List of Figures	xvii
List of Tables	xix
Part I	
Introduction	7
1 Some Introductory Facts	3
The Meaning of Economic Development, 3 Grouping Countries by Income Levels, 5 Comparing Levels of Economic Advance, 8 Growth Rates, 10 A "Stern Chase", Appendix, 15	
2 Barriers to Growth	21
Low Income as a Barrier, 22 Structuralist Theory: Inertness, 23 Shortage of Capital, 23 <i>Dependencia</i> Theory, 24 Malign Purpose, 26 Neo-Marxist Theories, 27	
3 Dissimilarities	34
The Physical Basis of Life: Size, Geography, Topography, Minerals, 34 The Country and the World: Contact with the West, 35 The Country and the World: Nationhood, 36 The Country and the World: Colonial Rule, 39 National Character, 43 The Physical Basis of Life: Tropical Location, 46 Concluding Comment, 48	
4 The Low Income Countries, Impoverished People, and the Growth Process	51
Peasant Agriculture, 51 Economic Sectors, 56 How Poor Are They?, 60 The Least Developed Countries, 67 The Meaning of Poverty, and Its Extent, 69 The Growth Process, 75 Appendix: Per Capita Income Comparisons: Added Comments, 77	
Part II	
Agriculture and Industry	81

5	Agriculture	83
	<i>The Importance of Agriculture, 83</i> Important in Two Ways, 83 <i>Prices and Productivity, 86</i> Three Kinds of Prices, 86 <i>Land Reform, 91</i> Facts about Farm Sizes, 91 <i>The Process of Land Reform, 95</i> The Results of Land Reform, 97 <i>The Problem of Productivity, 101</i> Induced Innovation, 102 <i>The Green Revolution, 103</i> Economic Morals and Economic Effects, 105	
6	The Economics and Technology of Industrialization	113
	The High Productivity of Manufacturing, 114 Advance in and Expansion of Manufacturing, 119 Industrialization: A Difficult Process, 121 The Economics of the Industrialization Process, 129 Manufacturing Sequences, 131 Appendix: The World's Minerals Supply, 133	
7	Industrialization, II: Inward and Outward Orientations	142
	Policy Choices, 142 Methods: Import Substitution, 144 The Historical Trend, 147 Methods: Export Promotion, 148 The Results, 151 The Economics of Industrialization Policy, 151 The Difficulty of the Transition, 154 Partial Transition, 156 The Virtues of Import Substitution, 157 Industrial Processing Zones, 158 Exports the Engine of Industrialization?, 159 Future Markets for Added LDC Manufactures, 162 Appendix: The Cost of Capital-Intensive Production in Lower-Income Countries, 164 Capital- and Labor-Intensive Innovation, 165	
Part III		
	Economic Growth: Domestic Inputs	169
8	The Supply and Employment of Labor	171
	<i>Introduction: Outputs, Inputs, and Productivity, 171</i> The Denison Study, 171 <i>Employment and Unemployment, 173</i> Labor Force Increase, 1970–2000, 173 Labor Availability: Technological Unemployment, 174 The Employment Record, 177 <i>The Labor Surplus: Theory and Reality, 180</i> Theory of the Labor-Surplus Economy, 180 The Labor-Surplus Economy: Zero MPL, 182 The Labor-Surplus Economy: The Todaro Thesis, 184 Where the Jobs Are, 187 Factor Proportions: Empirical Evidence, 189 Institutional Wastes: Empirical Evidence, 190 International Labor Migration, 191 Appendix: A Precise Model of Technological Disemployment, 192	

