

# Table of Contents (Summary)

	Intro	xxiii
1	A quick dip into JavaScript: <i>Getting your feet wet</i>	1
2	Writing real code: <i>Going further</i>	47
3	Introducing functions: <i>Getting functional</i>	83
4	Putting some order in your data: <i>Arrays</i>	131
5	Understanding objects: <i>A trip to Objectville</i>	181
6	Interacting with your web page: <i>Getting to know the DOM</i>	239
7	Types, equality, conversion, and all that jazz: <i>Serious types</i>	275
8	Bringing it all together: <i>Building an app</i>	331
9	Handling events: <i>Getting asynchronous</i>	397
10	Anonymous and higher-order functions: <i>Liberated functions</i>	445
11	Modern syntax, lexical scope, and closures: <i>Serious functions</i>	491
12	Advanced object construction: <i>Creating objects</i>	543
A	Leftovers: <i>The top ten things (we didn't cover)</i>	593
