
Table of Contents

Preface.....	vii
1. What Is a Regular Expression?.....	1
Getting Started with Regexpal	2
Matching a North American Phone Number	3
Matching Digits with a Character Class	5
Using a Character Shorthand	5
Matching Any Character	6
Capturing Groups and Back References	6
Using Quantifiers	7
Quoting Literals	8
A Sample of Applications	9
What You Learned in Chapter 1	11
Technical Notes	12
2. Simple Pattern Matching.....	13
Matching String Literals	15
Matching Digits	15
Matching Non-Digits	17
Matching Word and Non-Word Characters	18
Matching Whitespace	20
Matching Any Character, Once Again	22
Marking Up the Text	24
Using <i>sed</i> to Mark Up Text	25
Using Perl to Mark Up Text	26
What You Learned in Chapter 2	27
Technical Notes	28
3. Boundaries.....	31
The Beginning and End of a Line	31

Word and Non-word Boundaries	33
Other Anchors	35
Quoting a Group of Characters as Literals	36
Adding Tags	38
Adding Tags with <i>sed</i>	39
Adding Tags with Perl	40
What You Learned in Chapter 3	41
Technical Notes	41
4. Alternation, Groups, and Backreferences.....	43
Alternation	43
Subpatterns	47
Capturing Groups and Backreferences	48
Named Groups	51
Non-Capturing Groups	52
Atomic Groups	53
What You Learned in Chapter 4	53
Technical Notes	53
5. Character Classes.....	55
Negated Character Classes	57
Union and Difference	58
POSIX Character Classes	60
What You Learned in Chapter 5	61
Technical Notes	62
6. Matching Unicode and Other Characters.....	63
Matching a Unicode Character	64
Using <i>vim</i>	66
Matching Characters with Octal Numbers	67
Matching Unicode Character Properties	68
Matching Control Characters	71
What You Learned in Chapter 6	73
Technical Notes	73
7. Quantifiers.....	75
Greedy, Lazy, and Possessive	76
Matching with *, +, and ?	76
Matching a Specific Number of Times	77
Lazy Quantifiers	78
Possessive Quantifiers	79
What You Learned in Chapter 7	81

81	Technical Notes
83	8. Lookarounds
83	Positive Lookaheads
86	Negative Lookaheads
86	Positive Lookbehinds
87	Negative Lookbehinds
88	What You Learned in Chapter 8
88	Technical Notes
89	9. Marking Up a Document with HTML
89	Matching Tags
90	Transforming Plain Text with <i>sed</i>
91	Substitution with <i>sed</i>
92	Handling Roman Numerals with <i>sed</i>
93	Handling a Specific Paragraph with <i>sed</i>
93	Handling the Lines of the Poem with <i>sed</i>
94	Appending Tags
95	Using a Command File with <i>sed</i>
96	Transforming Plain Text with Perl
98	Handling Roman Numerals with Perl
98	Handling a Specific Paragraph with Perl
98	Handling the Lines of the Poem with Perl
99	Using a File of Commands with Perl
101	What You Learned in Chapter 9
101	Technical Notes
103	10. The End of the Beginning
104	Learning More
105	Notable Tools, Implementations, and Libraries
105	Perl
105	PCRE
106	Ruby (Oniguruma)
106	Python
107	RE2
107	Matching a North American Phone Number
108	Matching an Email Address
109	What You Learned in Chapter 10
111	A. Regular Expression Reference
125	Regular Expression Glossary

Index.....	131
