Part I Introduction to Plankton Ecology and Major Groups

- | | | |
|---|--|----|
| 1 | An Introduction to the World of Marine Plankton | 3 |
| 2 | Plankton Size Classification | 11 |
| 3 | From the Bottom Up: Phytoplankton's Major Groups | 15 |
| 4 | Ocean's Hidden Hardeners: The World of Underwater Micro-Grazers | 21 |
| 5 | Bacteria and Archaea: The Crucial Roles of Prokaryotes in Ocean Environments | 27 |
| 6 | Tiny Terrors of the Ocean: Planktonic Viruses and Parasites | 33 |
| 7 | The Hidden World of Marine Fungi | 41 |

Part II Plankton Distribution and Habitats

- | | | |
|---|--|----|
| 8 | The Biomass Distribution in Earth's Ecosystems | 47 |
|---|--|----|

9	A Patchy Ocean: From Microscopic Meals to Macroscale Aggregations	53
10	Plankton Across Ecosystems	61
11	Adrift but not Lost: Dispersal and Colonization Strategies of Plankton	71
12	Sailing Through Chaos: Turbulence's Impacts on Plankton	75
13	Plankton Sentinels: Resting Cysts and Dormancy	81
14	The Paradox of the Plankton: The Kill the Winner Hypothesis	87
Part III Global Environmental Change		
15	Understanding Global Change, Global Warming, and Climate Change: A Comprehensive Guide	93
16	The Impacts of Global Warming on Marine Plankton	97
17	The Consequences of Smaller Plankton in a Warmer Ocean	105
18	The Ocean's Biological Pump: A Crucial Ally Against Global Warming	109
19	Blue Carbon Revolution: Exploiting Plankton to Combat CO₂ Emissions	113
20	The Impact of Large-Scale Climatological Events on Plankton Populations	119
21	Ocean Acidification and Plankton	127

22	Nutrient Availability and Its Consequences for Plankton in a Changing World	133
23	Global Change and Salinity: Implications for Plankton	139
24	The Underappreciated Threat of Ultraviolet Radiation to Marine Plankton	147
25	The Silent Killers: Classic and Emerging Pollutants and Marine Plankton	155
26	The Unseen Threats: Effects of Sound and Light Pollution on Plankton	163
27	Plankton and Global Fisheries	169
28	Predicting the Future of Our Seas and Ocean Ecosystems: Reality or Chimera?	175
29	The Plankton Time Machine: A Journey Through Geological Eras	181
Part IV Case Studies and Regional Perspectives		
30	The Effects of Global Change on Plankton in Polar Regions	189
31	The Effects of Global Change on Plankton in Tropical Regions	195
32	Effects of Global Change on Plankton in Temperate Regions	199
Part V Future Directions		
33	Plankton and Human Society	207

34 Emerging Trends and Future Research Directions in Plankton Studies	215
Glossary	225
Supplementary Bibliography	231
Part V Future Directions	
Plankton and Human Society	237
Part IV Case Studies and Regional Perspectives	
The Impact of Global Warming on Plankton	247
The Effects of Global Change on Plankton in Polar Regions	257
The Effects of Global Change on Plankton in Tropical Regions	267
Effects of Global Change on Plankton in Temperate Regions	277
The Impact of Large Scale Climate Change on Plankton	287
The Plankton Time Machine: A Journey Through Geological Eras	297
The Plankton Time Machine: A Journey Through Ecological Eras	307
Predicting the Future of Our Seas and Oceans	317
Plankton and Global Fisheries	327
Pollution on Plankton	337
The Unseen Threat: Effects of Sound and Light	347
Plankton and Marine Pollution	357
The Silent Killers: Classic and Emerging Pathogens	367
Radiation to Marine Plankton	377
The Underappreciated Threat of Ultraviolet Radiation	387
