

CONTENTS

1. ABOUT THE AUTHOR	5
2. INTRODUCTION.....	5
3. CELL INVASION AND MOTILITY ASSAYS.....	7
3.1. Cancer cells.....	7
3.1.1. Addressing cancer invasion and cell motility with quantitative light microscopy.....	7
3.1.2. Novel shear flow assay provides evidence for non-linear modulation of cancer invasion.	7
3.1.3. Evidence for protein 4.1B acting as a metastasis suppressor.....	11
3.1.4. Phase-Shifting Interference Microscopy Applied to the Analysis of Cell Behavior	12
3.1.5. An image-processing system for cell behavior studies in subconfluent cultures.....	13
3.1.6. FoxO1-GAB1 axis regulates homing capacity and tonic AKT activity in chronic lymphocytic leukemia	16
3.2. Kindlin-3 protein in leukocyte cells.....	17
3.2.1. Novel automated tracking analysis of particles subjected to shear flow: Kindlin-3 role in B cells	17
3.3. Novel biomarker for high content screening	19
3.3.1. High content screening and analysis	19
3.4. Ephrin-B2 protein in vascular smooth muscle cells.....	20
3.4.1. Ephrin-B2 controls cell motility and adhesion during blood-vessel-wall assembly.....	20
3.5. Chemotaxis	21
3.5.1. A new direct-viewing chemotaxis chamber	21
3.5.2. Chemotaxis of macrophages is abolished in the Wiskott-Aldrich syndrome	23
3.5.3. Restoration of podosomes and chemotaxis in Wiskott-Aldrich syndrome macrophages following induced expression of WASp.....	25
4. INTRACELLULAR MOTION AND CHARACTERISATION OF MOLECULES... 	26
4.1. Role of mutant connexin 31 proteins.....	26
4.1.1. EKV mutant connexin 31 associated cell death is mediated by ER stress.....	26

4.1.2. Defective trafficking and cell death is characteristic of skin disease-associated connexin 31 mutations	27
4.2. Fluorescence Correlation Spectroscopy	30
4.2.1. Biophysical characterization of an integrin-targeted lipopolyplex gene delivery vector	30
4.3. Fluorescence Resonance Energy Transfer	31
4.3.1. Connexin interaction patterns in keratinocytes revealed morphologically and by FRET analysis	32
4.3.2. Quantitative fluorescence resonance energy transfer (FRET) measurement with acceptor photobleaching and spectral unmixing.....	32
4.4. Fluorescence Localization After Photobleaching.....	34
4.4.1. Rapid actin transport during cell protrusion	34
5. CONCLUSIONS	36
6. REFERENCES.....	37
