Ducts, 130
- 2.28 Ampullary Tumors, 131
- 2.29 Postcholecystectomy Syndrome, 132

## SECTION 3 PANCREAS

- 3.1 Development of Pancreas, 134
- 3.2 Arterial Blood Supply of Liver, Biliary System, and Pancreas, 135
- 3.3 Anatomy and Histology of Pancreas, 136
- 3.4 Pancreatic Ducts and Variations, 137
- 3.5 Peritoneal Relations of Pancreas, 138
- 3.6 Surgical Approaches to Pancreas, 139
- 3.7 Lymphatic Drainage of Pancreas, 140
- 3.8 Innervation of Pancreas, 141
- 3.9 Normal Secretion of the Pancreas, 142
- 3.10 Biochemical Changes in Acute Pancreatitis, 143
- 3.11 Biochemical Changes in Pancreatic Obstruction, 144
- 3.12 Laboratory Aids in Pancreatic Disease, 145
- 3.13 Congenital Anomalies of Pancreas, 146
- 3.14 Cystic Fibrosis of Pancreas, 147
- 3.15 Acute Pancreatitis, 148
- 3.16 Chronic Pancreatitis, 149
- 3.17 Pancreatic Cysts, 150
- 3.18 Malignant Tumors: Solid Tumors (Exocrine and Endocrine Neoplasms), 151
- 3.19 Malignant Tumors: Carcinoma, Gross Pathology, Clinical Features, 152
- 3.20 Malignant Tumors: Histology, Metastases, 153
