

CONTENTS

INTRODUCTION.....	8
1 THEORETICAL ESSENTIAL OF INQUIRY BASED SCIENCE EDUCATION.....	9
1.1 Primary science education in the system of natural sciences	10
1.2 Teaching and learning about nature in primary education	13
1.2.1 Science literacy	14
1.2.2 Preconceptions and misconceptions	18
1.2.3 Qualifications of scientific work.....	22
1.3 Goals, strategies and methods of primary science education in Slovakia	24
1.3.1 Goals of science in primary education.....	26
1.3.2 Goals of primary science education from the perspective of the 2023 curriculum reform	30
1.4 University training primary science education teachers.....	32
1.5 Specifics of education and training of students in primary science education	33
1.6 Inquiry-based science education.....	42
1.7 Assessment in inquiry-based science education	52
2 QUALITATIVE METHODOLOGY AS A BASIS OF THE RESEARCH FOR INQUIRY-BASED TEACHING SCIENCE EDUCATION	55
2.1 Research problem	55
2.2 Goal of research.....	57
2.3 Research questions.....	57
2.4 Tools and methods in the conducted research	58
2.5 The research sample	61
2.6 Research implementation.....	62
3 INTERPRETATION OF RESEARCH RESULTS (ENTRY ESSAYS).....	65
3.1 Research results and their interpretation.....	66
3.1.1 Understanding the concept of inquiry approach in science education.....	67
3.1.2 Concepts and expectations in the implementation of topics with an inquiry approach.....	68
3.1.3 Expectations about the student's position in the inquiry approach	68
3.1.4 Expectations about the teacher's position in the inquiry approach	69
4 ANALYSIS OF THE TEACHER INQUIRY COMPETENCES IN THE ACTIVITY 'HOW THE PULLEY HELPS US'	70
4.1 Theoretical background	70
4.2 Stimulating situation/problem	72

4.3	Tools	74
4.4	Research design	74
4.4.1	Fixed pulley	77
4.4.2	Movable pulley	78
4.4.3	Hoist.....	79
4.5	Evaluation	80
4.6	Transfer to new situation	83
5	ANALYSIS OF TEACHER INQUIRY COMPETENCES IN THE ACTIVITY 'HEART - DRUM OF LIFE'	85
5.1	Theoretical background	85
5.2	Stimulating situation/problem	87
5.3	Tools	90
5.4	Research design	91
5.4.1	Structure of the heart.....	92
5.4.2	Activity of the heart – 'Heart - drum of life'.....	97
5.5	Evaluation	102
5.6	Transfer to new situation	109
6	ANALYSIS OF THE TEACHER'S INQUIRY COMPETENCES IN THE ACTIVITY 'HOW WE CLASSIFY ANIMALS'	111
6.1	Theoretical background	111
6.2	Stimulating situation/problem	111
6.3	Tools	113
6.4	Research design	114
6.5	Evaluation	117
6.5.1	Fish.....	117
6.5.2	Amphibians.....	119
6.5.3	Reptiles	120
6.5.4	Birds.....	121
6.5.5	Mammals.....	123
6.5.6	Invertebrates.....	124
6.6	Transfer to new situation	129
7	ANALYSIS OF THE TEACHER INQUIRY COMPETENCES IN THE ACTIVITY 'PLANT GROWTH IN THE SHADE'	132
7.1	Theoretical background	132
7.2	Stimulating situation/problem	134
7.3	Tools	138

7.4	Research design	139
7.4.1	Monitoring plant growth in the shade	140
7.4.2	A shade in an experiment.....	147
7.5	Evaluation	151
7.6	Transfer to new situation	156
8	ANALYSIS OF THE TEACHER INQUIRY COMPETENCES IN THE ACTIVITY 'NATURAL COMMUNITY OF OUR SCHOOL'	160
8.1	Theoretical background	160
8.2	Stimulating situation/problem	163
8.3	Tools	165
8.4	Research design	166
8.4.1	Trees around our school.....	168
8.4.2	Flowering plants around our school.....	173
8.4.3	Fungi around our school	176
8.4.4	Animals around our school	177
8.5	Evaluation	180
8.6	Transfer to new situation	183
9	INTERPRETATION OF RESEARCH RESULTS (EXIT ESSAYS).....	187
9.1	Changes in students' initial concepts to inquiry approach in science education....	188
10	RESEARCH CONCLUSIONS AND DISCUSSION.....	190
10.1	Conclusions from the analysis of teaching with an inquiry approach	191
10.2	Conclusions from qualitative research (essays).....	192
