PREFACE

PREFACE	5
CURRICULUM VITAE	7
VILD, J.: Laudation	9
TESCHKE, L.: Grußwort	11
GÖPFERT, A. - SEKATZEK, M. - TAMMER, Ch.: Novelties around Ekeland's Variational Principle	13
GUDDAT, J.: On Nožička's Concept of Parametric Optimization and Further Developments	21
HANČLOVÁ, J. - TVRDÝ, L.: Cross-sectional Analysis of Modified Phillips Curve in the Czech Republic	27
HOLLATZ, H.: On Sequels of the supporting Hyperballs Method by F. Nožička	37
KAŇKOVÁ, V.: A Note on Multistage Stochastic Programming	45
KLÖTZLER, R.: The Attraction of Mark-down	53
KRACÍK, V. - PRÁŠIL, L. - ŠEVČÍK, L.: Geometry of non-circular Gears	59
KUBANOVÁ, J. - LINDA, B.: Stochastic Model of Running time of Means of Transport on the Route	65
PELIKÁN, J.: Minimal Peak Source Consumption Scheduling	69
PICEK, J. - LINKA, A. - VOLF, P.: Markov Chain Monte Carlo Methods of Optimization and Model Selection	75
ROMÁNEK, Z.: Location Problems	85
SLADKÝ, K.: Perturbation Formulas for Semi-Markov Processes	95
SOJKA, J.: Expected Development of Efficiency of the Slovak Economy	103
THARWAT, A. - ZIMMERMANN, K.: On Optimal Choice of Parameters in Machine Time Scheduling Problems	107
VOLF, P. - LINKA, A. - PICEK, J.: On Counting Processes and Related Models with Application to Analysis of Streams of Events	113
ZADNIK STIRN, L.: Interactive, Dynamic and Multiattribute Methods in Environmental Economics	123
PROGRAMME	133
LIST OF PARTICIPANTS	137
