Preface

Acknowledgments

1. What Are Daily Life Methods?	3
<i>Three Defining Features of Daily Life Methods</i>	4
<i>Comparing Daily Life Methods With Other Popular Methods</i>	12
<i>Apt Research Questions for Daily Life Methods</i>	14
<i>Conclusion</i>	15
2. Choosing a Sampling Design	17
<i>Sampling From Daily Life</i>	17
<i>Event-Based Sampling</i>	19
<i>Fixed-Interval Sampling</i>	22
<i>Random-Interval Sampling</i>	27
<i>All of the Above: Combining Sampling Designs</i>	31
<i>Conclusion</i>	33
3. Designing Self-Report Surveys	35
<i>The Trade-Offs Among Items, Beeps, and Days</i>	36
<i>Developing Items</i>	38
<i>Survey Features</i>	46
<i>Measurement Reactivity</i>	48
<i>Conclusion</i>	51

4. Selecting a System for Signals and Surveys	53
1. Does the System Send Signals, Collect Data, or Both?	54
2. Is the Equipment Yours or Theirs?	55
3. Can Participants Ignore or Control the Signal?	58
4. How Does Time Get Stamped?	59
5. Do Missed Surveys Vanish?	61
6. How Convenient Is the Survey Process for Participants?	62
7. What Are the Initial and Ongoing Costs?	63
8. Does It Suit the Participants and Their Environments?	64
9. How Much Training Will Personnel and Participants Need?	65
10. How Private Is Data Collection, and How Secure Are the Data?	65
Conclusion	67
5. Collecting Data	69
Preparing to Run the Study	70
Running the Study	83
Improving Response Rates and Data Quality	89
Conclusion	92
6. Cleaning and Processing Your Data	93
Organizing Your Data	93
Assessing Data Quality	102
Conclusion	109
7. Analyzing Daily Life Data	111
Some Peculiar Qualities of Daily Life Data	112
Some Vexing Issues	119
Conclusion	125
8. Presenting and Publishing Your Research	127
Presenting Daily Life Research	128
Publishing Daily Life Research	131
Conclusion	138
References	139
Index	157
About the Authors	165
