

Table of Contents

1 Introduction 5

2 University theses 5

2.1 Standards of final thesis in pedagogical disciplines 6

2.2 Standards for final theses in practical teaching and vocational subjects for secondary schools 7

3 Topics of the final theses 12

3.1 Choice of topic 12

3.2 Topics of the final theses of teachers of practical teaching and vocational subjects of secondary schools
15

4 Didactic texts and their creation 17

4.1 Features of textbooks and other didactic texts 21

4.2 The process of learning from didactic texts 23

4.3 Requirements 29

4.4 Structure of the textbook 29

5 Examples of structural components of didactic texts 33

5.1 Verbal components 33

5.2 Non-verbal components 47

6 Quality criteria for didactic texts in the Czech Republic and worldwide 49

6.1 Czech Republic 49

6.1.1 Evaluation of textbooks and teaching texts by the Ministry of Education 50

Methodological and didactic treatment of the textbook 51

6.2 Germany 52

6.3 Hong Kong 53

6.4 Slovakia 53

6.5 Serbia 54

6.6 Republic of Korea 54

6.7 Estonia 55

7 How to assess the quality of textbooks and other didactic texts 55

7.1 Measuring didactic design 58

8 Didactic design of textbooks and other didactic texts 61

8.1 Examples of didactic design of didactic texts created in the final thesis of future teachers 62

8.2 Conclusion 69

8.3 Recommendations for authors of didactic texts 70

8.4 New quality criteria for didactic texts 71

9 Artificial intelligence in didactic texts 74

9.1 The use of artificial intelligence in education 75

9.2 Using ChatGPT in the creation of didactic texts 78

9.2.1 Modified Think-pair-share method 79

9.2.2 Dramatization methods 80

9.2.3	Group work	84
9.2.4	More samples	88
10	Conclusion	88
11	Literature	90
12	Name register	94
13	Index of terms	96