9	Obtaining Resources for Capital Formation	198
	Terms about Capital and Capital Formation, 198 The Meaning of Saving, 200 Sources of Early Saving for Growth, 202 Sources of Saving: The Fei-Ranis Model, 203 Sources of Early Saving: Lewis's Model, 205 Saving Rates at Later Stages of Growth, 208 Savings Institutions, 210 Interest Rates and Saving Rates, 211 The Two Gaps, 211 Labor-Intensive Rural Projects, 213	
10	Education and Human Capital Formation	217
	The State of LDC Education, 218 The Effects of Education, 223 Improving LDC Education, 227 Demand and Supply, 230 The Brain Drain, 230 Appendix: Rates of Return to Education, 231	
11	Innovational Entrepreneurship	236
	The Nature of the Entrepreneurial Function and of the Entrepreneur, 236 Whence Entrepreneurs?, 240 Sociology and Economics, 244 The Export of Technology by LDCs, 246	
12	Government	251
	<i>Government as Spender, Taxer, and Producer</i> , 251 Introduction: Institutions, 251 The Government as Spender, 254 Tax Structure and Tax Policy, 255 LDC Officials as Managers: State-Owned Enterprises, 258 <i>Inflation and Growth</i> , 260 The Possible Causes of Inflation, 262 The Effects of Inflation on Growth, 265 Ending Inflation, 268 <i>Project Planning</i> , 270 Opportunity Cost: Shadow Prices, 271 Appendix: Macroplanning and Intersectoral Planning, 274	
13	Two Instructive Cases	289
	<i>Japan</i> , 289 The Economic Structure, 290 The Japanese Corporation, 293 The Explanation of Success: A Summary, 295 <i>China</i> , 297 Introduction, 297 Maoism, 298 The Organization of Agricultural Production, 300 Nonagricultural Enterprise, 302 Economic Results, 304 <i>Governmental Institutions and Growth: Some Generalizations</i> , 306	
	Part IV	
	<i>Population Theory, Economic Growth, and Income Distribution</i>	311

14	The Demand Side	313
	Sources of Increase in Demand: Capital Widening, 314 Demand: Deficit Governmental Financing, 314 Increasing Demand: The Need for Imports, 315 Obtaining Foreign Exchange: Capital Inflow, 315 Obtaining Foreign Exchange: Exports, 316 The Special Case: Filling Empty Lands, 317	
15	The Theory of Population Growth	319
	The World's Past Population Growth, 319 The World's Future Population Growth, 321 Is World Starvation Likely?, 326 The Determinants of Fertility Rates, 329 Fertility Theories, 330 The National Decision, 332 Malthusian-Ricardian Theory, 334 The Theory of a Low-Level Equilibrium Trap, 338	
16	The Effects of the Rate of Population Growth on Economic Growth	345
	Man and the Land: Population and Economic Growth, 345 The Effects of the Rate of Population Increase, 345 Urbanization, 352	
17	The Income Distribution Problem	361
	Portraying the Distribution of Income, 361 The Incomes of Households, 363 Economic Growth and Income Distribution, 366 Immiseration?, 369 The Speed of Growth and the Distribution of Income, 370 The Rate of Population Growth and Income Distribution, 373 Income Distribution: Policy Measures, 373 Direct Aid to the Poor, 374 The Distribution of Income and the Speed of Growth, 378	
 <i>Part V</i>		
	<i>International Factors in Growth</i>	381
18	Commercial Policy	383
	Terms of Trade, 384 Access to Industrial Countries, 387 Customs Unions and Free Trade Areas, 389 Cartels, 394 Price and Income Stabilization, 400	
19	Capital Inflows: I	409
	<i>Capital Inflows in General</i> , 409 Types of Capital Inflows: Five Examples, 409 The Importance of Capital Inflows, 411 <i>Direct Investment</i> ,	

415 Magnitudes and Reasons, 415 Pros and Cons, 417 MNCs and the LDC Governments, 422 The Dream of International Regulation, 424 LDC MNCs, 424

20 Capital Inflows: II 428

Economic Aid, 428 Introduction, 428 Economic Aid: Organizations, Sources, Destinations, 430 Economic Aid: Programs and Problems, 437 Economic Aid: Beneficial? Obligatory? Terminable?, 440 *Monetary Stability and Monetary Expansion*, 443 The IMF, 443 The Loans of the 1970s, 447

21 Dreams and Grim Reality, 1980–2000 455

The Demand for a New International Economic Order, 455 The Two Decades before 2000, 459

Name Index 463
